CHIEF BETWEEN TWO FIRES ON PARK-DRIVING QUESTION

Bylaws To Deal With in Traffic Tangle.

Ald. Towe in Favor of Closing Victoria Park to All Vehicular Traffic.

What is the position of the police department regarding the closing of Victoria Park to all motor vehicles? Chief Birrell refuses all information n the subject other than the "byws will be carried out." There happens to be two bylaws vering the matter, one passed by

the city council which closes the park to vehicles and the other passed the public utilities commission which says that motorists are en titled to use the park drives provid ing they "keep to the right."

It would seem that Chief Birrell and his men are between two fires and how they are carrying out the two bylaws is more or less of a mystery. It is believed, however, that the chief's tactics are the same as

those in effect last summer. At that

time an officer was stationed in the park in the afternoon and evenings.

Therefore it would seem that the police were carrying out the council's plan Ald. Towe, chairman of the traffic commission of the city council, is entirely in favor of closing Victoria vicinity for some time.

It is the belief of the majority of the commissioners that they have made their case very plain to the people as to the advisability of keeping the park open to traffic, and that they have done their duty in this they have done their duty in this respect. They certainly do not intend to be drawn into any controversy with the aldermen on the question.
