

Section 3 — Cases

This section will describe practical cases and situations highlighting DJI's powerful information retrieval features. The cases cover the following topics:

Case Number	Show you how to	Case example
1	Find articles and archived news	Looking for a special feature article on China
2	Stay regularly informed of sector development in your market	Multiple-sector information gathering from a post in India
3	Follow-up on a major event	Collecting information on CeBit for the next three months
4	Read news and magazines online	Accessing The Globe and Mail online
5	Be better informed of developments in the country you are posted to	Preparing to leave for a new posting in Vietnam
6	Find information on companies	Finding latest trade articles and news on a client

Each case includes step by step instructions and tips. Please note that each case was written to show you how to target specific relevant information and reduce information overload.
