WORLD CONFERENCE ON FAITH AND ORDER

Announcement was made last week that the next World Conference on Faith and Order, comprising seventy-seven national churches of the world in the movement toward Church Unity, will be held in Washington, D.C., in May, 1925. Group conferences of the many communions represented in the World Conference will be held for preparation and study in the intervening period, according to Robert H. Gardiner, Secretary of the World Conference, 174 Water Street, Gardiner, Maine, U.S.A. The work in anticipation of the world gathering will extend both to the clergy and lay men and women, even including thousands of individual congregations.

According to plans just announced, each Commission representing a national church will convene as soon as possible to take steps to promote the conferences in both large and small areas. Then each pastor, priest and rector will organize conferences in his neighborhood following the organization work of the presiding officer of his territory. A general appeal will be sent to laymen and laywomen to urge their direct co-operation and study in connection with their particular church. Already the World Conference has established contact with many thousand laymen in every part of the world who are desirous of forwarding the movement toward Church Unity.

It is expected that the Continuation Committee of the World Conference will meet in London in 1924. This Committee includes representatives of the following communions: Anglican, Armenian, Baptist, Congregational, Czechoslovak, Disciples, Eastern Orthodox, Friends, German Evangelical, Lutheran, Methodist, Moravian, Old Catholic, Presbyterian, Reformed, South India United.

SPRING IMPURITIES DUE TO POOR BLOOD

A Tonic Medicine a Necessity at This Season

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to enrich the blood.

In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood.

In the spring anæmia, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor blood, and it is at this time when all nature takes on new life that the blood must seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not help the blood.

On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every nerve and every organ in the body, bring new strength and vigor to weak easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Sold by all medicine dealers or sent by mail at 50 cents a box, or six boxes for \$2.50, by The Dr. Williams' Medicine Co., Brockville, Ont.

THREE PERSONS KILLED IN ITALIAN CITY

Rome, March 21—Three persons were killed and more than a score, including Mayor Ransini of Piacenza, were wounded when a group of Fascisti attacked a large crowd in the public square of that city, according to advices received in Rome today.

Sanguinary encounters between Fascisti and Communists were also reported in Bologna, where one Communist was killed and in several other provincial centres.

ICEBERGS NEAR THE TRANS-ATLANTIC LANES

Boston, March 22—Ice bergs have drifted farther south this year than they had last year at this date, and are nearer the path of trans-Atlantic travel. Hydrographic Office reports to-day showed that bergs had been sighted three hundred miles southeast of Cape Race, and eight hundred and sixty miles east of Boston. They are within fifty miles of the west-bound trans-Atlantic shipping lane.

Washington, March 19—President Harding returned here to-day from a ten-day vacation in Florida.

OFFICE OF THE NOVA SCOTIA FIRE MARSHAL

That Canada maintains its splendid isolation from the rest of the world in the matter of fire losses is made evident by the following figures compiled from returns made to the Dominion Fire Commissioner. During the year 1921, the 25,916 fires reported occasioned property damage amounting to \$45,015,930, exclusive of the incalculable loss arising from forest fires. In comparison with the years 1920, 1919 and 1918, when the losses were \$28,745,590, \$26,861,240, and \$33,817,050, respectively, the record for 1921 shows so substantial an increase as to tend to confirm the general belief that fires and trade depression go together. Of the total loss, approximately \$34,000,000, or 75 per cent was covered by insurance. On the basis of population the loss in Canada amounted to \$5.22 per capita, as compared with \$9.90 per capita in Great Britain where fire losses in 1921 only amounted to \$36,400,000. By provinces, the distribution of the fire loss in Canada was as follows: Alberta, \$2,875,000, or \$4.95 per capita; British Columbia, \$3,050,000, or \$5.82 per capita; Manitoba, \$2,864,000, or \$4.67 per capita; New Brunswick, \$2,735,982, or \$7.02 per capita; Nova Scotia, \$3,177,000, or \$6.06 per capita; Ontario, \$15,444,517, or \$5.28 per capita; Prince Edward Island, \$216,478, or \$2.44 per capita; Quebec, \$10,897,653, or \$4.64 per capita, and Saskatchewan, \$3,755,000, or \$4.93 per capita. As reported by Municipal officials, the losses in cities having populations of more than 10,000 amounted to \$13,616,951, or \$4.29 per capita, in towns of from 1,000 to 10,000, \$6,184,085, or \$7.32 per capita, and in villages and rural districts \$25,214,894, or \$5.31 per capita. In places having municipal fire protection systems the loss was \$4.90 per capita and in unprotected places \$5.31 per capita. There were 59 fires where the loss exceeded \$100,000, 45 with a loss from \$50,000 to \$100,000, 261 with a loss from \$10,000 to \$50,000, 3992 with a loss from \$1,000 to \$10,000 and 21,558 smaller fires with aggregate loss of \$4,644,817. Classified according to the character of the property involved the more destructive fires occurred as follows: 49 in industrial property with a loss of \$8,188,200, 32 in mercantile property with a loss of \$5,659,000, 9 in institutional property with a loss of \$1,948,761, and 15 in miscellaneous property with a loss of \$4,201,455.

