"FEEDER" COAL

The Consumers Coal Company, Limited, are now offering specially prepared Welsh "Feeder" coal. This coal is free burning, carries no stones, and only about one-third the ash of the best American anthracite. It is priced within twenty-five cents of the lowest price we have had on American hard coal for a long time. L.F.

When you are constipated, not enough of Nature's lubricating liquid is produced in the bowel to keep the food waste soft and moving. Doctors prescribe Nujol because it acts like this natural lubricant and thus relieves.

Nujol is a lubricant—not a medicine or laxative—so cannot grip. Try it today.

ANTHRACITE PROSPECTS.

15,000,000-Ton Shortage by End of Winter Predicted.

New York, Nov. 28.—The country is facing a shortage of 15,000,000 tons of anthracite coal before the end of winter, it was said today at the offices of the State Fuel Administration. The estimate is based on a survey of conditions in the anthracite field, taking, according to officials, the most optimistic viewpoint regarding production during the next four months.

An analysis of the output shows, it is said, that the October supply, the surplus of which would ordinarily be used to make up the difference between the consumption and the output in later months, was 1,000,000 tons short. November is estimated to be 1,250,000 tons short. The estimated shortage for December is 3,750,000 tons; for January, 5,000,000; for February, 8,750,000 tons, and for March 12,500,000 tons.

NEW HERE, BUT FAMILIAR IN MANY CANADIAN CITIES

Fifteen thousand Families Tried Vicks Last Winter and are Enthusiastic

ACTS SO INSTANTLY AND SO DIRECTLY

Here's the successful new method of treating any kind of a cold—

A salve that acts like a heating liniment, poultice or plaster. At the same time its ingredients, released as vapor by the body heat, enter the nose and lungs every time you breathe.

Colds are commonly broken up overnight, croup in fifteen minutes. This preparation, Vicks VapoRub, was discovered by a North Carolina druggist. In ten years its use has spread until now over seventeen million jars are used yearly.

Tested in 15,000 Homes.

Over 15,000 families in Toronto and Quebec tried Vicks last winter by invitation of the manufacturer through local druggists. They promised to report results. The three cases below are just random specimens of the hundreds of good reports received.

Vicks is an ideal remedy for children, applied externally, no dosing to upset their stomachs. Good for head colds, chest colds, tonsillitis, catarrh, sore throat or hoarseness, and for skin hurts or itchings, too. Truly, "The Remedy of 100 Uses."

How Vicks is Used.

Mrs. J. Saunders of 288 Barton St., East Hamilton, Ont., says: "I was bothered with asthma and a very bad cold in my chest. O applied Vicks VapoRub, rubbing it on with my fingers, and it gave me wonderful relief. I would be pleased to recommend it to anyone having a bad cold or in case of burns. As a family medicine, it has no equal. I know it will help others as it has helped me."

Mrs. Joseph Haley of 199 West Mills St., Brantford, Ont., says: "My wife has suffered with quinsy for years, but Vicks must have prevented it, for she got through the winter without a single attack. We sent part of a jar to a neighbor, whose boy was very sick with cold or grippe. He also got relief. Vicks surely should be in every home."

Mrs. Wilton Bull of 979 Tupper St., Montreal, says: "I find Vicks VapoRub one of the finest salves I ever used. We use it for cuts, burns and bruises, and even mosquito bites, with most excellent results."

At all drug stores. 50c. per jar.

REMARKABLE PIECE OF WORK

A remarkable piece of handwork is on display in a store on King Square recently vacated by the Phonograph Salon. It consists of twenty-four settings of scenes from the life of Christ executed in wood and painted in appropriate colors. Each setting is enclosed in a box illuminated with electric light. The work was executed by Archibald Poulin, a cripple, after two years and eight months of labor, during all of which time he was confined to his bed by his infirmity. Poulin's home is at Lake Megantic, Quebec, and since starting out three years ago he had covered Ontario, Quebec and New Brunswick. There are 360 figures in the collection and all are made of pine wood and carved out of a single piece.

Woman Then Took Own Life by Swallowing Potom.

Memphis, Tenn., Dec. 2.—After she had fired ten shots at Turner Clark, one of which found its mark and was probably fatal, Mrs. Katie

Drager leaned down, kissed the man's prostrate form and sobbed: "He is the only man I have ever loved."

Then half-crazed she ran into the front door of her home, locked and barricaded it, swallowed the contents of a six ounce bottle of acid and fell on the bed. Ten minutes later she was dead.

Jealousy because Clark told her he did not care for her any longer was the motive for the shooting, according to A. C. Clark, the wounded man's father. "Her affair has been going on for three or four months," he said. "We have all begged and pleaded with him to go away and break up the affair. In fact, he did leave a short time ago, but came back. It was a tragedy of a love affair that was too strong for both of them."

LETTER MAILED IN 1896 IS RETURNED TO SENDER

New York, Dec. 2.—A letter mailed for twenty-six years was returned to the American Credit Indemnity Company at 102 Fifth avenue by the Post Office Department this week. Paul U. Farley, manager of the company, discovered it had been mailed on Nov. 4, 1896.

It was addressed to the Conquistador Packing Company in San Francisco and enclosed a folder which carried a report of an examination of the credit company by the Insurance Commissioner. The indemnity company was at 809 Broadway then, and Mr. Farley heard that the letter had been found in a mail chute, probably in that building.

Among the passengers who sail today from New York on the steamer Olympic for Southampton is Dr. C. W. Saleeby, who recently gave a two-day lecture in this city. Dr. Saleeby spoke to a large audience in the Imperial theatre and gave a scientist's views on alcoholism. He also addressed the Canadian Club on eugenics. After speaking in St. John Dr. Saleeby attended the Convention of the World League Against Alcoholism which was held in Toronto.

An enjoyable dance social was given by the men from the Marburn, now in port at the G. W. V. A. hall last evening to about 150 persons. An orchestra was in attendance, and after dancing light refreshments were served. The committee in charge was as follows: Chairman, J. McLean; vice-chairman, W. Wright; secretary, F. Dawing; assistant, W. Swallow; members, J. Gill, D. Dacey, S. Anderson, J. McAuley, K. Brittain was in charge of the orchestra.

The regular meeting of the Ladies' Auxiliary of the Thalmud Torah was held in the Hebrew school in William street last night, when Mrs. William Wehber presided. The regular business of the Auxiliary was transacted and arrangements were completed for holding a dance in the vestry rooms of the synagogue next week. All the committees were appointed. The silver set was donated by Mrs. J. J. Budovitch, S. Hoffman, A. Jacobson and R. Jacobson was won by Nathan Razovsky.

SWEDISH INVENTOR HAS NEW OIL LIGHT

Light Than Electric or Gas.

Edison enabled us to enjoy the benefits of electric light, Count Weisbach's mantle made it possible to have an incandescent gas light, but it remained for a Swedish engineer named Johnson, now living in Chicago, to devise a lamp that would burn ordinary, everyday kerosene oil and produce a light as bright as that of the electric lamp.

It is as simple to operate as the old style oil lamp, burns without odor, smoke or noise and is proving a sensation where oil light is needed.

Mr. Johnson offers to send a lamp on ten days' free trial and will even give one to the first user in each locality who will introduce it. A letter addressed to O. K. Johnson, 246 Craig Street, W. Montreal, will bring full particulars about this wonderful new lamp. He has an interesting agency offer, too.
