Great Fortress Warships Saved the Day

Thousand Prisoners in Helmsing, Skatudden in the Missing Number 65—100 Officers Among the Mutineers.

MUTINY ON BOGATYR.

Helmsing, August 3.—(11:17 p.m.)—An incident mutiny broke out today on board the Russian cruiser Bogatyr. It was immediately put down with the arrest of two hundred of the sailors aboard.

Helmsing, Aug. 3.—(11:30 p.m.)—The correspondent of the Associated Press today was permitted to look over the fortress on the main island, as well as all the other fortifications overlooking the town.

The scenes proved that the mutineers had the upper hand in practically all the fortresses until the arrival of warships. The minor barracks and fortifications and the wharf and neighboring quays bristled with machine guns. Flashes had been splintered as if the mutineers had tried to shoot away the Russian colors. The most severe fire from the fortress was directed at the headquarters of the commander, who, on the second day of the trouble, was forced to seek shelter in a better protected place.

Barracks in Ruins.

The barracks in the vicinity showed plainly the effects of the fighting. They are today nothing more than tottering ruins, upheld by iron girders. The church, in which hang the memorials of the French and English bombardment of 1858, was struck several times, but it is evident that the mutineers did not wish to destroy the building.

The result of the firing was seen on every hand, fragments of shrapnel, chain shot and shells littering all the walkways. The fortress itself bore many signs of the bombardment; great rents in the walls, holes in the roof, and destroyed windows telling their own tales.

Warships Saved Day.

There is no question that until the warships came up the government was powerless adequately to reply to the mutineers, and was able simply to hold its positions. The commander, who had fled from his headquarters, leaving them a heap of fallen ruins, when the warships crept up the coast and opened fire. Taken unawares, without leaders and with but little food, the mutineers gave up.

It now transpires that there were two officers among the mutinous men. Lieut. Kohogusky and Lieut. Emil Janoff. The latter was wounded; Kohogusky gave himself up to the Bogatyr and asked pardon.

Thousand Prisoners.

A special court is coming here from St. Petersburg next week to try the prisoners. One thousand men are confined in Helmsing and Skatudden. The total of the casualties is not yet known, but 650 men are missing, it is impossible to say how many were wounded. As previously stated, only five officers were killed.

MAN HOLES BLOWN UP.

Gas Explosion Under Ottawa-street Causes Damage.

Ottawa, Aug. 3.—A leak in a gas pipe running alongside of a Bell Telephone conduit caused as much excitement as a miniature earthquake to-day. About 4 o'clock a man applied a match near the junction of Metcalfe and Wellington-streets. An explosion followed, and the steel lids on manholes at Wellington and Sparks-streets flew up in the air, and the noise was heard blocks away.

PURSUIT OF PAMYAT.

Helmsing, August 3.—The armored cruiser Pamyat Azova, whose crew mutinied off the Estonian coast, spoke to the steamer Salmo and Reval. There the mutineers of the Pamyat Azova ordered the Salmo to stop and asked for news from Svedborg, evidently with the intention of going there to aid the mutineers. When informed that the mutiny among Svedborg was over, the Pamyat Azova was headed for Reval.

The battleships Slava and Careatech were sent from Svedborg in pursuit of the Pamyat Azova.

CALL FOR GENERAL STRIKE TROUBLE FEARED TUESDAY

Probably All Street Cars Have Stopped and Capital Is Prepared for the Worst.

St. Petersburg, Aug. 4.—(2:45 a.m.)—St. Petersburg was in darkness for a time to-night. The employees of the electric lighting plants ceased work in obedience to the call for a general strike. Later the electric light service was restored by sailors of the technical corps. The call to strike already has been obeyed by 2000 factory hands in the capital. It will be impossible, however, to predict the success of this universal political strike until Monday as the workers in St. Petersburg and the province have two holidays, Saturday, which is the fête day of the Dowager Empress, and the regular holiday of Sunday.

