WANTED.  
A good cook or a good housekeeper. Apply World Office.

Invict crew out into the roadstead. A hundred yards from shore, while the sound of the bell in the little chapel in the In Royale floats faintly over the water, the crew take the corpses and set them overboard. A body scarcely dead had been reported for decades at the records of Alpine climbing, two tourists met their deaths by the avalanche, and the bodies were found in the snow, Miss Davidson, daughter of an English vicar, being one of the victims. Six persons died, exhaustion after snowstorms, exposure to cold, and bad weather. Four men lost their lives by missing, then, and falling down precipitous slopes pursuing dangerous paths, and the other eight in the course of comparative climbing. One tourist fell down a glacier fissure, and another was set while seeking a ledge. Besides these three deaths, four others were reported, among them that of an Englishman and his guide, near Tyrol, in the impenetrable, Southern Tyrol.

Don't worry about the shape of your baby's nose, if it is a snub, nor be sure, if it is a snub, that it is a snub. It will grow up with it, for scientists have observed that no feature changes more as life progresses. The length of the nose increases so much later than a breadth that the snub-nosed baby may evolve a long nose. The change in the shape of noses in four years is unexpected, generally more expeditious in the male than in the female.

THE SEAS OF THE WORLD.

The sea-pen moves by alternately expanding and contracting the folds of its body, like an earth worm.

It is estimated that the water of the whole ocean contains in solution over 200,000 tons of pure silver.

The first mention of the Gulf Stream in the journal of Almon, the pilot of the Ponce de Leon, in 1513.

It is estimated that more gold and silver have been sunk in the sea than are now in circulation on the globe.

Every tiny protuberance on a branch coral represents a growing animal, which grows from it like a plant.

The Red Sea takes its name from the presence of great numbers of animals of that color in the water.

The coral insects are said to consume enormous quantities of worms, small fish and other living creatures.

The ocean hydras have no heart, no lungs, no liver, no brain, no nervous system, no organs save mouth and skin.

A colony of medusae has been found to be a collection of minute animals, each of which is a complete animal.

At the lowest depth from which specimens of the bottom have been brought up, the curious species of infusoria are found.

The bed of the North Atlantic consists of two valleys, separated by a wide and shallow ridge, and the water of the ocean contains gold, silver and other metals.

Sea anemones have been known to live for three or four years without any food.

AFIENDISH CRIME

Dr. Pope of Detroit Killed for His Insurance.

TWO CANADIANS UNDER ARREST

His Skull Shattered to Pieces With a Hatchet.

William Bruesseau of Tilbury Centre, Ont., charged with being an accomplice, formerly lived in Ingersoll, Bruesseau claims that he was trying to kill his wife and was acting in self-defense.

Det. Feb. 3.—One of the most atrocious, cold-blooded crimes ever perpetrated in the history of the province, was committed yesterday morning, in the quiet quarters occupied by Dr. Horace Eliot Pope and his family at 88 Michigan-avenue.

Dr. Pope was brutally killed with a hatchet in the hands of William Bruesseau, a young man 22 years of age, who was presumably employed as a nurse.

Take care of Mrs. Pope. The only other member of the household is Bernice Pope, the dead man's 8-year-old daughter, who has acquired far beyond her years the shrewdness imparted by her father.

The frightful deed is revolting in its details. It ends the career of a well-to-do man, who was in despair over his unhappy married life.

While seated in a rocking chair at the bedside of his wife, forgetting for the time his many cares and tribulations, the murderer struck him to the floor with the hatchet, sent his skull flying into the air, and then turned to his wife.

The awful ending of the husband did not cause a murmur in the lips of the wife, and Mrs. Pope's first thought was to protect herself against the strong arm of the law, which already has been in its grasp.

The murderer now stands in a cell in the police station, and Mrs. Pope is under police surveillance at Harper House, 100 King-st. west.

It was decided to arrest Mrs. Pope and give her the choice of going to police headquarters or to Harper House. Detective Sadler went to the house for that purpose yesterday morning.

The prisoner shields himself behind the theory of self-defense, and in the meantime, Mrs. Pope, who refuses to talk to the police, says that she is not well.

The police are satisfied that Bruesseau killed Pope in cold blood and in the presence of the blue murder, cried out, "Are Pope was his accomplice."

CRIMINAL BY HIS DEED.  
Bruesseau Went Out to Hunt for the Murderer.

The first alarm was given by the murder of himself about 6 o'clock yesterday morning, when he met Dr. Horace Eliot Pope at the corner of Michigan and Ontario streets.

As Schick enquired what the man wanted, Bruesseau looked sharply at him and said, "I am an officer."

Before Schick could recover his surprise, Dr. Pope, who came with him, said, "I am a doctor, and I am a doctor."

The officer tried to learn Bruesseau's story, but his mutterings were so incoherent that he could not understand the cause of the trouble. Following him to the place indicated, the pair found a man lying on the floor, his head under a pile of clothes.

Mrs. Pope and her daughter, who were in the room, saw the man lying on the floor, and they made no effort to disturb themselves.

The officer, who was quite drunk, tried to get up, but he was so dizzy that he fell back on the floor, and he was so dizzy that he fell back on the floor.

The Red Sea takes its name from the presence of great numbers of animals of that color in the water.

The coral insects are said to consume enormous quantities of worms, small fish and other living creatures.

The ocean hydras have no heart, no lungs, no liver, no brain, no nervous system, no organs save mouth and skin.

A colony of medusae has been found to be a collection of minute animals, each of which is a complete animal.

At the lowest depth from which specimens of the bottom have been brought up, the curious species of infusoria are found.

The bed of the North Atlantic consists of two valleys, separated by a wide and shallow ridge, and the water of the ocean contains gold, silver and other metals.

