Note and Comment

The bookmakers are all in Toronto from the Montreal meeting, waiting for the flag to fall next Saturday at Woodbine Park. They will finish up at Fort Erie, and then on to Baltimore, where the meeting opens on Oct. The Lexington meeting opens today for a session till the middle of November, but they are betting by the pari-mutuel system in Kentucky, where all the money lost by one-half of the betting public goes to the other half, less the 10 per cent. government commission.

Rochester's double victory at the island yesterday pretty nearly ends John Ganzel's anxiety for another year. The Hustlers showed lots of life, and are finishing like real champions. The the Leafs led on the series, eleven to six, until yesterday, the visitors may follow up their two wins yesterday by landing the remaining three and splitting up with the only team ahead of them.

Jack Slattery is still the only regular in the 300 list of Eastern League hitters, with an average of 309 in 84 games. True Dubec of Montreal has 343 in 32, McConnell of Buffalo 349 in 21, and Heitmuller of Baltimore 344 in 23, also Rath of the same club 324 in 19 games. Catcher Hardy of Montreal hit 317 in 21 games.

These are unofficial figures, of course, the Toronto batting averages one week before the close of the season being as follows: Slattery, 1b., 309; Shaw, r.f., 287; Delehanty, 1.f., 283; O'Hara, c.f., 272; Killian, p., 220; Rudolph, p., 245; Tonneman, c., 244; Mullen, 2b., 241; McDonald, r.f., 229; Vandergrift, c., 221; Fitzpatrick, 3b., 212; Vaughn, ss., 210; Mueller, p., 208; Wilson, p., 182; Newton p., 186; Carroll, p., 157; McGinley, p., 132; Grimshaw, 283; Kelley, 282.

Mr. J. de Beer, a sophomore at Yalowas a visitor in the city yesterday. He is in the baseball manufacturing business, being a son of the presiden of the De Beer Sporting Goods Company of Jamestown, N.Y. Asked whathe thought of the new idea of the cork centres: "It's a good thing," he declared, "for us." Of course, he expects the makers of the cork centres to continue, but as for his company they will continue with the old rubber core of an even ounce.

Sporting Editor World: To decide a dispute, please state whether, the standing of the Eastern League club is calculated by their percentage at the closewof their official season, of whether, in any circumstance, unplayed postponed games may be played forwards, thus altering the percentage.

W. M. Wallace. Ans.—Postponed games cannot be played off after the close of the official season.

What little doubt there was about Re ester winning the champiouship they grabbed both ends of the dou header from the Leafs, winning the f which was a slaughter, by the score of 9 to 1, while the second went their way by 2 to 1. Only about 1500 crossed the bay to see the two teams clash, and the enthusiasm was outshope only by the weather, which was cold and raw. In the second innings of the first game Fitzpatrick was hit on the head by a pitched ball and forced to rease, altho, outside of a little dizziness. Fitz was all right. This, by the way, makes three Toronto players that Rochester pitchers have forced to retire from the game this season, the first being Vandy, who was hit by Lafitte, and the next was Grimshaw, who was put away for the summer by Holmes.

Previous to the games the Toronto players, along with President McCaffery, had their picture taken, so perhaps this was the jinks of the double-header.

Jersey City defeated Baltimore by 2-1, while the Royals won both games from Buffalo, thus advancing into fifth place in the league standing. which was a slaughter, by the score

Only One Game To-day. Only One Game To-day.

It had been intended to play a double-header at the island to-day between To-ronto and Rochester, but Manager Ganzel protested on the ground that two games were officially scheduled for to-morrow, and only a single game to-day, there being only three games yet unplayed between the teams. This proved correct, and only one game will be played to-day, beginning at 3.30. Mueller or McGinley will pitch for the locals, and either Holmes or Ragan for the visitors. There will be two games to-morrow, at 2 and 4 p.m.

Toronto Polo Team Defeat Montreal By 5 Goals to 2

MONTREAL, Sept. 18.—(Special).—In a return match played this afternoon the Toronto Hunt Club polo players beat the Back River Polo Club quartet by a score of 5 to 2 at the grounds of the Back River Club. The game was a poor exhibition of polo, the Back River players not displaying their usual form, while the Toronto team were without one of their men, Capt. McCarthy, and tho Capt. McMillan of Back River, who replaced him, put up a brilliant game, their team lacked the finish which had marked its appearance in the various fournaments in which it has figured during the past three weeks. The issue of the game was never in doubt, Toronto scoring the first two goals of the match in the second period and showing themselves masters of the situation thruout. Mr. McBrien at back played a particularly fine game and showed the form which has stamped him as probably the finest hitting back in Canada. The other members of the team are all fine hitters and in this excelled the Back River mun. Capt. Van Straubenzie made some splendid rushes for Toronto and scored two of their goals. Two more fell to Capt. McMillan, who thruout the match was the most noticeable player on the field.

Toronto Hunt (5)—Mr. Alfred Beardmore (1), Capt. McMillan (2), Capt. Van Straubenzie (3), Mr. McBrien, back. Back River (2)—Mr. A. E. Ogilvie, Mr. B. McLennan, back.

The visiting English polo players are expected to arrive here to-morrow and a busy week is before them. The English team is made up of Messrs. R. and E. Grenfell, F. A. Gill and Lord Rocksavage. The team which will represent Canada in the two Canada v. England matches has not yet been picked, but it is expected that one or two of the Toronto team will stay over for the week to help out the local club in their games against the British poloists.

WILL TEACH AGRICULTURE Newfoundland to Send Teachers to Canada for Pointers

MONTREAL, Sept. 19.—Dr. Jas. Robertson, president of the Canadian Technical Commission, who has just returned from Newfoundland, says that Sir Edward Morris and his colleagues are making every effort to improve agricultural conditions on the island. Agriculture is to be taught in the schools, and twenty or more teachers are soon to be sent to Guelph, Truro and the Macdonald College, in order ta secure the best possible notions in agricultural matters.

The government is also contemplating fitting out twenty crafts that will ascertain the temperature and currents, so as to find the location of the cod, and thus prevent, if possible, the partial failure of the fisheries, which is reported this year to be likely.
