NEW YORK, May 1.—In its main spects today's short session of the tock exchange was largely a repetition of recent days in the sense that very considerable part of the turnover was again in so-called war tocks and allied shares. Westingbouse and others in that class condituted the most prominent features, itho they falled to make new high records and in fact, reflected selling or profits at the end. Studebaker was trongest of the motor group, with a new high record on rumors of dividend prospects.

Standard stocks were more or less toglected thruout and for the most part fell under yesterday's lowest quotations, tho showing some hetterment at the close. U. S. Steel was the only one of the speculative favorites to show relative steadiness, rising to its hest in the final dealings.

Bears Again Busy.

The market was more than an ordinarily professional affair, much of the trading, which exceeded 500,000 shares, representing week-end settlement of outstanding contracts. The course of prices from time to time

General news of the day, which deals

General news of the day, which dealt with improved conditions in many lines of trade, particularly textiles and steel, together with latest war developments, played little if any part in the day's operations.

The bank statement was in line with expectations, showing a large actual cash gain, with an expansion of over \$30,000,000 in loans, the latter a natural reflection of the week's activity in the stock market.

Total sales of stocks amounted to \$05,000 shares.

The bond market was even more irregular than the stock list, on a minimum of trading. Total sales (par value) \$2,250,000.

DOMINION BRIDGE **AGAIN ADVANCED**

Other War Specialties Also Rose Sharply in Montreal Trading.

MONTREAL, May 1.- The war busiiess stocks continued the chief features in the local market right to the end of the week. Dominion Bridge repeated its almost daily performance of attaining a new high record, while Canadian Locomotive and Steel of Canada common reached new high ground for the current movement in the two-hour session today. Canada Car and Scotia Steel were slightly reactionary. Other stocks were virtually neglected. Power was in fair demand at 228 ex-dividend, equivalent to a new high for the movement, but yielded 1-2 point at the close.

The new high record price set up for Dominion Bridge today was 131 1-2 ex-dividend, this comparing with a previous high of 130. The close was buoyant, last sale going out at the new high record price, with closing bid 1-4 blebow at 131. OTHER GRAINS STRONG

Corn is Being Bought for Shipment at Eastern Seaboard.

CHICAGO, May 1.—Altho deliveries on May contracts proved to be reavier than looked for, the wheat market to-day scored an advance, helped by the fact that the deliveries went into strong hands and that stocks promised a falling off. The close was nervous at 3-4 to 1 7-8e above last night. Corn gained 5-8 to 1c net, oats 5-8 to 1 34c and provisions 5 to 15c.

Rapidly decreasing supplies northwest and a prospect of large shipments to the east from Chicago had a good deal to do with developing bullish sentiment regarding wheat. Large elevator and export interests were said to have taken all the wheat delivered here on speculative options for the current month. Belief quickly spread that most of the grain would be sent forward from here as soon as possible, chiefly for export. Accordingly, general buying set in after a brief show of weakness at the start, and kept the market tending upward until just at the close.

Need of rain east of the Mississippi continued to act as a discouragement for wheat bears. Only scattered showers were reported, wnolly insufficient to relieve the dryness of the subsoil. Some authorities asserted the crop would go ten days more without damage, but others maintained that

snowers were reported, wholly insufficient to relieve the dryness of the subsoil. Some authorities asserted the crop would go ten days more without damage, but others maintained that unless adequate moisture came soon the result would be lowered conditions and disappointing yields at harvest.

Corn Was Strong.

Corn displayed strength from the outset. There were rumors of business at the seaboard and no doubt was expressed but that most of the corn delivered here to cash houses today would be shipped east. Notwithstanding that warehouse tenders of oats amounted to 3,000,000 bushels, as much as for wheat and corn together pit offers of oats were quickly absorbed, with more wanted. Foreign demand was reported good.

Deliveries of provisions were not as large as expected. In consequence the market hardened regardless of a decline in the price of hogs.

FIND ON SILVER LEAF.

Recent buying of Silver Leaf is explained by the news from Cobalt that a vein four inches wide of bonanza ore has recently been struck in a winze on the property, which is being worked under lease by the Crown Reserve Mining Company. It was truck in a drift from a winze 40 feet below the 75-foot level, while another good vein, but considerably smaller, was being followed. Both veins are now in the face of the drift. The Crown Reserve is working the property and the Silver Leaf gets 35 per cent. of the gross returns from the smelter.

MADE BIG COLLECTION.

Very successful anniversary services were held in Pape Avenue Methodist. Church yesterday. The pastor, Rev. P. W. Follett, made an appeal to the congregation for a cash offering of \$800. The people responded by placing between \$900 and \$1000 in the plate. Rev. James Allen preached in the morning and Rev. Dr. Tovell at night.

WINNIPEG GRAIN MARKET.

WINNIPEG, May 1.—Wheat futures opened 1/2c down for May and June, 1/2c up for. October. Oats were 1/3c up, and flax 1/3c lower to 1/3c higher.

There was a reaction shortly after the opening, May touching 1.64%, July 1.64%, and October 1.25%, easing off again later.

Exporting circles reported more activity altho no new business was booked. Cash demand was not urgent, a limited enquiry for No. 2. 3 and 4 grades being in evidence, but even that was spasniodic. A few cars, lowever, changed hapes. Oats, barley and flax were quiet.

Wheat futures closed 1/3c to 1/3c up, cash 1/3c to 1/3c up, cash 1/3c to 1/3c up.
