from Chicago at the close of the market today: Wheat-Closing chiles were ½c to ½c higher. Tails advineed about ic. Antwerp recovered yesterday's decline. California markets reported ligher. This was caused on account of demand from Australia. The range of prices to day has been a nairow one. Argentine reports are conflicting. Not much wheat offered there yet, but the sup-ply will increase steadily the trade very mitch at sea in regard to future course of the market; as yet we do not see any special reason for an advance. The de-mand for wheat in some markets is good; in others only fait. We have pienty of wheat in the country and the price is a fair one. The world raised a much increare roop of all cereals this year than last, but indications are that from various reasons the grain is not moving as freely as expect-ed.
