How to Have the Best Cough Syrup and Save \$2, by Making It at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take two cups of granulated sugar, add one who had been regenerated were God's cup of warm water and stir about 2 min-chosen vessels to carry the message of utes, you have as good syrup as money

could buy. If you will then put 2½ ounces of Pinex (50 cents' worth) in a 16-ounce bottle, and fill it up with the Sugar Syrup, you will have as much cough syrup as you will have as much cough syrup as you could buy ready made for \$2.50. It keeps per-fectly. Any housewife can easily pre-pare it in five minutes.

And you will find it the best cough syrup you ever used—even in whooping cough. You can feel it take hold—usually stops the most severe cough in 24 hours. It is just laxative enough, has a good tonic effect, and taste is pleasant. Take a teaspoonful every one, two or three hours.
