

TELEGRAPH NEWS.

LIVERPOOL, Sept. 4, P. M.
Cotton easier but not lower. — Manchester advices less favorable and cause dullness. — Broadstuffs dull; flour easier; corn easier. — Wheat easier; provisions generally unchanged. — Lard, however, has advanced to 67s. 3d.
The annual feast of the cutlers at Sheffield occurred yesterday. Hon. Reverend Johnson, who was present, made an address in response to a toast to the health of the American Minister. After expressing thanks for the honor conferred upon him, he said he came to the country as a messenger of peace. He was glad to recognize everywhere in England strong proofs of friendship and which he was certain were reciprocated in his native country. For no people under the sun had more friendly feelings for them than the American people. They were really one people, and like laws and like institutions, and in both countries freedom was the base of these laws and institutions, and in their joint hands liberty would live forever.

New York, 4th.
A summons from the Supreme Court was yesterday served upon the officers of the Operative Bricklayers Protective Union to answer to a charge of conspiracy.
The money market continues supplied on 3 to 5 per cent. on call, and six per cent. on sixty days.
Gold closed quiet at 143.

London, Sept. 5th.
The Corners' inquest on the bodies of the victims of Abercrombie Railway disaster was concluded today. The jury brought in a verdict of Manslaughter against Williams and Jones the brakemen on the goods train for negligence.

A prospectus of the new telegraph line to connect Portugal and the United States, under the title of the People's Cable, has been issued.

Advices from Turlan announcing that the heir to the Prussian Crown has recently died of cholera.

A fire broke out among the shipping in the Southampton Dock. Much valuable property was destroyed. It is impossible to estimate the loss, but will be very heavy.

Liverpool, Sept. 5.
Afternoon markets generally quiet and unchanged. Lard has advanced to 68s. 6d.

To day is observed as a holiday in London consequently no markets reported.

New York, Sept. 6.
Gold 144.

Buffalo, Sept. 3.—An exciting boat race took place on Niagara river this afternoon, between Alexander Folsom and Del. Marvin. The course was five miles up the river against a seven mile current through the rapids and around Bird Island reef and return three and a half miles. Folsom won the race by five seconds, in 18 minutes and 47 seconds.

New York, Sept. 3.—The second day's play between the St. George and New York Clubs resulted in a draw. Mr. Cushman, the Boston club, made another fine score of 18.

Hartford, Conn., Sept. 3.—Ex Gov. Thos. H. Seymour died at his residence in this city at half past eight this evening of typhoid fever, aged 61 years.

How to Cure a Cancer.—A Milwaukee paper states that some eight months ago, Mr. T. E. Mason, of that city, ascertained that he had a cancer on his face the size of a pin. It was cut out, and the wound partially healed. Subsequent it grew again, and while he was at Cincinnati on business it attained the size of a hickory nut. He remained there since Christmas under treatment, and is now perfectly cured. The process is this:—A piece of sticking plaster was put over the cancer, with a circular piece cut out of the center a little larger than the cancer, so that the cancer had a small, circular rim of the healthy skin next to it exposed. Then a plaster made of chloride of zinc, bicarbonate and wheat flour was spread on a piece of muslin the size of the circular opening, and applied to the cancer for twenty-four hours. On removing it, the cancer will be found burnt into and appear of the color and hardness of an old shoe sole, and the circular rim outside of it will appear white and par-boiled as if scalded by hot steam. The wound is now dressed, and the outside rim soon separates, and the cancer comes out in a hard lump, and the pieces heats up. The plaster kills the cancer so that it sloughs out like dead flesh, and never grows again. The remedy was discovered by Dr. F. H. of London, and has been used by him for 6 or 8 years, with unfailing success, and not a case has been known of the re-appearance of the cancer when the remedy has been applied.

The Late Storm in Carleton County.

The hail storm on Wednesday of last week seems to have spent its utmost fury in McCafferty Settlement, Simonds, where we are told it prostrated the crops completely in a track a mile wide. Our informant says it is doubtful whether any of the grain which lay in a track in that settlement will be harvested. In a drought in a track of about two miles wide, and extending some 6 or 8 miles back from the river, the crops are entirely prostrated. In many instances they are so utterly destroyed that they are being ploughed under; in other cases the cattle have been turned in, where they lay before the storm, splendid fields of wheat, buckwheat and oats were growing. We saw a fine new barn which was swung round by the storm a distance of fifteen feet. It is estimated that along the Backgambing stream 10,000 bushels of grain have been destroyed. The storm was equally destructive in the West. It is said that the corn crops are ruined, and wheat and other grains lying out, or cut off as if by the sickle, with the stalks blown off—houses with the chimneys completely riddled. It is fifty years

since there was a storm in this County approaching in power that above referred to.

