Marshal Su's Hireling Troops Desert to the Rebels.

Ottawa, March 21.—Stanislaus Lacroix was hanged in Hull this morning for the murder of his wife and an old man named Himpolytle Trencamonta-

Private Houses Sank.

New York, March 21.—Park-avenue to-day was again the scene of an accident, which, while it entailed no loss of life, caused a property loss of considerable proportions. The Brown stone fronts of several four-storey private houses on the east side of the avenue sank into the earth on account of undermining of foundation by excavations for the Rapid Transit tuanel. The financial loss was estimated at \$75,000 to \$100,000.

Clarke's

Mr. Onesime Samson, Woonsocket, R.I. writes: "I suffered with asthma for six years, son, Woonsocket, R.I. writes: "I suffered with asthma for six years. Compound My friends thought I was done for. Four hottles of Clarke's Kola Compound Consideration for a friend. You see, it's the same all over. Many poor sufferers have become skeptical about being cured, and you can allower. Many poor sufferers have been day to centre that has been done for you by the legislature? Persistent and factious opposition to the government thas in a great measure brought about, if not a spirit of retailation on the part of the government and their supporters, at least a feeling of indifference that has been very prejudicial. Would not your interests be better served by non-partisan consideration of every proposal according to its merits?

In our legislature we have at present only, or at least in the main, simple business questions to deal with, and in my judgment there is no more reason in viewing them from the standpoint of party than there would be in carrying partyism into our municipal councils and school boards, or the meetings of directors of banks, or other business institutions.

Will anyone assert that the government's policy has, always been entered to seek the sone and you can defort to prove the valuation of the province.

Toronto contains one-tenth of the province, and is, therefore, entitled to more consideration of the province.

Toronto

or the meetings of directors of banks, or other business institutions. Will anyone assert that the gov-

December, A. D., 1901.

No Particulars Filed.

Friday was the last day for the filing of particulars at Osgoode Hall in the election petitions against Edwin Tolton, M.P. for North Wellington. The trial will take place at Wiarton a week from Monday, when the petition will likely be dismissed. Henry Jelley is the petitioner. No particulars were filed yesterday.

Skeptics Turn Believers and are Cured.—"When I read that Dr. Agnew's Catarrhal Powder could relieve catarrh in ten minutes' I was far from being convinced. I tried it—a single puff through the blower afforded instant relief, stopped pain over the eyes and cleansed the nasal passages. To-day I am free from catarrh." B. L. Egan, Easton, Pa.—17.

Or other business institutions.

Will anyone assert that the government's policy has, always been wrong? I certainly will not, and I ask to be placed in such a position that I shall be free to pronounce on each question on its merits, always keeping in view my responsibility to the whole people, instead of to a part, or in other words, to a party.

The government's policy has, always been wrong? I certainly will not, and I ask to be placed in such a position that I shall be free to pronounce on each question on its merits, always keeping in view my responsibility to the whole people, instead of to a part, or in other words, to a party.

The government deserve credit for bringing before the legislature at its last session and crystallizing into law measures for the opening up of our new territory. It is absolutely necessary that New Ontario should be developed. This province, as a member of the confederation, is liable for a large proportion of an enormous public debt, which, if the country does not progress, will prove an oppressive burden. Will we not most effectually lighten that burden and build up our province's prosperity by the development of that new country and the consequent increase of our population?

ment of that new country and the con-sequent increase of our population? The putting of our pulp lands under contract, and the building of the Temiskaming Railway, are, I think, means well calculated to attain that end, and incidentally these measures are directly in the interests of the merchants, manufacturers and artisans of our city and the whole country.

At the great cost of dissociating myself from my party. I have supported self from my party. I have supported the government in these measures. I also felt bound to support a mea-I also felt bound to support a measure aiming at the prohibition of the liquor traffic, in so far as such prohibition is vested in the legislature, but strongly opposed what I considered unfair features of the referendum proposal, and as you know, formulated several amendments thereto. These amendments, I regret to say, received very little support, not having the approval of either party.

I have confidence that I am not

proval of either party.

I have confidence that I am not alone in the belief that the time has come for more independence of party in this country, and am assured that in such independence. British precedents and the true spirit of the British constitution are best observed. In that confidence I appeal to you for the endorsement of my course in the legislature by the practical assistance of your votes and influence in the comf your votes and influence in the co g campaign.
I am, gentlemen, faithfully yours.
G. F. MARTER.

MET HIS DOOM AT HULL, QUEBEC

Story of the Crime for Which Death Penalty Was Carried

A Little Maid's Recovery

The Touching Story of the Saving of Pretty Alice Marsan

The Facts Are Sworn To.

of St. Hilaire, P. Q., from Consumption.

The Facts Are Sworn To.

DOMINION OF CANADA. To-wit:

CURE OF ALICE MARSA.

I. J. JOSEPH MARSAN, of St. Hilaire, in the Province of Quebec, Fruit Grower, Do Solemily Declare
That I am a resident of Mount St. Hilaire and have been for the past ten years. That my daughter
Alice, now thirteen years of age is a resident pupil of the Institute Methodiste Francais,
36 Greene Ave., Westmount. That some four years ago, she with other members of the family, took la grippe, which in her case resulted in a chronic cough that could not be checked. That her disease was finally diagnosed as "Consumption," and no hope was held out for her recovery. That she was taken out of school in January, 1800, to end her young life at home. That she expectorated heavily and the night sweats were very severe. She had no appetite and was much wasted in body, while rest was almost unknown to her. That she received hospital treatment for one whole summer and also used large quantities of cod liver oil to no purpose. That early in August, on hearing of the wonderful curative powers of Powley's Liquiffed Ozone, I at once procured a bottle and began giving it to our dying child. That the peculiar and powerful action of this marvelous remedy brought the diseased matter from her lungs in such volumes that she had to be rubbed three and four times a night to everjoyed to notice her appetite improving, while the night sweats and cough were less sever. That we hopefully continued the treatment and after using six large bottles she eats, sleeps and looks well. Her cough is no longer a source of annoyance and she has been going to school since October last of this year. That we hopefully continued the treatment and after using six large bottles she eats, sleeps and looks well. Her cough is no longer a source of annoyance and she has been going to school since October last of this year. That we hopefully continued the treatment and after using six large bottles she eats, sleeps and looks well. Her cough is no longer a source of annoyance and she has be

appreciation of it. And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act, 1893.

JOSEPH MARSAN.

Declared before me at the City of Montreal, in the Province of Quebec, this twenty-sixth day of mber, A. D., 1901.

R. A. DUNTON, Notary Public.

Fancy the joy and gratitude occasioned by the recovery of Alice Marsan from pulmonary tuberculosis. The same experience is being repeated all over this broad Dominion. Where-

ever the beneficial effect of Powley's Liquified Ozone has been felt you will find thankful peo-

ple who praise it for saving them from consumption—a living death. Cases such as these are

very significant. They prove in an absolutely convincing way that Ozone will cure consumption permanently. It cures it in the right way, too—Nature's way. It increases the oxygencarrying power of the blood, forms sound, healthy flesh and destroys the tubercle bacilli. If

you have any lungs at all and they are diseased, Ozone will arrest the germ attack and restore

the tissues to their proper and normal condition. We state actual cases and give you simply the facts. The extraordinary power of Powley's Liquified Ozone to cure pulmonary consump-

tion compels these statements. We will furnish you with the original sworn statement of these

or any other case we have ever published—we will do anything in our power to assist you in a