The only other available index to the situation is the railroad. Up to this morning the railroad men had not heeded the call for a general strike, except in the case of an insignificant line running to Sestroretsk and other shores of the Gulf of Finland. The men of this line, however, had the result that they had an unimportant collision with Cossacks last night.

In the meantime the fate of the Stolypin cabinet sways in the balance, and Russia is upon the verge of disorders which may lead either to the resignation of the military or the proletariat. It can be stated definitely that the first step toward a dictatorship was taken Sunday or Monday by the nomination of Grand Duke Nicholas to the chief command of all the troops in Russia. This would virtually place him in control of all the disturbed districts of the empire, where martial law has been proclaimed.

This matter was a subject of earnest discussion during the interview between the emperor and Premier Stolypin yesterday. The revolutionists at the convention in Cronstadt and the mutiny on board the cruiser Pamyat Azova gave the tone to the conversation. These events apparently have had a strong impression upon the mind of the emperor.

One element of possible disorder for to-morrow has been removed by the decision of the widow of M. Herzstein, the ex-deputy, who was murdered at Terki, to enter her husband at Terki, and to omit the holding of a trial, which he was resolved to suppress at whatever cost.

Pickets of cavalry and infantry were the most conspicuous features on the streets here last night. Business houses have boarded up their windows as they did in the days of the great October strike. Practically all of the street cars in the city have stopped running, and the car drivers are threatening to cease work to-day.

"PENNSY'S" REDUCTION OF FARES CONCESSION TO PUBLIC DEMAND

Three Political Parties Lined up for Two Cent Fares on all Railways in State—What the Change Means.

Philadelphia, Aug. 3.—The announcement that the Pennsylvania Railway had decided to reduce its passenger rates from 3 cents and in some cases more to 2 1/2 cents a mile, and to sell 1000-mile tickets for \$20, is regarded as a fair concession to the public demand for a two-cent rate, as expressed in the platforms of the Lincoln Republic and the regular Republican and Democratic parties of the State of Pennsylvania. Great as these concessions are, however, the Pennsylvania meets the situation only half way.

Carrying out the reduction will mean a lessening in thru rates to and from many points beyond the Pennsylvania Railroad. For example, on thru tickets to points south of Washington, the Pennsylvania Railroad gets \$6.50 for the haul between New York and Washington. On the new basis this charge will come down to \$5.75, and

TO EASE METHODIST MINDS.

Ontario Cabinet Refuses to Sanction Lease to Ottawa Syndicate, and Suggests That Tenders Be Advertised For—Chairman Smith Still Thinks Bargain a Good One.

The Whitney government has safely passed a rather awkward crisis. The commissioners of the Temiskaming and Northern Ontario Railway a few days ago granted a ninety-nine years lease of the mineral rights in the right-of-way, and thru the most valuable portions of the Cobalt district over to an Ottawa syndicate, headed by Mr. Dickson, and in which Mr. Murphy, the commissioner, was one of the members. The present cabinet is opposed to the public terms requiring a payment of \$50,000, and royalties upon the gross receipts of the ore mined, said royalties to be paid to the syndicate as follows: 10 per cent. to the syndicate, 10 per cent. to the province, and 80 per cent. to the syndicate.

END OF PURSUE WHEEL STAR THEATRE IS A SPOKE

Important Decision May Mark End of Circuit of Forty Theatre Attractions.

New York, Aug. 3.—(Special.)—Judge Truman C. White, in the supreme court this afternoon, handed down a decision denying the application of Alfred H. Reeves to enjoin Sullivan and Kraus from permitting the Dewey Theatre in this city to book at its house for the week of Dec. 17, 1906, attractions other than the plaintiffs.

The decision is important, as there are forty other similar contracts outstanding with the Dewey Theatre, those having signed contracts being members of the Travelling Managers' Association. The defendants claimed that they were not obligated to carry out Reeves' contract, as it was entered into as part of a combination known as the "wheel" which was composed of the Empire Circuit Company, and the Travelling Managers' Association.

