Grain Markets WINNIPEG Winnipeg, Nov. 26.-Deferred futures

featured trading on the local wheat market today, and a spectacular advance was recorded. July touching a record high of \$1.52%, compared with \$1.46 on Wednesday, an overnight gain of 614c November, December and May all closed 5c up and July 51/2c higher. Public buying on an extensive scale on deferred futures was the outstanding factor in the rapid advance, while additional reports of crop damage in the Argentine helped send prices upward. Sentiment was very bullish, and commision-houses. The only selling pressure came from "longs" who were taking profits. Exporters were doing very little, and stated overnight acceptances had been very light.

Grain men admit that the Argentine holds the key to the trend of prices during the next few weeks.

Coarse grains and flax experienced a light day of trading. The price movement, however, was on the upgrade, featured by an advance of 5%c in rye.

Total assets now amount to \$755,147,-876 as compared with \$718,194,797 at the end of the half-year period. Capital and rest accounts are shown at \$29,-916,700, up from \$27,250,000.
