

AFTER SICKNESS THEY GAVE HER VINOL

And She Soon Got Back
Her Strength

New Castle, Ind.—"The measles left me run down, no appetite, could not rest at night, and I took a severe cold which settled on my lungs, so I was unable to keep about my household work. My doctor advised me to take Vinol, and six bottles restored my health so I do all my household work, including washing. Vinol is the best medicine I ever used."—Alice Record, 437 So. 11th St., New Castle, Ind.

"We guarantee this wonderful cod liver and iron tonic, Vinol, for all weak, run-down, nervous conditions."

A. McG. McDonald, Druggist, Campbellton. Also at the best druggists in all New Brunswick towns.

HOW A SUBMARINE WAS KNOCKED OUT

Trawler (captain) Used a Shovel on
Periscope.

London, Feb. 21.—When one's vessel is in danger from enemy submarines anything will do as a weapon of defence, as is shown by the story of a captain of a British trawler who used a coal shovel with good effect against a German U-boat. The trawler, according to the story told by one of the crew, who was in the North Sea in a stiff breeze when the skipper saw a periscope crawl through the surface of the sea about a hundred yards off. There was no gun aboard and the trawler's best speed was less than eight knots.

"It was a situation to dismay most men," said the sailor. "Our skipper, however, has a fighting spirit. A touch of the wheel sent the trawler's hunt bows pointing at the periscope. The U-boat swung around to avoid the impact and the sides of the trawler scraped along the sides of the submarine. The periscope was still well out of the water, but was beginning to slip down as the submarine dived.

"The skipper bawled for a hammer crowbar, anything that would hurt. One of the crew thrust a coal shovel into his hands, and he scrambled over the bulwarks and leaned over, two of the crew hanging on to his coat so that he would not fall overboard. Backwards and forwards he swung the heavy scoop at the fragile periscope and the third blow reduced it to fragments.

"The submarine commander, hearing the noise and wondering what new and horrible device the enemy had invented, crept to his periscope to have a look, but all was black. He was blind, and the trawler got away in safety."

In your own little family circle, you are regarded as one of the greatest men in the world, and if you are a good sport, you will go on working like blazes to keep up the illusion.

GRADUATED WAR TAX ON INCOMES.

Those Enjoying High-Paid Incomes
Will Pay Largest Amount.

If the income war tax law, about to be applied, did nothing more than cause a national stock-taking, it would serve a most useful purpose.

The taking of an inventory of one's resources invariably induces a desire to save and a desire to save when translated, as it very frequently is, into a determination to save, means getting on with the war, as well as happiness all around. This process, first an inventory on one's resources, then a desire to save, applied to every unmarried person, or widow and widower without dependent children receiving an income of \$1,500 and over, and to all other persons receiving an income of \$3,000 and over, will unquestionably result in a large proportion of cases, in a determination to save. And that means more general prosperity and renewed national strength.

But a national stock-taking is only incidental, of course, to the chief purpose of the income war tax, which is to provide revenue for the prosecution of the war in as equitable a manner as possible. The tax is to be graduated, according to one's ability to pay. Those who are in receipt of only a living wage or salary will not be called upon to pay; those enjoying the highest incomes will be called upon to pay the greatest amounts, and the great body of income receivers between, will be called upon to pay in their due proportion.

Moreover, the purpose of the act is to distribute the burden equitably among all classes. By way of illustration the farmer will be required to add to the value of his actual income, the value of the home-grown products which his own family consumes. This places the farmer on a plane with the salaried man the value of whose services is wholly represented in the income received and against which he must charge all his living expenses.

Canada has established a war record that is the envy of the world. It is certain that the Canadian people will run true to form in answer to this latest call of their war government.

NEW BRUNSWICK IS TO GET \$25,000

Large Expenditure in Provinces to
Encourage the Production of
Food.

Quebec, Mar. 7.—At a conference today between Dr. Robertson, representing the food board, and the federal minister of agriculture, and the Hon. J. E. Caron, provincial minister of agriculture, the former said that the federal government will give \$60,000 to Quebec and the same amount to Ontario to encourage an immense production of food-stuffs. Nova Scotia will get \$30,000; New Brunswick, \$25,000; Prince Edward Island, \$5,000; Manitoba, \$25,000; Saskatchewan, \$35,000; Alberta, \$35,000; British Columbia, \$15,000.

ANGER LURKS IN EVERY ONE OF US

We Are As Full of Deadly
Poisons As A Germ
Laboratory.

AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-TIVES" Absolutely Pre-
vents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rash, Eczema and other Skin Affections disappear when "Fruit-a-tives" are taken to correct Constipation.

"Fruit-a-tives" will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs. 50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

RELIABLE GUIDES.

In a herd of fourteen cows that gave an average yield last year of 6,058 lb milk and 260 lb fat, the best cow was a five-year-old, the second was 11 years old, and the third was only a three-year-old with a yield of 7,364 lb milk and 305 lb fat. The two poorest were aged six and four years.

So it is not always age that determines production; it is not always feed, for these 14 cows were all fed alike; but it does largely rest upon some at present unknown principle which enables one cow to make use of the same quality and quantity of feed and out of it produce two thousand pounds of milk more than her stable mate.

With such remarkable differences in plain sight in every herd where individual milk records are kept, the owner is in no doubt as to which are the best cows to keep as foundation stock. But without such records there is no reliable guide in selection.