Woodstock Iron Works.—The Woodstock Asselin contains the following:—
"Mr. Best is engaged in making preparations for the resumption of operations at the Iron Works. He has on hand a considerable stock of ore, and has a large quantity of coal at the kilns in Newburgh,—in fact, ample stock for a run of one furnace for a few months. So much, however, has to be done, preparatory to a commencement that it is not probable that the furnace will be in blast before the 1st November next. We trust that these works have now resumed operations never again to be permanently, or otherwise than for a short time, closed. The effect upon the country will be felt this coming winter, in the extension of employment, and an increase in the amount of circulation."

Suppression of a Whiskey Still.—On Tuesday last, Thomas Hurd, Esq., Inspector of Inland Revenue, proceeded to Long Creek, in York County, (22 miles from Enderbury and 4 miles from the western bank of the St. John river,) where he found a quantity of wort and other indications of the presence of a whiskey still. It was known that for some time past the neighborhood had been supplied with native whiskey by a man named Foley, and the railway contractors were considerably annoyed by the operations of the still. It was equally well known that no revenue was accruing to the Government from that section of the county. Some seven or eight men and three women were found on Foley's premises. After some parley the parties confessed their misdemeanor, produced the apparatus and surrendered it to the Inspector and the Deputy Sheriff (Friel), who accompanied him. We understand they were very leniently dealt with, as they did not appear to thoroughly understand the law on the subject, in all its bearings.—Telegraph.

The oil fever is breaking out again in the Pennsylvania oil districts.

SAINT ANDREWS, SEP. 9, 1868.

THE RIFLE COMPETITION at Sussex was terminated on Saturday last, and we are pleased to record that Charlotte County carried off its share of prizes, as will be seen by the following scores copied from the returns.

1st Competition 500 and 600 yards.

Capt. E. S. Polleys, 1st Quar. 17 pts. \$4.

2nd Competition 300 and 500 yards.

Major M. Adam, 4 Charlotte, the National Rifle Association Medal of England, and 1st prize \$10, scoring 32 points. Pr. Clinch, 1st, 27 pts. \$10; Pr. Blackin, 4th, 24 pts. \$5; Cor. Britany, 4th, 24 pts. \$3. Pr. Buck, 1st, 24 pts. \$4.

3rd Competition, 500 and 600 yards.

Lieut. Marks, 4th, 30 pts. \$4.

4th Competition, 200, 300 and 400 yards.

Ens. Bixby, 4th, 46 pts. \$24. Cor. Britany, 15 pts. \$10.

5th Competition, Militia Officers.

200, 300 and 400 yards.

Maj. McAdam, 4th, 46 pts. \$16.

6th Competition, 400 and 600 yards.

Lieut. Marks, 4th, 31 pts. \$50. Capt. Pol, 1st, 27 pts. \$4.

7th Competition—"All Corners" prizes

300, 500, 600 yds.—E. S. Bixby, 4th, 24 pts. \$4.

8th Competition, 700, 800, 900 yds.

Ens. Bixby, 4th, 15 pts. \$23. Maj. McAdam, 4th, 12 pts. \$4.

9th Competition—Consolation prizes.

Major Stickney, 1st, 19 pts. \$10. Sergt. McKinney, 1st, 17 pts. \$3. Lieut. McGowan, 4th, 17 pts. \$5. Sergt. McMullin, 4th, 17 pts. \$4. A total of 19 prizes and a Medal.

Capt. Darling, N. B. Y. C. made 50 points and won the Prince of Wales Cup.

Sap. Johnson, N. B. Eng. the Ladies Cup.

His Honor Governor Wilmet, Col. Thurgar, the Governor's wife, Col. hon. John Robinson, Mrs. Almon, Lieut. Wylie and the Adj. General presented the prizes.

We are informed that everything was not exactly "fair and square," and that some things occurred which did not give entire satisfaction.

We are obliged to hold over a second article on the building of a large hotel in this place. We noticed on Monday last, that considerable progress is being made with what is termed over the lines as "a big hotel" at Eastport.

The people there are wide awake, to the interests of their town, and have formed a company to supply a want in that community, which is worthy of being copied here. A gentleman of wealth who is sojourning here with some members of his family, to avoid the heat and bustle of a Western City, informed us, that if the advantages of our pure air, salubrious climate, sea bathing and cheap living, were only made known at the Westward, with of course accommodation for tourists, hundreds of families would visit St. Andrews during summer. We will endeavor to set forth these advantages, and at same time urge our townsmen to unite in erecting a commodious summer residence for visitors. Land, timber and workmen can be had.

