ASSISTING CHEESE MAKERS.

Important Announcement by Prof. Robinson, Dominion Dairy Commissioner.

(Associated Press.) London, Jan. 17.—At a meeting of the Western Ontario Dairy-men's Association here yesterday, Hon. John Gault, special agent of the dairy department of the United States bureau of agriculture, in the course of an address on "American Dairyming," said Canadians were the best dairymen in the world.

Prof. Robertson, Dominion dairy commissioner, called attention to the bright outlook which the dairy industry in this country has. He said that there were more people in Canada today than there were in the whole of the United States at the beginning of last century, and now, though the United States had 70,000,000 of people, as a market for dairy products, Canada today had a far better chance for development than the United States had then.

The commissioner stated that he was authorized by Hon. Sydney Fisher to announce that if these makers of the Dominion would arrange curing rooms so that the temperature would not be allowed to rise above 65, he would see that the railway and steamship companies would provide facilities which would keep the cheese in transit at the same temperature, so that that produce could be placed on the British market in the best possible condition.

REBEL LEADER SURRENDERS.

(Associated Press.)

Hilo, Island of Panay, Jan. 17.—Gen. Deleaga, formerly the head of the insurgents in the Island of Panay, has voluntarily surrendered. Since November the insurgents' forces have broken up into small bands. A truce conference between Deleaga and Major Noble, adjutant-general of the department of Visayas, resulted in Deleaga and his staff entering Hilo and surrendering to Gen. Hughes. Deleaga sent word to the remnant of his command, numbering 70 men, that they were to come in and surrender.

The commands of Gen. Pulion, Dionoso and Quintin Sala are holding strong positions in the mountains of Capiz province, Battery G, of the Sixth Light Infantry, with four guns and a considerable force of infantry, are trying to dislodge them and force them to fight an open engagement.

HAZING AT WEST POINT.

(Associated Press.)

Washington, Jan. 16.—A final vote upon the pending army reorganization bill will be taken by the senate at 4 o'clock on Friday, under the terms of an agreement reached late to-day. The features of the debate was the denunciation of the practice of hazing at West Point Military Academy.

Mr. Allen, of Missouri, of Mississippi, and Mr. McCumber declared it to be an evidence of brutality and cowardice, the Mississippi senator maintaining that the cadet whom others attempted to haze would be justified in killing his assailants. He declared that if he were a cadet upon whom such cowardly brutality were attempted, he would kill the man who assaulted him, if he had to wait 100 years for the opportunity.

REVOLT SUPPRESSED.

(Associated Press.)

Washington, Jan. 17.—The only advice over night from Venezuela was a short message from Mr. Loomis indicating that the revolt, which had broken out in the barracks at Caracas, had been suppressed last Monday. The navy department was unable to forward his instructions to commander Sargent last evening, but the message went out early this morning, and by this time the Scorpion gunboat is starting from La Guaira for Guanoaco, a three days' run.

MURDERER EXECUTED.

Morrison Made a Short Speech on the Scaffold.

(Associated Press.) Regina, N. W. T., Jan. 17.—Morrison, the Moosehide murderer, was executed this morning. The drop fell at 8:05. Only the jail officers, members of the press and a few others were admitted to witness the hanging.

The condemned man walked firmly to the scaffold, and although he spent a sleepless night and refused breakfast and also a stimulant, which was offered, he maintained the quiet unconcerned demeanor which has characterized him since his confinement in the jail. He made no confession on the scaffold, although it is stated he has left a written one. He made a short speech before the drop fell, saying he was sorry for his past sinful life and hoped his end would be a warning to others.

Mining News

Rossland Camp. The Rossland Miner in its weekly mining review says: The great news of the week is that the Le Roy Mining Company has determined to sink beyond the 600-foot level at 600 feet instead of one lift, which was at first contemplated. The contract for this is about to be let, and the contractors will begin upon the work at an early date, probably this week. The continuation of the shaft is for the whole of the five compartments and will include the timbering down to the 1,500-foot level. This will form the staple of the development work for the year, and it is expected that the sinking to this depth will about occupy the whole of the remainder of the year. In the meantime the development above will far more than suffice to keep the mine going, even at the contemplated increased output for that period of time.

With the preparation of the machinery and the extension of the Northport smelter the mine will now be in a position to do some good work.

It is unfortunate, but none the less true, that the recent disorganization on the Spokane Falls and Northern line has stopped the completion of the smelter. The prospects have precluded the bringing in of the machinery ordered and dated to arrive some time since, necessary for the completion of the power plant and furnace. The smelter is hardly any further advanced than it was at Christmas, and the delay will postpone the inauguration of the increased shipments for several weeks after the anticipated date which was set for the latter end of this month.

Appended is a list of the shipments of the past week and for the year to date:

Table with columns: Week, Year, Tons. Rows include Le Roy, Centre Star, War Eagle, Iron Mask, Le Roy No. 2, Spitzee, and Total.

Le Roy—Below, a contract is about to be let to continue the shaft to the 1,500-foot level. There is to be placed on the foot level two engines which will do the sinking, the big skip not descending below this level. All five of the compartments will be cut out at once, and Nos. 2 and 4 bulkheaded so that the sinkers will be able to work in safety.

Le Roy No. 2.—The contract for the sinking of the No. 1 shaft to the 800-foot level from the 600 has been let, and the men will proceed to work this week. A delay in receiving the necessary timbering has prevented the contract on the Josie for a similar sinking being filed, but it is expected that this cause will be removed during the week and that the contractors will then be able to start work from the 500-foot level of the Le Roy the crossing running in under the Poorman vein has been continued, and good progress is being made. An upraise is being made on the Annie vein which dips into the Josie vein, and afterwards a public address to the Irish Catholic electors of Ontario at the general election in 1882. Sir Frank was called to the Senate, 1871, sworn of the Privy Council, July 28th, 1882, and called to the cabinet of Sir John Macdonald, without portfolio. He continued a member of the various Canadian administrations without portfolio, until the party went out of power in July, 1896, except that he took charge of the department of Public Works from August, 1891 to January, 1892, pending the appointment of a minister. He was made a Knight Bachelor on May 24th, 1894. He was consulted by Lord Aberdeen as to a successor in the Premiership, December, 1894, and recommended His Excellency to call on Sir Mackenzie Bowell.

Death Sentence Commuted. An order-in-council has been passed commutating the death sentence passed on James Slorah, of Dawson City, who was to be hanged on March 1st, to imprisonment for life. Slorah, who was a bartender, shot and killed his wife, Pearl Mitchell, who was a solicitor for drinks at one of the resorts in Dawson City. They had some trouble between them before Slorah fired a couple of shots at the head of his wife, and therefore it was not premeditated murder.

THE FULL COURT. In the full court this morning the hearing of the appeal in the case of Bird v. Veith was completed. Judgment was reserved.

The case of Bullock v. Collins was then taken up. This appeal possesses peculiar local interest, from the fact that the parties are well known in the city. It is an appeal from Drake, J., ordering that the defendant, Collins, be imprisoned for fraud under the Arrests and Imprisonment Act. The action was one for account, and the plaintiff recovered judgment and examined defendant as a judgment debtor under the rules of court, and the above order for imprisonment was made. Mr. Justice Drake held that defendant was not entitled to counsel on examination as a judgment debtor, and at the close of the examination Mr. Bernard, the plaintiff, appealed for an order for imprisonment, which was made. Whether or not the court would have allowed defendant to be represented by counsel on the subsequent appeal was not clear, and the judges were to ascertain the law from Mr. Justice Drake's decision. P. B. Gregory appeared for Collins, and A. K. McPhillips for Bullock.
