

## GORDON WALDRON IS LIKELY TO BE NEXT ATTORNEY-GENERAL

Drury Still Working On Cabinet Selection.

### NO STATEMENT YET

U. F. O. Leader Is Keeping Himself Well Hidden From Enquirers.

TORONTO, Nov. 5.—Closed in some secret place beyond the knowledge or reach of reporters or other anxious inquirers, E. C. Drury, premier-designate, is still peering away at his job of selecting a cabinet. All possible avenues of information leading out from Mr. Drury's mysterious office seemed to have been closed, and only Secretary J. J. Morrison, of the United Farmers of Ontario and a chosen few know of the hiding place.

No statement has been forthcoming yet as to whom Mr. Drury has selected, but one of the early guesses has come to be somewhat generally accepted as correct. This is that the next attorney-general will be Gordon Waldron. Mr. Waldron is a lawyer, and has been closely in touch with the farmer movement from the first as legal adviser. Besides, he was one of the editors of the *Farmer's Sun* for a while.

Will Support U. F. O.  
The U. F. O. members of the Legislature will have the support of the labor group in the enforcement of the Ontario temperance act, according to a statement made today by Walter Rollo, M. P. for West Hamilton, leader of the labor party and prospective minister of labor in the Drury government. Mr. Rollo stated that the principles of the independent labor party required that the mandate of the people on the Ontario temperance act be carried out.

The atmosphere at the Parliament Buildings these days is very quiet. Sir William Hearst and his ministers are engaged in the barest of routine business, marking time till relieved of their offices and duties. Few of the civil servants appear to be anxious over the change of government, the majority of them assuming that there will not be a general clearing out when the new premier steps in.

Official provincial election returns are rather slow coming in. Sixty-one of the 107 contested constituencies from which returns have been received up to today show the total votes for the five parties as follows: Liberals, 188,802; United Farmers, 166,250; Labor, 65,870; Independents, 26,952.

## BIG WESTERN FILM AT THE MAJESTIC TODAY, FRI., SAT.

"The Westerners" Abounds With Thrilling Situations.

Seldom are picture patrons given the opportunity to enjoy the screen appearances of so many favorite players at one time as will be afforded in the photoplay of Stewart Edward White's powerful novel, "The Westerners," showing at the Majestic Theatre today, Friday and Saturday. In the cast are Roy Stewart, Wilfred Lucas, Robert McKim, Mildred Manning, Graham Pettie, Mary Jane Irvine, Frankie Lee and others of almost equal prestige. "The Westerners," a W. W. Hodgkinson release, is the western picture in a de luxe edition. Its locale, as the thousands of readers of the novel will recall, is the Black Hills, in the days of the gold rush, when the white man broke his treaties and forced his way into Pah-sep-neh, the valley of the Sioux. The Custer massacre followed, and the white man drove the Sioux from the Dakotas. The picture is historically correct in every detail. It is beautiful in scenic effects, swift as lightning in drama, with a charming romance and abounding in little touches of pathos and comedy. It has been produced without regard to expense, with an all-star cast.

Roy Stewart as "Cheyenne Harry" in the big photodramatic film "The Westerners," showing at the Majestic today, Friday and Saturday. Also a comedy, a News Weekly, and Marjorie Skinner in a new program of songs.

## LABOR CONFERENCE APPROVES PRINCIPLE OF A 48-HOUR WEEK

Adopts Convention As Basis For Discussion.

### DOUBT AS TO MEANING

Delegates Uncertain As To Whether Amendments Are Precluded.

WASHINGTON, D. C., Nov. 5.—After nearly five hours of constant fighting, the International Labor Conference tonight adopted the 48-hour week convention of the organizing committee proposed by Mr. Barnes, British Government delegate, "as a basis for discussion." But exactly what that means the delegates are not agreed. Does adoption of the motion confine discussion to the application of the 48-hour week, or will amendments be admitted for a maximum 5-hour day and 44-hour week? That is the question asked on all hands tonight.

The Canadian workers' delegate and Samuel Gompers voted against it. It was the first meeting of the conference attended by Mr. Gompers, and he signaled it by joining forces with the Canadian labor group in a demand for the 44-hour week. Mr. Marjoribanks, British employers' delegate and managing director of Armstrong, Whitworth & Company, had submitted employers' proposals in regard to the 48-hour week. "Unless the 5-hour day, under normal conditions, shall be the maximum of the day's labor," declared Mr. Gompers in a bitter attack on the proposals, "you might as well abandon the discussion of this subject, for labor of America and labor of Europe and labor of all countries, which has some understanding, will not consent to a longer work day than eight hours in each day."

