Including Return Railway Fare From Any Point in Ontario, Five Days at Any \$2.00 a Day Hotel and Five Admissions to the Exposition Grounds, All for

# FIVE DOLLARS

### Tickets Good for Any Time During Exposition

Explanation—We have had many letters saying that we could not fulfil our offer. The coupons we issue are on the endless chain system. That is to say you sell to five people and each of these sells to five more, until everyone has them and they cannot be sold. Those who subscribe at the first are almost sure of selling their coupons. Those who cannot sell and have the buyers send for their books pay for those who do. The reason that you are sure of your ticket is that the more we send to Buffalo the more we make.

SPECIAL OFFER-All our coupons bear a double number, one number being the number of the book and the other number the number of the coupon of the book. When we issue a book to you we take the number of the book, which is placed opposite your name. As your coupons come in we enter up the number of each coupon. By this method we can tell you at a glance what number coupon remains out, and can advise you, so that you will look up the person you sold to. As a special offer, we will forward to you extra coupons free, so that you would be sure to get five coupons returned to us. This will entitle you to a ticket just the same as if the coupons had all come from the one book.

We make a very small profit on this, but anticipate such a large number of people who will take advantage of this offer that our total profit will show a fair business margin. As we receive from each person that you sell to \$5.00, making a total of \$25.00, before we issue our ticket to you, you can readily see that we will be able to fulfil our obligations at all times, regardless of the number of people desiring to take advantage of our offer.

After May 4th, if you wish the trip you will have to purchase a coupon, as we will not issue books unless accompanied by coupons.