Louis J. Vorhaus of the firm of House, Grossman & Vorhaus, appeared for Sullivan and Kraus, and Herbert R. Lindeber for Reeves. Sir Gilbert Parker is counsel for Mr. Reeves.

Not For Murphy Junior To Mine On Right of Way

CECIL B.S. MITH OF THE TEMISKAMING RAILWAY COMMISSIONER VERY FULLY STATED THE POSITION OF THE BOARD. HE DEFENDED THE CONTRACT AND REGRETTED THE GOVERNMENT'S ACTION IN NOT APPROVING THE CONTRACT. HE SAID THAT HE BELIEVED THAT NO ONE CAN ASSESS THAT EVERYONE HAS NOT AN EQUAL RIGHT AND OPPORTUNITY TO MAKE A BID.

MR. SMITH'S STATEMENT.

Cecil B.S. Mith of the Temiskaming Railway Commission very fully stated the position of the board. He defended the contract and regretted the government's action in not approving the contract. He said that he believed that no one can assess that everyone has not an equal right and opportunity to make a bid.

EIGHT APPLICATIONS.

Prior to advertising, various parties, representing eight interests in all, had applied for these mining rights. One application came from Dickson, Ontario; another from Mr. Loney. They and other parties were also in correspondence with the commissioner during and after the advertisement.

On June 7, Dickson suggested, in case no tenders were received, that he would take over the mining rights and pay 50 per cent. of the net profits realized from the ore. This was declined. At the same time, Loney wrote offering to pay a lump sum of \$50,000. This was followed by correspondence, which terminated in a proposal from Loney. He would pay (1) \$50,000 in cash, or (2) 50 per cent. net receipts from the ore mined. This was followed by correspondence, had, from the beginning, decided that there must be a lump sum of \$50,000 cash, and royalties based on the gross and not on the net receipts.

JUST ONE OFFER.

The only offer received by them complying with these conditions was the one received from Dickson. On June 18 he offered the required sum in cash and a royalty of 25 per cent. (flat rate instead of sliding scale) on gross receipts. This was the proposition that was accepted by the board and referred to the government.

HALIFAX SOLDIERS IN ROW TWENTY BEHIND THE BARS

Artillerymen of Citadel Refuse to Arrest Comrades and Riot Results.

Halifax, Aug. 3.—(Special.)—Considerable excitement was caused at the Citadel to-night by an inchoate mutiny among the artillerymen, as a result of which some 20 men are behind the bars. While the military police decline to say yet, the following facts have been ascertained as the immediate cause of the trouble:

A garrison policeman entered a saloon for the purpose of arresting certain artillerymen, who were improperly dressed. One of the men resented the interference of the police and refused the officer in the face. Both artillerymen then left the saloon and proceeded to the barracks.

The policeman reported the occurrence and asked for assistance to arrest the men. The artillery guard when called upon for duty refused to obey orders. Extra assistance was at once obtained and with the aid of an armed picket some 20 of the mutineers were overpowered and placed in confinement.

COBALT VERY HEALTHY.

According to Official Report of Provincial Inspector Scott.

The provincial board of health have received a report from Inspector Scott respecting the sanitary conditions at Cobalt. Among other things he says that in spite of the drawbacks as to water, etc., he considers Cobalt one of the healthiest places in the country. There is not a single case of typhoid fever or any other disease reported from the town. There are some suspected cases in the mining districts, but they have not been pronounced typhoid yet. There has not been a death in Cobalt for the past week, although there were a number the week before. The people of Cobalt are very much satisfied with the sanitary conditions which are reported in the daily papers, and which tended to keep people from visiting that region.

BEST CROP EVER.

Hon. Nelson Monteth, minister of agriculture, states that Ontario this year will have the most valuable crop she ever had, not only in quantity, but also in quality, and the prices are unusually good. He adds: "The only pity is that the producer and consumer cannot get closer together."

MR. BYRON GETTING BETTER.

R. J. Byron, 220 Palmerston-avenue, who fell from a moving car at Balmby Beach Thursday evening and dislocated his collar bone, is reported in much improved condition.