Sea anemones have been known to live for three or four years without any food.

he struck him with the hatchet. He kept swinging the hatchet until it no longer met with any resistance, but sank into the brain. Then he walked to the door and turned his attention to Mrs. Pope, who he said, was unconscious and another.

He picked her up and dragged her into the front room, so that she would not see the sight and for nearly three hours he worked over her.

The prisoner looked pale, and had every appearance of being a moribund man, but this he denied. He gave his occupation as that of a barber and said that he had been in the city for some time.

Corner Bettings was summoned by the police, and he set the inquest for Tuesday. The body was then sent to the morgue, where a post-mortem examination was held.

MRS. POPE WILL NOT TALK.  
She is at Harper Hospital Under Police Surveillance.

Detective Sadler was assigned to the case. He first paid a visit to Mrs. Pope, who was in a room at Harper Hospital.

Mrs. Pope is a big woman and looks as strong as an ox, with her big frame and long-reaching arms. She has a very quiet manner, but she is not at all timid.

THE HOUSE MEETS TOMORROW

ROSEBERRY'S MINISTRY MAY NOT SURVIVE THE DAY.

An Adroit Bid for Irish Support, But the Tweedmouth Cheque That Mr. Blake Talked of May Precipitate Defeat.

Measures of the Lords in the Queen's Speech.

New York, Feb. 3.—Harold Frederic cables from London to The Times:

It is literally a toss of a penny whether Lord Rosebery's Government will not be thrown out during the present week, or later than that.

It will be done at the very first session of Tuesday. It is understood that Lord Rosebery intends claiming priority over the address and all other business for his motion of privilege about Lord Tweedmouth's cheque, and the precedent of Sir William Vernon Harcourt's motion in 1891 justifies him in doing so.

That would bring the division on Tuesday evening, or later than that, and it is thought doubtful if the ministry can have its full force on hand so early.

Special mention is made of the fact that the ministry is not to be thrown out during the present week, or later than that.

GOLDWIN SMITH ON CITY COUNCILS

IS MILLIE A BIGAMIST?

THE WIFE OF JOHN HARKINS, WHO WAS TRIED FOR ATTEMPTING TO MURDER HIM, TURNS OUT TO HAVE HAD A PREVIOUS HUSBAND—SHE IS A SISTER OF CENTENARIAN KID'S WIFE.

Millie Harkins, or legally Millie White, aged 25, is under arrest at Police Headquarters on a charge of bigamy.

Her arrest, which took place at the Union Hotel Saturday evening, forms the sequel to the Mono Mills scandal of November last, in which John Kidd, the 95-year-old groom of a 16-year-old bride, figured very conspicuously, and the climax of which was the shooting of John Harkins, brother-in-law of the young bride, and the subsequent trial and acquittal at the December Sessions of Brampton of Millie Harkins, his wife and the prisoner in this case, on the charge of doing the shooting.

The First Venture.  
The prisoner was married at Hamilton to John Harkins, a few days later, about two years ago. Millie left her husband and returned to the parental roof at Mono Mills in August 1904, she met John Harkins, a young man who represented himself to be a farmer of means in search of a wife.

She told him that she had already married, but was separated from her husband, but as Harkins did not seem to care, she gave him her name and address, and he wrote her a letter, which she received in October.

Her sister, who was then in the city, told her that she had already married, but was separated from her husband, but as Harkins did not seem to care, she gave him her name and address, and he wrote her a letter, which she received in October.

She told him that she had already married, but was separated from her husband, but as Harkins did not seem to care, she gave him her name and address, and he wrote her a letter, which she received in October.

AFRAID OF POLITICAL PNEUMONIA.

MR. EMANUEL SAMUEL KILLED

ACCIDENT TO A WELL-KNOWN TORONTO BUSINESS MAN.

He Falls Down An Airshaft at the House of His Father-in-Law in New York, and is Instantly Killed. Member of the Well-Known Firm of M. & L. Samuel, Benjamin & Co.

A despatch was received in the city early this morning, announcing the death in New York, as the result of an accident, of Mr. Emanuel Samuel, president of the Metallic Roofing Company of this city, and a member of the well-known wholesale hardware firm of M. & L. Samuel, Benjamin & Co., Front-street.

Deceased last for New York recently on a visit to the family of his father-in-law, Morris Jacobs. After dinner, about 4 o'clock, he was walking up and down the hallway of the third floor where the Jacobs family live, enjoying a cigar. The window opening of the air shaft was open, and in some way that it has been impossible to learn Mr. Samuel fell through to the bottom. He sustained a compound fracture of the skull. Dr. Charles Good was summoned, but he found the case hopeless. Mr. Samuel died at 10 o'clock, and the coroner and police were notified.

Mr. Samuel was a widower, his wife died 18 years ago, about a year after marriage. Deceased was 45 years of age and had resided in Toronto for 30 years, and had been married to his wife for 15 years. He was a member of the well-known hardware firm of M. & L. Samuel, Benjamin & Co., Front-street.

THE DAILY MAIL AND EMPIRE A MONTREAL RAILWAY CANARD.

Denied by the Minister of Railways and Canals—Mr. C. N. Armstrong's Scheme.

The Montreal Herald on Saturday morning published an editorial on the proposed railway to run from Gaspe to Saint Ste. Marie and Winnipeg, and from there by the Yellowhead Pass to the Pacific, a scheme which was being mooted by Mr. C. N. Armstrong, of the notoriety of the late Chalmers railway, and which is not a new scheme.

Mr. C. N. Armstrong has placed upon the London money-market the most first-class of all the schemes of the Canadian Government.

The scheme is a very simple one, and it is not a new scheme.

The scheme is a very simple one, and it is not a new scheme.
