

The Geo. T. Smith Middlings Purifier Co.

Office of Campbell, Stevens & Co.,
Chatham, Ont., May 15th, 1890.

S. S. HEYWOOD, ESQ.,
Manager Geo. T. Smith M. P. Co., Stratford, Ont.

Dear Sir: I went down to Aylmer Roller Mill, Stevens & Sinclair, as promised, to start up the Three Roll Chop Mill made by you. That Chop Mill was a surprise all round. After getting chop mill in place with spouting to and from, the mill was shut down to put drive pulley on main shaft. Belt to drive it with had not arrived. I found an old three-inch belt, patched it up a little, and put it on, put the feed in and away it went, working on barley and corn at the rate of 15 to 20 bushels an hour, and it was running over an hour before the engineer knew it was running, then he came upstairs and saw it or I do not think he would have known the difference. They got the belt that night, and now are troubled with hard work, taking chop away and keeping spout clear.

Yours truly,

J. R. WALKER,
Head Miller.

ST. LOUIS HOTEL, QUEBEC, 5th February, 1889.

S. S. HEYWOOD, Esq.,
Manager Geo. T. Smith M. P. Co., Stratford, Ont.

DEAR SIR: I am favored with your letter of the 1st instant, forwarded to me here, and have to thank you for the liberal spirit in which you have met my suggestions. I enclose check for \$500, in full of balance of your account, accepting with thanks your proposal to this effect.

Sincerely yours,

A. CROSS.

P. S. Should have stated that I consider you have acted with great fairness and liberality in your endeavors to have the machinery made complete and satisfactory, and should I be in the position of having another like undertaking, I should be pleased to have it in your hands.

A. C.

RIVER BEAUDETTE, QUE., Feb. 7th, 1890.

S. S. HEYWOOD, Esq., General Manager
GEO. T. SMITH M. P. CO., Stratford, Ont.

DEAR SIR: Yours of the 4th inst. at hand. In answer would say the short system mill (two breaks) you built and started for us about thirteen months ago is running splendidly, our custom continually increasing. The contract was for a 50 barrel mill. We often exceed that quantity, using much less power than when we used stones to do same amount of work. The millwright work was done in a satisfactory manner, machines run well, and no trouble with machinery. I have no hesitation in recommending your mills to the public.

Yours truly,

WM. BRODIE.

The above letter from the Hon. Judge Cross, of Montreal, deserves a word of explanation, the circumstances under which it was written being perhaps without parallel in the history of mill building. Our contract for the mill at River Beaudette, of which Mr. Brodie is tenant, was with the Hon. Judge Cross, who owns it. After machinery had arrived at mill and millwright had commenced work, the mill building was levelled to the ground by a cyclone. The machinery was, of course, more or less damaged, and considerable extra expense of millwright work incurred, and it was the adjustment of this account to which the Judge so pleasantly refers.

We are the Canadian manufacturers of the genuine Brown Engine. Our drawings and patterns came direct from the Brown Engine Co., of Fitchburg, Mass. Many of the so-called Brown Engines manufactured by other Canadian manufacturers are comparatively worthless, and should not be confounded with the genuine Brown.

SECOND-HAND MACHINERY FOR SALE.

1 No. 2 Smutter, manufactured by W. & J. G. Greycy, . . . \$ 50	1 Double 9 x 18 Roller Mill, Gear Drive, Goldie & McCulloch, . . . 175
1 No. 2 Smutter, manufactured by Howes & Babcock, . . . 70	1 4-break Machine, rolls 6 in. x 16 in., Goldie & McCulloch, . . . 200
1 Run Chop Stones, against sun, four feet six inches, . . . 60	1 Slide Valve Engine Cylinder, 10" x 14" manufactured by Corbett & Sons, Tubular Boiler, 42" x 10', 47 3" tubes and all connections, Stack 60' x 20", necessary guy wires, pump and heater, . . . 800
