

IMPORTANT TO BEE KEEPERS.

BRADT'S IMPROVED PATENT BEE-HIVE!

Is the Best Hive now in Use.

FOR THE FOLLOWING REASONS:

1st—It is so arranged that the bees are always under your control.

2nd—It disposes of all the worms, dead bees and foul matter that collect in the hive: and further aids the bees in protecting themselves from the ravages of the miller; and other insects that infest the hive.

3rd—The hive can be cleaned out in one minute's time, without in the least disturbing the bees.

4th—This hive is so constructed that the frames are kept at an equal distance from each other, and can be removed and replaced at any time.

5th—Bees can be kept in this hive from year to year, without their running out, as they do in other hives.

6th—At the season of swarming, you can divide your colony, and run no risk of losing them, by their going away as they so frequently do.

7th—The hive is ventilated at the top and bottom with buttons to close or open them at pleasure.

8th—The entrance to this hive is so arranged that the robbers can be shut out, the drones killed off, and the queen kept in the hive.

FARMERS, LOOK TO YOUR INTERESTS,

And buy the hive that is best, and most convenient.

An inspection of this hive will convince you that it is constructed on scientific and common-sense principles, that it is economical and trustworthy, and will add to the prosperity of your bees, and consequently to your own advantage.

The undersigned is now prepared to fill orders for these hives, and also to sell County, Township and individual rights.
