

Try this Thirsty Flour

A very thirsty flour. Absorbs a lot of water. Because it contains so much gluten. Manitoba wheat is wonderfully rich in sturdy gluten. And, think of it, FIVE ROSES is milled exclusively from the very cream of the Manitoba wheat berries. So FIVE ROSES must be awfully thirsty, don't you see. In your mixing bowl it greedily absorbs more water. So you get more loaves than usual without using more flour. You see less. Your flour lasts longer, doesn't it? Less trips to your dealer. That's how FIVE ROSES saves money. Actually saves YOU money. Use this economical flour.

Kaiser Worried But in Auto at Battle Front

LONDON, Nov. 7.—The correspondent of the Express on the Belgian front, under date of Friday, telegraphed the following:—"The Kaiser himself is close to the front in Flanders, making efforts to inspire his troops to gain Calais. A party of refugees saw the Kaiser in an automobile yesterday one of them said:—"The Kaiser sat on the rear seat with the Duke of Wurtemberg. The front seat was occupied by infantry men, while a pilot car, filled with soldiers, went in front. The Kaiser's extreme pallor and rigidity of features were very marked. He sat like a statue wrapped in a grey coat and listened to the report of a passing officer. At the end he saluted, but without a smile, and nodded silently to the soldier chauffeur to go ahead." Nearly a million dollars in gold was sent the U. S. treasury to Canada last week, making \$56,000,000 sent here since the outbreak of the war.

German Spy in Truro Home

(Truro Citizen.) Many readers of the Citizen will remember reading, some weeks ago, a London, England, despatch in respect to the police searching a German female servant's room in a gentleman's house near that city, on suspicion of her being a spy, and the search proved the suspicion to be well founded. The girl was sent on an errand, and while away her room was searched, and concealed in it was found bombs, charges, and other things, proving her to be a spy in the employ of the German government. A letter received recently from England by a Truro lady indicates that this incident took place in the home of Rev. Dr. John Robbins, a former pastor of First Presbyterian Church, Truro. At all events, we understand that Mrs. Robbins, writing to the Truro lady, related that the police came to her home one day and told her that the maid was suspected of being a spy, and said they wanted to search her home. Believing the girl to be innocent, Mrs. Robbins said she would not like to have the girl's feelings wounded by the knowledge that she was suspected of being a spy. It was then suggested by the police that the girl be sent on an errand and that the room be searched during her absence; then if it were found the suspicion was not well founded she would know nothing of being suspected. Of course Mrs. Robbins readily agreed to this and her surprise can be imagined when evidence of the girl being a spy was found in her room.

A Wonderful Discovery

An eminent scientist, the other day gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill! Then again, as soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the lair. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, as soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. (This is why Zam-Buk cures are permanent.)

Only the other day Mr. Marsh, of 101 Delorimer Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace or return of the eczema. All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c stamp (to pay return postage). Address Zam-Buk Co., Toronto.

Gifts that are gifts continue to pour in from Western Canada, for the Belgians. Two more car loads of flour, 1,000 bags, were landed here Saturday by the St. John boat and forwarded to Halifax to go from here by the second relief ship. The flour was from Edmonton Milling Company, and besides this shipment there were big cases of clothing and food from points in Ontario.—Digby Courier.

The large departmental store of W. H. Scroggie, Montreal, is said to be in financial difficulties and a petition for winding it up has been filed. No list of assets or liabilities has as yet been presented.
