

HUNGARY MUST OUST BELA KUN REGIME

Otherwise She Need Not Expect Blockade to Be Raised, Says Allied Statement.

Paris, July 27.—A strong arraignment of the present Hungarian government is contained in the allied statement issued yesterday, in which it was made known to the Hungarian people that they could only secure a removal of the blockade and receive food supplies if they ousted Bela Kun from power. The text of the statement, given out by Premier Clemenceau in the name of the peace conference, is as follows:

"The allied and associated governments are most anxious to arrange a peace with the Hungarian people and thus bring to an end a condition of things which makes the economic revival of central Europe impossible, and which is a constant source of trouble for its population. These tasks cannot be attempted until there is a peace with the Hungarian people and the spirit of the engagements into which it has entered with the allied governments."

"None of these conditions is fulfilled by the administration of Bela Kun, which has not only broken the armistice but is at this moment actually attacking a friendly and allied power."

"With this particular aspect of the question it is for the allied governments to deal on their own responsibility. If food and supplies are to be made available, if the blockade is to be removed, if economic reconstruction is to be attempted, if peace is to be settled, it can only be done with a government which represents the Hungarian people and not with one that rests its authority upon terrorism."

"The associate powers think it opportune to add that, all foreign occupation of Hungarian territory, as defined by the peace conference, will cease as soon as the terms of the armistice have, in the opinion of the allied commander-in-chief, been satisfactorily complied with."

BELIEVES STERLING EXCHANGE WILL GO UP

Vancouver, July 27.—"In my opinion, within a very short time sterling exchange will be pegged at \$4.50, a figure which will have a direct bearing on the Canadian Bank of Commerce, who arrived here yesterday. He pointed out the fact that righting the sterling exchange will have a direct bearing on the money markets of the world, and would to a large extent assist in improving the balance of trade on the Pacific."

FOREST FIRES REACH AN ALARMING STAGE

New Blazes in Western Montana, and Idaho and Labor Supply Being Drained.

Spokane, Washington, July 26.—With new blazes springing up in western Montana and northern Idaho, and the supply of labor rapidly being drained, the forest fire situation has reached a stage where it excites alarm on the part of the federal forest service officials, according to statements tonight at a dangerous pace, tho it was temporarily checked when it reached the old Black Tail burn.

The Hughes Creek fire in the Bitter Root forest jumped the control lines several times. The Running Creek fire has cleared the Salmon Mountains and is burning over a large area.

Aid of soldiers has been asked by the Montana state council of defense.

High winds have fanned the blazes to a strength that makes their control by present forces problematical.

The joining of the Cold Creek fire with the blaze coming down Long Gulch Creek in Lolo forest caused a fire which spread through the timber at a dangerous pace, tho it was temporarily checked when it reached the old Black Tail burn.

POINCARÉ MAY RUN FOR SECOND TERM

Recent Speech of Clemenceau Would Indicate That He Will Be Candidate.

Paris, July 27.—Premier Clemenceau's reference in a recent debate in the chamber of deputies to "the renewal of the powers of the president of the republic" was interpreted in some quarters as an indication that President Poincaré would be a candidate for a second term at the Elysee Palace.

Friends of M. Poincaré belonging to several political parties say that the president's determination to retire at the end of his present term remains unshaken, but that this does not mean that he intends to retire from politics.

On the contrary, according to the best informed sources, M. Poincaré will depart from the presidency furnished by the quiet, retired lives of MM. Fallieres, Loubet and other former presidents, and take an active part in politics, probably leading the senate and almost certainly to his lucrative law practice.

In the speculations regarding the presidential elections to be held in January next, the remark is frequently made that the choice of the congress and Versailles could be a case with certainty of Premier Clemenceau made known his willingness to stand as a candidate for the office of executive, aside from the premier and the usual candidates of the president of the chamber of deputies and the senate, the only other names canvassed are those of Alexandre Ribot, former premier and minister of foreign affairs, and Jules Pams, minister of the interior in the present cabinet, both of whom were unsuccessful presidential candidates in 1913.

M. Pams who was backed by M. Clemenceau, resigned the agricultural portfolio in Poincaré's ministry to be a candidate against M. Poincaré, and he happens again to be a member of the government presided over by the possible candidate who is believed to possess the best chance of election.

The hostile element of the radical party still hopes, however, with the aid of the Socialists and Republican Socialists, to overthrow the cabinet before the elections, in which case M. Pams would be able to stand without appearing to be disloyal to his chief, and with the support of "the tiger," he would be a formidable opponent to Paul Deschanel, president of the chamber, whose chances appear to be better than those of M. Dubost, president of the senate.

WORKING TO UPSET INTERNATIONALS

Joseph Knight Arrives to Organize One Big Toronto Union.

Joseph Knight of Edmonton, Alta., a member of the general executive board of the "One Big Union" movement arrived in Toronto Saturday, to formulate the initial steps of a gigantic program, which it is proposed will upset the present international trades unions.

Mr. Knight has been associated with this organization since its inception in the west.

"Thousands of copies of the constitution and bylaws of the One Big Union are being distributed freely in this city. The advance agent refused to give campaign details, but admitted in an interview that a local organization had already been formed, whose presence would soon be felt."

Mr. Knight said that labor autonomy for Canada was bound to come, and this, he said, could only be obtained when the entire Canadian labor forces were solidly organized under a purely Canadian organization.

"The International Trades Union movement has utterly failed to accomplish such organization," he said, "and in Toronto, a city of more than 500,000 population, the total strength of the international does not exceed 30,000. The advance agent refused to give campaign details, but admitted in an interview that a local organization had already been formed, whose presence would soon be felt."