The best of it is that no dairyman need go to the trouble of finding suitable sheets of paper and laboriously ruling them to suit him. For an application to the Dairy Branch, Ottawa, he can obtain free of any cost whatever, convenient ruled and printed milk record forms for taking weights either daily or on three days per month, together with feed record forms and a herd record book for the complete year's figures: write today, it will pay to use them; they are reliable guides.

IMPORTANT LEGISLATION FOR PROVINCE IS PROMISED IN SPEECH FROM THE THRONE

Shipbuilding, Health Provisions, Forestry
Act, New Highway Policy, Work-
men's Compensation

Fredericton, Mar. 7.—At the opening look forward to completion of the rail-
of the New Brunswick Legislature this way ready for transportation for the
afternoon, Hon. Wm. Pugsley, lieutenant-
It gives me much pleasure to wel-
come you to the second session of the
seventh legislative assembly of the
province of New Brunswick.
This is the fourth meeting of the
legislature since the beginning of the
tremendous war for liberty and civiliza-
tion which began in Europe in August,
1914, and it is a matter for the
greatest congratulation that the spirit
of courage and determination of our
people for victory and a successful
conclusion of that great struggle are
stronger than ever. The response of
the people to patriotic effort, for the
funds of the Red Cross and the bonds
of the Great Victory Loan, has been
such as even to astonish themselves.

My government, recognizing last
spring, the need for more foodstuffs,
asked the farmers to increase their
production, procuring for them both
seed grain and fertilizer. I am happy
to say that they spared no effort to in-
crease the production of their farms.
A fresh appeal is now being made to
them, and all possible measures will
be taken for facilitating their task.

The settlement of returned soldiers
upon the land has been engaging the
attention of my government in co-
operation with the federal ministry,
and plans are being formulated which
will be of great benefit to the
province.

My government is of opinion that
what the farmers to increase their
money's worthfully and illegally ob-
tained from the company should be de-
duced to be and should become a
crown debt, recoverable by His Ma-
jesty from the offending party or parties.
I am confident that you will cheer-
fully support legislation designed to
make more certain the securing of re-
dress for wrongs which have been
committed against the province in
connection with this public work in the
past, and provide greater safeguards

HON. WM. PUGSLEY, LIEUT.-GOVERNOR OF NEW BRUNSWICK.

I hope will result in encouraging many
of those returning from overseas to
take up the pursuit of agriculture.

The province has also agreed to co-
operate with the Military Hospitals
Commission in the erection of addi-
tional accommodations for soldiers afflicted
with tuberculosis, and extensions are
now being made to the River Glade
and St. John county institutions.

I am pleased to be able to congratulate the provinces upon the beneficial
results of the Prohibition Act. The
area of enforcement has been considerably
increased by reason of the co-
operation of the federal government,
which made it unnecessary to hold
elections in several counties for the
repeal of the Scott Act.

The construction of the St. John
and Quebec Railway between Gage-
town and Westfield has proceeded dur-
ing the year as rapidly as labor con-
ditions and scarcity of material would
permit. On account of the extraor-
dinary demand for steel rails for use
overseas as well as in this country,
the Canadian Government Railways
were unable to carry out their under-
taking to provide the rails necessary
for the completion of this section, but
arrangements have recently been made
preliminary to the taking up of the
steel rails upon the Northern New
Brunswick and Seaboard Railway au-
thority for which was given at the last
session of the legislature. Construc-
tion of the road is at such a stage that
with the assurance of steel for
track laying, the company is able to

for the future.
During the recess, an investigation
and survey have been made of the
health conditions in the province and a
report upon the same by John Hall, a
recognized authority, has been received.
Legislation based upon Mr. Hall's
report will be introduced.
It is with much pleasure that my
government has learned that the domi-
nion cabinet has decided upon a broad
and comprehensive policy for the crea-
tion of a fleet of steel vessels, and by
giving building contracts therefor has
decided to encourage the establishment
of a great national industry upon a
permanent basis.
By reason of its geographical po-
sition, and the fact that some of its
important harbors are open at all sea-
sons of the year, New Brunswick pos-
sesses ideal advantages for the build-
ing of steel ships, and my govern-
ment will invite you to consider what
measures it will be desirable to take
in order to secure for this province a
reasonable proportion of the contracts
to be given by the federal authorities.
The need of ships for the transpor-
tation of the agricultural products of
Canada, to enable our people to do
their part in sustaining the armies of
the Allies, is most urgent, and I am
satisfied that if, after due considera-
tion, you should decide upon a course
which will secure in this province
speedy and effective action in this di-
rection in co-operation with the Cana-
dian government, such a course will re-

Your Easter Suit Made to Measure

Perhaps you are unaware that you can come into the
Fit-Reform store, and be measured for a Spring Suit, and
have it made to your individual order by the famous
Fit-Reform designers and tailors.

More than this, you can select the cloth from the very
large assortment of Imported Woollens which Fit-Reform
always carries.

For many years, the Made-To-Measure Department has
been an important feature of the great Fit-Reform
organization with thousands of patrons in Canada, from
the Atlantic to the Pacific.

Be one of them. Let Fit-Reform Make your Easter Suit
to measure. We promise that you will be delighted with
the result.
