

Synod does not wish to dispute the contention that cheap labour is a necessity for the maintenance of the Sugar Industry in Queensland, yet the knowledge possessed by every member of this Synod as to what the Labour Traffic is in these islands, leads the Synod to affirm that this Labour Traffic cannot be carried on with justice to the natives. 2. That while the Queensland Government has pledged itself to prevent abuses connected with the Labour Traffic, yet the absence of civilized government to protect the interests of the natives, the settlers, and the missionaries, makes recruiting without abuses an impossibility. 3. Further, because the deportation of the youth and able bodied natives from the islands prevents the development of industry, and sadly hinders the advancement of civilization and Christianity in the group, and is a most powerful factor in its depopulation. 4. That the most invariable practice of giving large presents to the person recruited or their relations, is universally regarded by the natives as "purchase" money, and the transaction is therefore considered by the natives as a traffic in human beings, it has a most demoralizing effect on them. That a copy of this minute be forwarded to the Secretary of State for the Colonies, the Premier of Queensland, the Governor of Fiji, the Convener of the Foreign Mission Committees of all the Churches interested in this Mission, and the Convener of the Foreign Mission Committee of the Presbyterian Church of Queensland.

A LEEDS COUNTY MIRACLE.

A STORY CONTAINING A LESSON FOR PARENTS.

THE RESTORATION OF A YOUNG GIRL WHOSE CONDITION FINDS A PARALLEL IN THOUSANDS OF CANADIAN HOMES—NOT THROUGH WILFUL NEGLECT, BUT IN IGNORANCE OF THE TERRIBLE CONSEQUENCES

Brockville Times.

The great frequency with which pale, sallow, listless and enfeebled girls are met with nowadays is cause for genuine alarm. The young girls of the present day are not the healthy, robust, rosy-cheeked lassies their mothers and grandmothers were before them. On all sides one sees girls budding into womanhood, who should be bright of eye, light in step and joyous in spirits; but, alas, how far from this is their condition. Their complexion is pale, sallow or waxy in appearance, they are victims of heart palpitation, ringing noises in the head, cold hands and feet, often fainting spells, racking headaches, backaches, shortness of breath, and often distressing symptoms. All these conditions betoken chlorosis or anemia—or in other words a watery and impoverished condition of the blood, which is thus unable to perform the functions required of it by nature. When in this condition, unless immediate resort is had to those natural remedies which give richness and redness to the blood corpuscles, organic diseases and an early grave are the inevitable result. It was in a condition closely resembling the above that a young lady in Addison, Leeds County, was when Dr. Williams' Pink Pills for Pale People came to her rescue, and undoubtedly saved her from premature death. This case was recently brought to the notice of the *Times* by H. S. Moffatt, general merchant and postmaster at Addison, of which family the young lady in question is a member. Mr. Moffatt had read the numerous articles in the *Times* regarding what are admitted on all sides to be marvellous cures by the use of the popular remedy above named, after all other remedies had failed, and felt it his duty to make public, for the benefit of sufferers, the wonderful restoration to health and strength that had taken place in his own household. The young lady in question is his adopted daughter, and is some sixteen years of age, a very critical period in the life of all young women. She had been declining in health for some time, and the family became very much alarmed that serious results would ensue. Medical advice was sought, and everything done for her that could be thought of, but without avail; the treatment did her no good and she gradually grew worse and worse. Her face was pale and almost bloodless, she was oppressed by constant headaches, and her appetite completely failed. When her friends had almost despaired of a cure, some person who had purchased Dr. Williams' Pink Pills at Mr. Moffatt's store, and tested their virtues, advised their use in the young lady's case. The advice was acted upon and Mr. Moffatt says the results were marvellous. In a short time after beginning their use a decided improvement was noticed. The colour began to return to her cheeks; her appetite was improved, and there was every indication of a marked improvement of the system. After taking a few boxes she was completely cured, and is now as well as ever she was. In his business Mr. Moffatt deals in various kinds of proprietary medicines, but says he has never handled any medicine that gives such universal satisfaction as Dr. Williams' Pink Pills. The demand is large and is constantly increasing, thus affording the most satisfactory evidence that they are what is claimed for them, a blood builder, nerve tonic and general restorer, curing diseases hitherto held to be incurable, and restoring health where all other remedies had failed.

In view of these statements a grave responsibility rests upon parents—upon mothers especially. If your daughters are suffering from any of the troubles indicated above, or from any of the irregularities incident to a critical period in life, do not, as you value their lives, delay in procuring a remedy that will save them. Dr. Williams' Pink Pills is a remedy that never fails in such cases, and is a certain specific for the troubles peculiar to the female system, whether young or old. They act directly upon the blood and nerves, and never fail in any case arising from a vitiated condition of the blood or a shattered condition of the nervous system.

Dr. Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom,

the after effects of la grippe, diseases depending on humours in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, over-work or excesses of any nature.

These Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold only in boxes bearing our trade mark and wrapper, at 50 cents a box, or six boxes for \$2.50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you, and should be avoided. Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address. The price at which these pills are sold make a course of treatment comparatively inexpensive, as compared with other remedies or medical treatment.

