RENOWN ONE OF LARGEST

Battle Cruisers Afloat and Has Speed of
32 Knots.

H. M. S. Renown, which is to bring
the Prince of Wales to Canada, is one
of the battle cruisers which was built in
record time in the second year of the
war. She is the sister ship of the Re-
pulse, and these two combine several un-
ique features of the modern cruiser.
Their main armament of six fifteen inch
guns is but two less than the Royal
Sovereign type, which carries eight fif-
teen-inch guns, the heaviest armament
in the British Navy. Their speed,
greater than that of all other armored
ships of their class, is 32 knots an hour,
seven knots more than that of the
Queen Elizabeth type. In their length
of 750 feet they are comparable only to
the largest of ocean liners, for all other
war craft now afloat falls short of them
by many feet.

The main armament consists of six
15-inch guns, mounted on the middle
line, two pairs in barbette forward, and
one pair aft. The two pairs forward are
respectively thirty-five feet and forty-
five feet above the water line, and the
guns of the after barbette are twenty-
three feet above it. All the guns have