Want Eight-Hour Day.  
In principle, the employers' proposals recognized the 48-hour week; in practice they were opposed to it. Under the employers' proposals, Mr. Gompers claimed, not only was it permissible to work 56 hours a week, but also under certain circumstances 90 extra hours of work a year might be imposed. In other words, the employers could, if they wished, work the employees 16 days in each year sixteen hours a day and let them go idle for the balance of the year. "We want the eight-hour day," Mr. Gompers added, "and we want the Saturday half-holiday, and when we say we want the eight-hour day, we say it as a maximum work day."

Mr. Marjoribanks strongly contested Mr. Gompers' interpretation of the employers' proposals. The employers' proposals, Mr. Marjoribanks claimed, were in the line of the questions submitted by the League of Nations.

## EMPLOYERS' GROUP WOULD MODIFY THE 48-HOUR WEEK RULE

Recognizes Principle, But Wants To Make Some Reservations.

WASHINGTON, Nov. 5.—Members of the employers' group at the international labor conference have prepared a substitute international convention on the 48-hour week. The convention was discussed at a lengthy meeting of the group this morning. While recognizing the principle of the 48-hour week, the employers' draft differs from that of the organizing committee in a number of vital reservations. The text has not yet been made public, but the main reservations in the employers' draft are understood to be the following:

- 1.—Guarantee of the indispensable requirements without which industry cannot normally exist.
- 2.—Unanimous agreement to increase production.
- 3.—Where exceptions are claimed by any nation on account of its backward industrial condition, the exceptions cannot be held to apply to export industries.
- 4.—Insistence on periodicity so that in seasonal trades, an average of eight hours will be regarded as sufficient.
- 5.—Numerous exceptions in connection with public works, emergency works and special industries of various kinds.

The general character of the employers' draft, it is stated, is calculated to avoid numerous specific limitations on industrial output contained in the draft submitted by the organizing committee. The meeting of the employers was behind closed doors. It is understood, however, that Mr. Parsons, Canadian employers' delegate took a strong stand that Canada should not enter into any international convention limiting hours of labor unless first assured that the convention would be adopted by the United States.

# FOUR REASONS WHY SHREWD MEN ARE BUYING VICTORY BONDS 1919

## 1. Security.

SHREWD men are buying Victory Bonds because Victory Bonds are backed by Canada's guarantee that she will repay the full amount stated on the face of the bond—the five-year bonds on November 1st, 1924; and the fifteen-year bonds on November 1st, 1934. And she not only binds herself to pay the money back, but she pledges all of her vast resources as security for her promise.

## 2. Income.

SHREWD men are buying Victory Bonds because the interest return is unusually good considering the absolute security. You will be paid 5½% per year on Victory Bonds—2½% more than you can get in the Savings Banks. Unlike many other investments, you have absolutely no worry as to the prompt payment of the interest.

## 3. Saleability.

SHREWD men are buying all the Victory Bonds they can pay for now and all they will be able to pay for during the next ten months under the instalment plan, because they know that if at any time they should need ready money they can sell them. There will always be a ready market for Victory Bonds.

## 4. Advancement in Price.

SHREWD men are buying Victory Bonds because they consider them to have an excellent prospect of advancing in price.

ALL of Canada's previous issues of Victory Bonds have advanced. You can sell your Victory Bonds 1917 and 1918 even in this short time—one and two years—and get more than par for them. What will Victory Bonds be worth when the world finally gets back to a normal basis—when interest rates come down—when Canada will be able to borrow again at 4%, or even less?

WAR conditions have created the opportunity for you to buy the very best of Government securities on unusually attractive terms. Do not miss such a good investment opportunity, but buy to your limit.

## Pains About the Heart

ANY derangement of the heart's action is alarming. Frequently pains about the heart are caused by the formation of gas arising from indigestion.

Relief from this condition is obtained by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion results from sluggish liver action, constipation of the bowels and inactive kidneys.

Because Dr. Chase's Kidney-Liver Pills arouse these organs to activity they thoroughly cure indigestion and overcome the many annoying symptoms.

IF THIN AND NERVOUS  
TRY BITRO-PHOSPHATE

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of phosphorus in the human system is largely responsible for this condition. It seems to be well established that this deficiency in phosphorus can now be met by the use of Bitro-Phosphate, which can be obtained from any good druggist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change—nerve tension disappears, vigor and strength replace weakness and lack of energy and the whole system is invigorated and robust, angles becoming enveloped in a glow of perfect health.

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use 4 tablets in avoiding fat-producing foods.—Advt.
