MANY BUSH FIRES IN

THE GREAT NORTHLAND 40 Serious Damage Yet, But Fires Are Alarming the Residents.

[Canadian Press.] Haileybury, Ont.. June 11.-An exceptionally warm spell coupled with a high wind has fanned scores of bush fires into flame again in the north, and, while

no serious damage has been done to date, the fires are alarming. On Tuesday the Haileybury fire department was called upon to fight two fires in separate sections, which threatened outlying buildings. In New Liskeard yesterday the fire department fought for eight hours to save Kennedy's lumber yard and the T. & N. O. station, two hundred men with the engine and hose being stationed there the better part of the night. From all points in the district smoke and flames may easily be seen.

A Charter From the Public

publishers of daily newspapers were to cease issuing their papers during the summer months, saying-"It's too hot in July and August to publish papers, and, anyway, people don't read papers in summer"—what a cry of protest would go up all over the land!

The public would say to the publishers:-

"We must have the news and you must give it to us. You are our servants in this matter-our news gatherers and scatterers. We are ready to pay you for this service. You have no right or liberty to take it upon yourselves to cease publishing your papers at your pleasure or convenience."

Think of it! The Daily Newspaper exists by the mandate of the people. It alone, among all publications, may not continue or cease at its pleasure, for it holds its charter from the people whose servant it is.

Then think of this:-

Have those other servants of the people—the merchants who supply them with their daily necessitiesany right to be silent with respect to the news they have for those who depend on them? Has not the public a right to demand that the news of the stores shall be published along with other news of value and interest? We put it up to the people of this community and to the merchants of this city that the store news of this community is necessary news and should appear regularly in the public press at all seasons of the year. Think of this, you merchants of this city.

An investigation was held today at militia headquarters into the facts regarding the seizure of the so-called temperance beer in the possession of the London battery at Petawawa. was found that there was nearly four hundred bottles of genuine ale seized, containing nearly seven per cent of proof alcohol. The militta regulations allow only