THE NEW DOMINION MONTHLY for September has been received from the publishers, John Dougall & Son, Montreal. This number closes the first year of this enterprise, and its second volume, we are pleased to learn with a success, which will warrant its enterprising publishers in making still further improvements. Its present circulation is 7,500 monthly. There are fourteen original articles in this number, besides editorial and correspondence. The low price for subscription \$1 per annum should secure at least ten thousand subscribers.

Gen. Butler, of New Orleans notoriety with some officials, have been visiting Prince Edward Island, with a view it is reported of obtaining a right to the fishing grounds, and to adopt a Reciprocity Treaty with the Island. It is probable he will find that the Dominion or Imperial Government must first be consulted, before any arrangement is entered into. We may be in error, but this looks like a side wind blow at Confederation.

The "Order of Precedence" regulations are becoming more and more distasteful to the people of the Maritime Provinces; indeed they are looked upon with disgust. We have no State Church in the Dominion, nor is there any desire for one, the bare idea of such is grating to all classes. The only precedence that will be tolerated is of integrity, talent, and honest worth.

Mr. Russell, Agent for the Branch Bill Society's appointments will be as follows: St. Stephen and Milltown, Saturday 12th and Monday 14th.

St. Andrews, Tuesday, September 15th.

St. George, Wednesday, " 16th.

Leopards, Thursday, " 17th.

Lancaster, Friday, " 18th.

One of our merchants, T. T. Odell, Esq., returned from England on Saturday last after a pleasant visit to his friends and business acquaintances. Mr. Odell's trip to his native country, has improved his health, and he has resumed business with renewed vigor. He has our thanks for a liberal supply of British and American papers.

Houlton and Woodstock were united by telegraph line last week. Messages of congratulation were passed between the two places on Wednesday last.

The Woodstock branch Railway was opened for traffic on Monday last. The road is leased, it is reported, to Mr. Osburn, Manager of the main line.

The Episcopal Pic Nic will be held at Chumcock to-morrow, Thursday. A Boat race on the Lake, is to take place.

The Officers of the Grand Lodge are to visit the St. George Lodge on Friday evening next.

EASTERN EXTENSION.—On Friday last a locomotive and tender, with a loaded car, went for the first time from the junction to Westchester. The only passengers were, we believe Mr. Ketchum, the contractor of the line, and Mr. Rennie, trackmaster of the E. & N. A. Railway. There was quite a gay time at Westchester in consequence, and the good people of that lively town were much excited over the event, as they well might be.—[Journal.

A Halifax correspondent of the Toronto "Telegraph" having cast doubt in the existence of iron mines in Nova Scotia, the Halifax "Citizen" is constrained to say:—

"Perhaps when the Intercolonial railway is completed the editor of the 'Telegraph' may visit Nova Scotia, and after travelling six hundred miles on rails made of Nova Scotia iron, and inspecting the iron and steel works at the Londonderry mines, he may have his own and his correspondent's doubts on this subject removed."

The despatch to the Toronto Globe of 3rd inst. says:—

"It is said that the Hon. John Rose, will leave for Washington next week on business connected with the negotiation of the Reciprocity Treaty."

"It is said that the delay in the appointment of the Railway Commissioners arises in connection with the appointment of one for Nova Scotia."

"It is reported that a nominee of the Hon. Joseph Howe is to be appointed—one who will not be offensive to the Anti Unionists.—Delisle, of Montreal, is spoken of as Carter's nominee."

"Mr. Sandford Fleming is daily in communication with Minister on railway matters."

ASSENT REFUSED.—An Ottawa telegram says:—"A despatch is received from the Colonial Office dated July 30th, refusing Royal assent to a Bill passed by the Canadian Parliament reducing Governor General's salary."

This is unpleasant news, if true. We trust it is not altogether reliable; otherwise, the Dominion Parliament will be obliged to re-consider its right to fix the salaries which it pays public servants.—[Tel.

One thousand men and three hundred teams are wanted to work on the railroad at Des Moines.

THRILLING INCIDENT AT NIAGARA FALLS.

We learn by a gentleman who came up from Niagara Falls this morning that a startling incident occurred there yesterday afternoon.—A little girl, while sitting upon the railing of the bridge leading from the main land to Goat Island, lost her balance and fell into the rapids. Instantly a young man named Monton, who resides at Auburn, plunged in to rescue the child. Grasping the little one and keeping her above water, both were swept on toward the precipice and destruction seemed inevitable. But Monton, being an expert swimmer, struggled manfully with the rushing torrent and succeeded in reaching the shore, only about fifteen feet from the brink of the cataract. It was a most humane and daring act.—[Buffalo Commercial.

