Cost to Run a Gas Stove

This is a natural question when one is considering buying a Gas Stove. Well, we've acquired several families consisting of eight persons, and the greatest cost was \$3.10 and the least \$1.50 per month, and no other stove used in the house. This is cheap British gas.

These people, of course, all used the Columbia Gas Stove, which is undoubtedly the best. People who had been prejudiced against gas stoves for cooking have been converted to their use after learning of the operations of the Columbia Gas Stove. You buy it here.
