CASH CLEARING SALES !

BULK OF STOCK AT 20% DISCOUNT

INVENTORY is in progress and we are enlisting the co-operation of the purchasing public in our January stock-taking by offering the bulk of our splendid showing of merchandise at 20% discount—a figure which stands for High Finance in its best and most desirable form. Wise economists are drawing money from the bank to participate in this event, realizing that at current rates of interest they would have to wait almost seven years to save this amount. Here you save the moment you spend. And you get the best merchandise the markets of the world produce.

Visit the store daily to keep informed of events. Big snaps in broken lines.
