GOOD MONEY IN GOOD FARMING

Let's Get to Work and

TINE years ago Canada's national debt was about one-

third of a billion. It is more

than two and one-third billions

Our debts have greatly in-creased—our revenues must

also go up. The farmer has to

bear his share of the increased

burden. That means he must

that farmers under present

conditions in Canada cannot

make farming pay. And yet many thousands of Canadian

How Is It Done?

Patient and industrious "carry

on" will do wonders, but some-thing more is needed. Too often "patient industry" is coupled with "dull persistance" in poorly thought out methods.

Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand

will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to

pay on almost every farm. Canadian agriculture has passed through

low profit-making eras successfully in the past and can do so again.

farmers do make it pay.

Complaint has been heard

increase his revenue.

Crop Returns Should be Increased On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922 as contrasted with all-Ontario average crop costs and crop profits are given below. The all-Ontario figures are in brackets:

Cost per acre | Profit per acre | \$21.13 (\$13.50) | \$11.21 (\$5.09) Corn for
Forage \$47.50 (\$33.75) \$10.38 (\$2.86)
Oats \$26.47 (\$19.32) \$ 7.33 (.04)
Similar results can be shown from the Dominion
Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of nts, however, show that increased cropping costs wisely applied up to a reasonable roint always increase crop profits. This is true on the Experimental Farm -and on any and every farm.

Dominion Department of Agriculture

Pay Off the Mortgage" With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management, "bearder" milkers, scrub beeves, poor grality hogs or non-profitable hans.

That even under present conditions profits may be made is testified by thany skilful, observant and Hön-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speed, with excessive bortonic and the often consequent rowing and the often consequent

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

The Farmer Must Manufacture But crops alone are not enough.

The farmer must change his crops into less bulky and more high-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rotations including clover and ensilage crops (corn, sunflower, pea and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing seed or interested in fruit? We can zive you information that will help you. Do you breed live stock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have some that will help you. We have published and have for free distribution 390 different reports, bulletins and circulars dealing with matters of interest to you. Ask for what you want, or for a list of our publications. We shall have something more

to say later. Meantime write the Department of Agriculture, Ot-

sions, \$25. The ladies of All Saints' Anglican are for church purposes.