NOTE—The figures included herein for Alberta and British Columbia have not been confirmed by the Fire Marshals of these provinces. They have been estimated from municipal reports and insurance companies' returns. May I ask your assistance in giving this information to the public.

J. A. RUDLAND,
Fire Marshal.

Halifax, N. S., March, 1922.

WAR VETS. TO WAIT UPON PREMIER MURRAY

Delegation Will Urge Road Construction, and Re-establishment of Provincial Expo.

Halifax Chronicle.

Mr. H. F. Hamilton, Prov. Secy. of the G. W. V. A., Lunenburg, accompanied by Mr. E. Power, of Middleton, one of the executive of the Association, and Major J. Welsford MacDonald, M.P.P., waited upon Premier Murray and the Government at 11.30 Wednesday morning. General matters pertaining to the welfare of the Veterans throughout the province were considered. In order to open up road construction as early as possible, and to continue the full program of work, they will also press for the re-establishment of the Provincial Exhibition and the commencement of work upon the new plant as early as possible as a public work which may help in the employment situation.

Mr. Hamilton left Wednesday night for Stellarton to see Dr. Whitman, one of the executive of the National Great War Veterans' Association, and Mr. Whitman has just returned from Ottawa, where the executive has just conferred with the Federal Government. This conference with the Cabinet has made a most encouraging impression, and a full reconsideration of the re-establishment conditions were promised, and as a result of the full, exhaustive and sympathetic inquiry into the status of the returned men, those who were privileged to attend the conference with the Government say that the whole attitude was better than any hitherto held since the Veterans were organized.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years

THE CENTAUR COMPANY, NEW YORK CITY

CANADA AND FORESTRY

While there is much to be done in regard to forest conservation in Canada, the progress that has been made in the last few years has been most gratifying. There are now four forest schools connected with Canadian universities. Forest experiment stations have been established in different parts of Canada to study the best methods of forest reproduction. Last season in addition to protecting the forests by means of hundreds of patrolmen on foot, in canoes, in motor-boats, and on railway velocipedes, airplanes were used for forest protection in no less than five provinces. In the aggregate probably two thousand miles of telephone lines have been erected for forest protection work. For the better utilization of forest products there have also been established under the Department of the Interior Forest Products Laboratories where all problems connected with the manufacture of every kind of forest product are studied and the result made available to the people of Canada. A great change has also taken place in the attitude of people generally towards forest protection and they are now beginning to demand that everything possible be done to stop the enormous waste through forest fires.

REMARKABLE CURE AT CHESLEY INSTITUTE, HANTSPOOT, N. S.

Miss Kathryn Gillis has been receiving treatment at the Chesley Institute, Hantsport, this winter. At first it was thought her case was hopeless as her age was nineteen years and she had not walked since she was seven. Another interesting case at the same Institute is little Henry Murphy, twelve years old who had never walked, but now has the full use of his limbs.

The following is an extract from a letter written by Miss Gillis, to members of the Halifax Herald's Rainbow Club, in reference to her remarkable cure:

"However, I have so much else to be thankful for that I must tell you, as I cannot keep it to myself altogether. I have been here since the last of October and now I can walk with just one cane. I can hardly believe it myself, as I had been useless for twelve long years. Now I am not that a big lot to be thankful for, as I had double curvature of the spine and two completely paralyzed legs when I came here. You may know that I had to go through some massage, as well as wear a spinal appliance for taking out the curves and two supports that each had hip, knee and ankle joints with backs to them. I will soon be going home to make room for some one else who has to be fixed up."

KILLED IN BATTLE WITH MAD BULL

Allentown, N.H., March 21—George Young, foreman at the George A. Bailey farm, is dead at a Concord hospital as the result of being gored by a young bull. Frank Hearst, who responded to the cries of Young, received two broken ribs and other injuries in his battle with the infuriated animal. The bull has been killed by order of the owner.

AUTOMOBILES PROHIBITED

The driving of automobiles on the highways is prohibited between the 20th March and 1st day of May.

During this period the roads are unfit for automobile traffic as the frost is coming out of the ground and cars would unnecessarily tear up the roads. An owner who values his car or has any regard for repair expense will be quite satisfied to keep his car stored in the garage. There is every indication that the frost will be out very early this spring and it is within the authority of the engineer to open the roads when he considers they are fit for traffic so that it may not be necessary to prohibit the traffic until May 1st. In the meantime it is to be hoped that everybody will cheerfully conform to the law and if there are any who disregard it in fairness to the general public they should be dealt with as the law directs.

FLORENCE BELLAIRE

200 Montague Street, Brooklyn, N. Y.

MT. ALLISON DEFEATED ACADIA

Wolfville, March 22—In the intercollegiate basketball game played here tonight, Mount Allison defeated Acadia by a score of 32 to 24.

Acadia had the best of the first half, the score being 16 to 15 in their favor, but in the second half the visitors rolled up 19 points to the home team's eight. The victors were entertained after the game.

MAN SUCCUMBS FROM INJURIES AT ST. JOHN

St. John, March 20—Nat Capitani, an Italian, 200 Market Square, West End, died in a hospital here to-day as a result of injuries received on Sunday in a fall into the hold of the S. S. Sicilian, where he was working. He sustained a broken leg and inguinal fracture as a result of his fall. He leaves his widow and three children.
