

U S U S U S U

**The U. S. Separator has the advantage
of being able to get more cream**

out of the milk than the others. At the Pan-American Exposition, 1901, it averaged for 50 consecutive runs, .138 of 1% and established

THE WORLD'S RECORD

thus proving its right to its claim of

BEING THE CLEANEST SKIMMER MADE

This, together with its many other advantages described in our catalogues, should remove any doubts that dairymen may have as to which is the best separator to buy.

Write for descriptive catalogue.

VERMONT FARM MACHINE CO., Bellows Falls, Vt.
There is no duty on U. S. Separators shipped into Canada.