AN OLD SOLDIER'S STORY.

AFTER U. S. MEDICAL MEN FAIL, RELIEF COMES FROM CANADA.

The following letter tells the tale of one released from suffering, and needs no comment:—

Michigan Soldiers' Home, Hospital Ward A.
GRAND RAPIDS, March 27, 1892.

Dr. Williams' Medicine Company.

GENTLEMEN,—I have your letter of the 24th, asking me what benefit Pink Pills for Pale People, and it gives me unbounded satisfaction to reply. Within ten days after I began taking Dr. Williams' Pink Pills, those terribly excruciating pains I had experienced in my limbs, heart, stomach, back and head, began to leave me, becoming less severe and less frequent, and before I had taken all of the second box they were gone. At times since, I have experienced aches, but they are nothing compared to the pains I had formerly suffered. For months I could get no sleep or rest, only from the use of morphine, two, three and five times daily. Soon after I began taking the Pink Pills I discontinued the morphine and have taken it but once since, and I am now only taking my fourth box of the Pills. Before I began taking Pink Pills I had no passage from my bowels except from the use of cathartics. Very soon after taking the Pills my bowels moved regularly and naturally—constipation was entirely gone. Previous to commencing the use of Pink Pills my urine was milky in colour and after standing resembled a jelly substance. Now it is clear and perfectly natural, and shows no sediment whatever. I had lost the use of my legs and could not bear the weight of my body on them. By the use of Dr. Williams' Pink Pills and cold baths and rubbing with a crash towel prescribed with them, my limbs have steadily gained in health and strength until I can now bear my full weight upon them. I have been gaining slowly, but surely, ever since I began the use of the Pink Pills, and am perfectly confident that I will be able to walk again and be comfortable, and this after doctoring for years with the best physicians and specialists, who said my disease could not be cured but only relieved temporarily by the use of hypodermic injections of morphine. I would not do without Dr. Williams' Pink Pills under any circumstance, even though they cost ten times what they do, and I strongly recommend them to persons afflicted with locomotor ataxia, paralysis, kidney troubles, nervous diseases and impurities of the blood. I have recommended the Pink Pills to a number of old comrades, and in every instance they have proved beneficial, can I therefore do less than warmly recommend them to all who read this letter? Yours very gratefully,

E. P. HAWLEY.

Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe, diseases depending on humours of the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, over-work or excesses of any nature.

AN ANGLO-CANADIAN MIRACLE.

AN INTERESTING LETTER FROM ACROSS THE ATLANTIC. MR JAMES INGRAM RELATES THE STORY OF HIS SUFFERINGS AND RELEASE—RESTORED AFTER THE BEST DOCTORS HAD FAILED.

The fame of Dr. Williams' Pink Pills is not confined to Canada and the United States, but extends also across the Ocean, and from the mother land comes a letter from one who learned the value of this great remedy while in Canada and who now, although thousands of miles away, gratefully acknowledges what Pink Pills have done for him after medical aid and all other remedies had failed. His letter cannot fail to bring hope to other sufferers as it assures them that in Dr. Williams' Pink Pills they may look for a cure even in cases pronounced by the most eminent medical specialists as incurable.

RHORDEREN, Monmouthshire, England,

November 20, 1891.

To the Dr. Williams' Medicine Company, Brockville, Canada.

GENTLEMEN,—It may surprise you to receive this letter from across the Ocean, but I would not be doing my duty did I not write to thank you for the noble medicine called Dr. Williams' Pink Pills for Pale People, and to let you know what they had done for me after four years' suffering, and when all other medical aid had failed. My trouble occurred while in Canada, and I was treated by several doctors, and in the Montreal General Hospital by Drs. Smith, Molson and Macdonell. I first felt the effects of the disease, which the doctors pronounced diabetes, in January, 1886. I used many remedies and tried numerous doctors, with the only result that I grew poorer in both health and pocket. At last in despair I went to the General Hospital for treatment, but the result was no better, and on April 30, 1891, I left that institution a poor broken-hearted, downcast man, Dr. Macdonell having informed me that they had done all they could for me. I continued to live on in misery until about the middle of August, when I saw in the *Montréal Star* an article telling the story of a man who, after spending hundreds of dollars, had tried Dr. Williams' Pink Pills and found a cure. Drowning men, they say, will catch at a straw, and it would be impossible for me to express the gratitude I feel for the hope that man's story gave me. I at once bought a box of Dr. Williams' Pink Pills from Mr. R. Birks, druggist, on McGill Street. Before I had finished it I felt that Pink Pills were helping me, and I procured four more boxes. These almost restored me to health, and through the kindness of Mr. O'Brien, of the harbour works, I was given a light job on the harbour wharf, and was again able to earn my living. I made up my mind, however, to return to the land of my birth, and on November 5, sailed for England. The passage was rough, and I caught cold, which set me back somewhat, but I am again regaining strength. I find that I cannot get the Pink Pills here and I want you to send me a supply, as under no circumstances would I be without them, and you may be sure I will gladly recommend them to my friends both here and elsewhere. Yours gratefully,

JAMES INGRAM.
