the value of ensilage to be determined ?

NEW YORK, Oct. 13. - The passenger who attracted the most attention dur-ing the voyage of the Inman steamer City of Chicago, from Liverpool to this city, was Theodor Jo Jo, a boy of 16 whose face resembles that of a Skye terrier. Jo Jo held an informal recop-tion in the Astor House after bis arri-nol necked wing which he submet have been conducted by leading Ch. tion in the Astor House after bis arrival years, and are we now, we ask, any nearer definiteness than we were long ago? Numerous improvements have been carried on tending to show that ensinge fodder is indispensable in dailying, while other experiments, made by parties equally able, go in quite the opposite direction. While we have every faith in the propriety of calling in the centre and waving off to either side like that of a fancy terrier. It droops from his checks in long wavy locks, grows from both ears. The length of hangs from both ears. The length of are contradictory or even not constant the luxuriant growth of hair varies from current. The idea forces itself upon be used to that the skin beneath is visible only in scattered spots. The eyes of this dog-faced boy also resemble very closely resolve itself into a matter of dollars those of a terrier. They are slightly bluish in color, almost perfectly round, and the whites are visible entirely around the pupils. His mouth is fur-injeled with only the two terriers around the pupils aroun nished with only the two canine teeth argued for years, some do yet, that fatabove and two incisors below, and all tening cattle does not pay, regardingfour are thin and sharp, resembling miniature tusks rather than human this matter seeming most conclusive, m teeth. The entire body is covered with prices of grain and beef and the value teeth. The entire body is covered with is growth of thin light hair, but the thick heavy locks are found only on the face. It is said that Jo Jo snarls occasionally like a dog, but he was perfectly tract-able yesterday; allowing his visitors to of labor involved. The answer that those engaged in the fattening busi-mess gave was, that they grew rich by A the business — a very conclusive answer. If there is virtue in ensinge it will be discovered, and the value of it as a point of labor involved. The answer that those engaged in the fattening busi-mess gave was, that they grew rich by A the business — a very conclusive answer. pull his hair and satisfy themselves that it was not fastened on by artificial food adjunct may by and by be safely means, and to examine his teeth as gauged by the number of silos erected they would the molars of a horse on and sustained through the land. He speaks Russian and German tolerably well, and a few words of English, and took great pride in showing that he could write his name by signing it on the back of his pic tures in large flowing characters. The dog-faced boy was captured in the forests of Kostroma, in the centre of Russia, about 11 years ago, with bis father, who is described as a wild man, with the same peculiar face which the boy now possesses. To make the finest flavored and ti us for which they have been prepared. The school is of a purely non-sectarian character, the pupils being obliged to attend those churches to which their presents belong. The Institution is under the control of a Board of Managers elected anually, who earnestly wish to sustain the several departments of the school in their present efficient state. Pupils from the Maritime Provinces are annual grant towards their education and maintenance equivalent to about two thirds of the actual yearly cost per capi-tum. Hitherto the balance has been met by private contributions and interest upon tum. Hitherto the balance has been met by private contributions and interest upon invostments; but, mfortunately, both of the former owing to the impressian that the Government grant was sufficient to meet the requirements of the lastitution, the latter to the reduced rate of interest received upon invested funds. The Board of Managers, relying upon tho generat the bolind is regarded, feel confident that the benevolent public will not be satisfied to have this enterprise seriously embar-massed for lack of funds; they thereform most carnesfly appeal to the charitable public for assistance. All amounts collect-ed or before the twentieth of November, will appear in our annual report. Halifax, Oct. 15tb, 1884. TEMPERANCE.— The recent Scott Act

Halifax, Oct. 15tb, 1884. TEMPERANCE.—The recent Scott Act elections are a fair warning to manufac-turers and dealers that the Temperance sentiment of the country is becoming try strong and that it will make-it-self felt in every way possible. Any relapse, any turn of the tide, will be but temporary. What is exceedingly significant is that religious teachers and leaders of all denominations make common cause in the matter. Pres-byterians, Episcopalians, Methodists, Roman Catholics, Baptiets,—no matter how they may be divided on other boints are at one in regard to this. Let all whom it may concern make a mote of this fact. — Presbyterian Witness.
