

3. The appropriate governmental authorities shall establish notification and other administrative procedures in order to implement this and other provisions of this Article.

ARTICLE V

Prior to the transfer of any nuclear material, material, equipment or technology subject to this Agreement beyond the territory of a State Party to this Agreement to a third party, the written consent of the other State Party shall be obtained. An agreement to facilitate the implementation of this provision may be established by the State Parties.

ARTICLE VI

Prior to the enrichment of any nuclear material subject to this Agreement to twenty (20) percent or more in the isotope U 235 or to the reprocessing of any nuclear material subject to this Agreement, written consent of both State Parties shall be obtained. Such consent shall describe the conditions under which the resultant plutonium or uranium enriched to twenty (20) percent or more may be stored and used. An agreement to facilitate the implementation of this provision may be established by the State Parties.

ARTICLE VII

1. Nuclear material, material, equipment and technology subject to this Agreement shall not be used to manufacture or otherwise acquire nuclear weapons or other nuclear explosive devices.
2. With reference to nuclear material, the fulfilment of the commitment contained in paragraph (1) of this Article shall be verified pursuant to the safeguards agreement between each State Party and the IAEA, in connection with the Treaty. However, if for any reason or at any time the IAEA is not administering such safeguards within the territory of a State Party, that State Party shall forthwith enter into an agreement with the other State Party for the establishment of such safeguards or of a safeguards system that conforms to the principles and procedures of the IAEA's Safeguards system and provides for the application of safeguards to all items subject to this Agreement.

ARTICLE VIII

1. Nuclear material shall remain subject to this Agreement until:
 - (a) a determination is made that it is no longer either usable or practicably recoverable for processing into a form in which it is usable for any nuclear activity relevant from the point of view of safeguards referred to in Article VII of this Agreement. Both State Parties shall accept a determination made by the IAEA in accordance with the provisions for the termination of safeguards of the relevant safeguards agreement to which the IAEA is a party;
 - (b) it has been transferred to a third party in accordance with the provisions of Article V of this Agreement; or
 - (c) otherwise agreed between the State Parties.
