GRAIN.			

GRAIN. TORONTO

Toronto, May 7.—Crop news from the west is rather bearish today, as this morning's dispatches are to the effect that the seeding is proceeding rapidly, not only in the west, but in Ontario, and that the time lost through the late spring will in all probability be made up, owing to the lavorable conditions at present prevailing. Prices are therefore easier. The local market this morning was practically deserted. The farmers are 1.0 w seizing every possible opportunity to attend to their farm work, which perhaps accounts for the very small attendance at the market this morning.

There were only nine loads of hay offered for sale. These were mostly sold at \$14, though one load brought \$44 50. This was the only commodity offered for sale this morning.

Sheep—Receipts estimated at 5,000; market strong, active; sheep, natives, \$3 90 to \$6 50; westerns, \$4 to \$6 50; yearlings, \$6 25 to \$7 50; lambs, natives, \$6 25 to \$9; westerns, \$6 50 to \$9 35.

TORONTO.

Toronto, May 5.—The run of 98 cars for two days' market proved to be on the light side in view of the present active demand for all classes of cattle. While the demand for export cattle is active, the fact that the local butcher demands are making a considerable call for cattle of the export class, tends to stiffen prices. An extra choice load of exporters sold today at the top price of \$6 30, and these same cattle will escape all the discomforts and sickness attending a sea voyage. Anything of average fair quality in butcher cattle sold firm at anywhere from \$5 to \$5 50.

from \$5 to \$550.

There is now an active demand for stockers and feeders, and the small supply of cattle for this purpose has sent prices up from 25c to 50c. Heavy feeding steers of choice quality are quoted at \$5 and over, to go on to grass, a pretty sure indication that export prices are likely to go higher before many moons.

The run yesterday and today included was 98 loads, with 1,655 head of cattle, 118 sheep and lambs, 900 hogs and 424 calves.

Important features continue to be the copper stocks and the smelting shares with very large burying of steel shares with very large burying of steel shares with very large burying of steel shares. Speculation is now broadening and it looks as if today's strength will be maintained. One significant feature about the situation was the heavy buying about the situation was the heavy buying 5 of stocks here by London speculators who have been sellers for several days past. Did Not Aver That It Would Please Him to Amputate Mrs. Burton's Nose.

There was much that was humorous at the police court this morning. Mrs. Mary Ann Burton, who lives at 163½ John street, charged Roy Adams, her neighbor, in the police court this morning with threatening to "Slash her nose off." Mr. Adams denied the "soft impeachment," all though he admitted that he might have suggested to Mrs. Burton that he "would punch her face."

The trouble arose over a clothes line which Mrs. Burton fastens to Mr. Adams' fence. He stated that on several occasions the line has pulled the boards off, and he has had a lot of trouble nailing them up again. He has repeatedly asked Mrs. Burton to put up a post or do something, so that she will not have to pull his fence down.
