

# It .. Covers the Seed

THOROUGHLY, which is absolutely necessary to  
to insure a good crop—

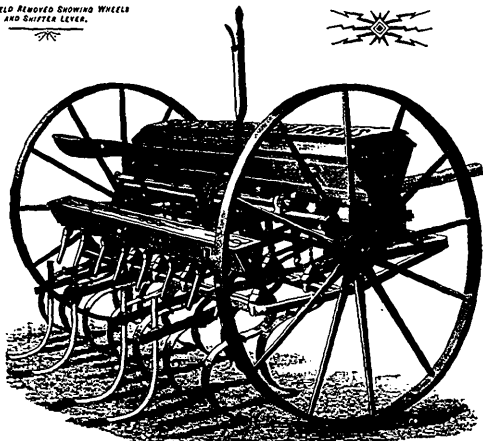

## THE MASSEY-HARRIS CULTIVATOR & BROADCAST SEEDER

GEAR SHIELD REMOVED SHOWING WHEELS  
AND SHIFTER LEVER.

not only thoroughly cultivates and works the soil—even heavy clay land—but the peculiar motion of the Springing Teeth causes them to cover the seed perfectly, and not drag over it, leaving a large portion uncovered. This in itself means a great saving in seed.

A simple but effective Grass Seed Sower is also made to go with this almost indispensable implement.
