A Deadly Foe Who Gives No Quarter.

WHOLE NO. 12400

Disease never grows weary; never pro-claims a peace. Poisons bred under certain conditions within our own bodies are the deadly foes of the human race. At first is is only a slight cold, but neglect soon multi-plies the trouble. How many thousands there are who are guilty of neglecting to care for their health until they see it slip; ping from them? Thousands, I should have said millions, have

TOO Far along to stop? How easily might all such people have prevented this sad ending by a timely use of Tolu, Tar and Tamarack. How readily would the trouble have been

checked had a little of this grand medicine been taken in sweetened water before it was LATE.

Now is the time to stop such troubles; not

where in Europe. RHODES RESPONSIBLE. The impression in well-informed cir-cles here is that the invasion of the Transvaal was indeed a plot of Cecil Rhodes with the ultimate object of establishing a general South African republic, and that it failed either because Rhodes' ability had been overestimated or because his reported collapse at a critical moment is true. A formal official inquiry seems now cer-

A KNOTTY POINT In an interview on the Transvaal situation, J. B. Robinson, the richest of the South African millionaires, and the largest employer of labor in the Rand, said that the question of granting the franchise to the Uitlanders was the only knotty point. In a recent conversation between Mr. Robinson and President Kruger the latter said: "If I give the franchise to the foreigners I may as well haul down the Transvaal flag." Mr. Robinson evertheless believes that a modified franchise will be given to the Uit-

BISMARCK FOR PEACE. The feeling of back-down is still said to be noticeable in the German press utterances, and great importance is attached to an article in the Hamburger Nachrichten, which is said to have been directly inspired by Prince Bismarck, in which it indirectly disapproves of the Government's attitude and adds: "The duty of the Government is more to defend the internal and external peace of the country against disturbances than to pro-mote foreign enterprises,"

WILLIAM TO VICTORIA. London, Jan. 11.—The Telegraph this morning publishes a dispatch from Berlin stating that Emperor William received by special message on Jan. 8 an autograph letter from Queen Victoria. The Emperor's autograph reply is now in the Queen's hands. It understood that the Emperor remarked to his entourage that he bethat the terms of his reply would be acceptable. The writer of the dispatch affirms that the letters eferred to the political situation, and that his Majesty, in his reply, in brief general terms proffered his hand to the English people. The latter, it is said, also confirms the assurances given by the German Ministers that Emperor had no intention of casting a slur on the dignity of England.

IN CONGRESS. Washington, Jan. 11 .- In the Senate resterday Mr. Morgan (Dem., Ala.), ormerly chairman of the committee on foreign relations, introduced a joint resolution, congratulating the Republic of Transvaal in Africa for the stand for liberty which it had taken and directing the President of the United States to transmit the action to the Republic of Transvaal, Referred to the committee on foreign relations.

Free and easy expectoration immediately relieves and frees the throat and lungs from viscid phlegm, and a medicine that promotes this is the best medicine to use for coughs, colds, inflammation of the lungs and all affections of the throat and chest. This is precisely what Bickle's Anti-Consumptive Syrup is a specific for, and wherever used it has given unbounded satisfaction.
