

TRADE NOTES

The M. Garland Company, Bay City, Mich., recently received a telegraphic order for a lath mill and bolter from the Canadian Soo.

The Goldie & McCulloch Company, of Galt, Ont., recently installed a 300 horse-power Wheelock engine in the factory of Davidson & Thackray at Ottawa.

The Victoria Machinery Depot Company, of Victoria, B. C., are furnishing three large boilers for the saw mill of the Victoria Lumber Company at Chemainus.

The works of the Canadian Oak Belting Company at Brockville, Ont., were damaged by fire on December 11th to the extent of \$3,000. The loss is covered by insurance.

M. Mitshkun Company, railway equipment supply dealers of Detroit, Mich., have opened a branch office in Chicago, for the accommodation of their Chicago and western customers. The office is located at 711 Western Union Building.

The Dodge Manufacturing Company, of Toronto, have secured the contract for the entire equipment of elevating, conveying and power transmission machinery for the large elevator now under construction in the Montreal harbor.

The M. Garland Company, of Bay City, Mich., have just shipped three of their patented log loaders for handling heavy coast timber to the Eby Machinery Company, of San Francisco. A large number of these log loaders are being shipped to western mills.

The Harrigan factory of J. S. Henderson at Parrsboro, N. S., was almost totally destroyed by fire on November 28th. The factory was one of the largest of its kind in the eastern provinces. It is understood that the loss is partially covered by insurance, and it is hoped that Mr. Henderson will rebuild.

The Syracuse Smelting Works advise us that owing to the large demand for their celebrated Syracuse babbitt metal and Columbia phosphor tin, they have been obliged to run their Montreal plant day and night. They are now further increasing their facilities for manufacturing the above metals, and intend to have all orders hereafter filled promptly.

N. Thompson, late manager of the Albion Iron Works, of Vancouver, T. Smirl and W. McCulloch

have formed a partnership under the name of N. Thompson & Company, and have established an engineering and machine shop at Vancouver. It is proposed to make a specialty of logging camp outfits and repairs. Their works are situated on Alexander street.

Those of our readers, and we presume they are in the majority, who require machinery, will be interested in the extensive list of new and second-hand machinery for the use of lumbermen and wood-workers printed in the advertisement of Mr. H. W. Petrie on page 4 of this number of the LUMBERMAN. A similar announcement will appear each month in future on this page, and it will be to the interest of machinery buyers to scan the list month by month.

The Standard Dry Kiln Company, of Indianapolis, have issued a neat booklet describing the "Standard" kiln equipment and moist air system of drying, in which are shown views of "Standard" transfer car loaded with lumber end-wise, cross-wise and on edge. A feature of the book is extracts from testimonial letters received from users of the "Standard" apparatus, among which we notice the names of the J. C. Scott Company, Toronto; Shultz Bros. Company, Brantford; Patent Clothboard Company, Parry Sound; J. Oliver & Sons, Ottawa; R. Thackray, Ottawa; J. B. Smith & Sons, Toronto; Pacific Coast Lumber Company, Vancouver; J. A. Sayward, Victoria, and Kootenay Lumber Company, B.C.

The American Blower Co., of Detroit, Mich., report among recent orders for dry kilns the following: H. Hermann Lumber Co., Ashland, Ky., Grand Rapids (Mich.) Piano Case Co., Nicholson Furniture Co., Huntington, W. Va., Michigan Elm Hoop Co., Grand Rapids, Mich., Otter Creek (Fla.) Lumber Co., Trexler-Turrell Lumber Co., Rickets, Pa., and the Sebewung (Mich.) Sugar Co.; also heating contracts for the Iron City Sanitary Mfg. Co., Zelenople, Pa., Enterprise Mfg. Co., Columbiana, O., B. F. Lee Co., Braddock, Pa., Monongahela (Pa.) Forge Co., New York Glucoss Co., Edgewater, N.J., and the Michigan Malleable Iron Co., Detroit; mechanical draft apparatus for the International Paper Co., (Corinth, N.Y., Mill), Geo. H. Hammond Co., Chicago Lehigh Valley Coal Co., New York, Princeton (N.J.) University and the Binghamton (N.) Electric Light & Power Co.

BABBITT METAL.

In the original recipe for babbitt metal the ingredients were:

Four pounds of copper (flake), 8 pounds regulus antimony, 96 pounds Banca tin.

First melt the copper, then add 12 pounds tin by degrees; put in 8 pounds antimony, and 12 pounds more tin should be added while composition is melting. This forms the hardening which is to be used with tin in proportion of 1 to 2 when casting.

—McBride & Schoepleben, lumber merchants, Weyburn, N. W. T., have adopted the style of The Weyburn Lumber & Elevator Company.

—The saw mill at Warton, Ont., which has been operated for some years by Jones Bros., has been purchased by G. Kastner, who has also secured their timber limits on the peninsula. It is the intention to move the mill to the north shore, where Mr. Kastner will conduct lumbering operations on an enlarged scale.

DRY KILN

Recording Thermometers

Adopted by

A. H. ANDREWS CO.
STANDARD DRY KILN CO.
For their kilns they supply the trade.

HELIOS-UPTON CO., Peabody, Mass.

To Those Who Carry Insurance on Lumber

You are compelled to pay more for your insurance to-day than a year ago. This is particularly true in Canada where rates have been abnormally increased by Tarriff Association Companies. It is our business to insure nothing but lumber. We study the advantages offered by each risk submitted and accept only the best moral and physical hazards. Thus by carrying only selected risks we can offer lower rates. We are saving money for hundreds of lumber dealers. Why not let us take care of from \$1,000 to \$20,000 of your insurance?

For information apply direct to our home office,

LUMBER UNDERWRITERS, 66 Broadway, New York.

Branch Houses:
44 Scott Street, Toronto, Ont.
Memphis, Tenn. Minneapolis, Minn.