New York, Sept. 7.

Gold firm and steady at 144.

London, Sept. 7.

Murphy of Manchester, the noted publicist of Rome, whose violent speeches had often been attended with rioting, has offered himself as one of the candidates to represent that City in the house of Commons at the coming election.

This makes the sixth candidate for Manchester.

A meeting was held in the interest of Murphy.

It is estimated that there were six thousand persons present. Speeches were made advocating his claims, and denouncing the conduct of the Magistrates towards him in the matter of the Ashton riots in May last.

While the speaking was going on, the meeting was attacked by a mob of Irish Catholics who charged upon the platform and dispersed the speakers. A general fight ensued, and lasted nearly an hour.

The police at last succeeded in quelling the riot and arresting several of the ringleaders. The city was greatly excited.

There are reports of disorder during the night and Monday.

THE TRIPLE MURDER AT BULL RIVER, CANADA.—The following particulars are given of the murder which occurred at Bull River, Canada, on Saturday night last, and which was followed by the destruction of two mills by fire:

"A watchman employed in a mill owned by one Van Allen first discovered the Willett Mill on fire, previous to which he had heard three or four pistol shots. He ran to alarm the people, and while going his mill was set on fire. Each mill, with machinery and stock, was destroyed. Cost, about \$15,000; no insurance. On examining the ruins of the latter (Van Allen) mill, the bodies of Mr. Van Allen (one of the owners), his wife and grand son were found. Mr. Van Allen was 60 years of age and his wife about fifty years; the grandson was 17 years of age. Beside the corpses was found a revolver. The victim had had legal difficulty with one of his partners, and they were making arrangements for a dissolution. They had a fierce dispute on Saturday; the partner (Chisholm), it is said, was trying to wrest the property from the old man. On Saturday, Van Allen had drawn \$500 in silver from his banker, and no traces of this money can be found. It is, therefore, supposed to have been the immediate cause of his murder. Three persons are suspected, and one of them, Capt. Emory Rotash, has been arrested."

New York, Sept. 3.—O'Ballwin and Wormald both English roughs, have arranged for a prize fight within six weeks for a \$1000.00 stake.

Over one hundred Custom House officials have been discharged this week.

A portion of the Chinese visitors have arrived here.

The Haytian galleon Galatea, with a cargo of war material will sail this week for Hayti.

ANOTHER COLONIST GAINING DESTINY.—The many friends of Mr. John Brookfield, Jr., in this city, as well as in Fredericton and St. John, will be much pleased to learn that at the recent examinations in the University of Edinburgh, the Gold Medal of Botany and the second prize in Pathology were awarded him. Mr. B. is the son of John Brookfield, Esq., War Department in Nova Scotia.—[Halifax Colonist.

Stephen H. Phillips, formerly of Salem, and once Attorney General of Massachusetts, now holds the same office in the Sandwich Islands; gets \$10,000 in gold a year—equal to \$15,000 here—and is a member, ex officio, of the Legislature.—[Prairie Farmer.

A section of the tunnel in process of construction under the Chicago river at Washington street ended in last night from the effects of the heavy rain, breaking the water pipe on the temporary railroad bridge on West Water st. An immense derrick and engine went down in the ruins. The loss is estimated by the contractors at \$25,000.

GOVERNMENT HOUSE, OTTAWA, Thursday, 18th August, 1868.

His Excellency the Governor General in Council.

WHEREAS by an Act passed in the 22nd year of Her Majesty's reign, intitled: "An Act to provide against the introduction and spreading of disorders affecting certain animals," authority is given to the Governor in Council to take such measures as may appear to be necessary in order to prevent the introduction of contagious or infectious disorders affecting cattle and other animals, and to check such disorders from spreading; it introduced:

And whereas a contagious disease or epidemic, affecting Horned Cattle, prevails in many parts of the United States of America, and is threatening to extend its ravages; and whereas it is expedient in order to prevent the introduction of the same into the Province of Quebec and Ontario, heretofore constituting the Province of Canada, that the importation of Horned Cattle, from the United States of America, should be prohibited: His Excellency in Council, on the recommendation of the Honorable the Minister of Customs and under the authority given by the said Act, has been pleased to order, and it is hereby ordered that from and after the date hereof, and until this order shall have been altered or revoked, the importation from the United States of America, or introduction thereof into the Province of Quebec and Ontario, heretofore constituting the Province of Canada, or into any part thereof, of Horned Cattle be and the same is hereby prohibited.
