

THE BETTER FARMING SPECIAL AT WELSFORD

Arrived Yesterday and was Visited by Large Number of Interested Farmers Despite Rain.

Special to The Standard. Welsford, August 4.—The Better Farming Special arrived here today, and in spite of the heavy rain a large number of farmers from Welsford and the surrounding districts visited the train, some driving in sixteen miles or more.

After inspecting the exhibits on the train the farmers went to Victoria Hall, where the women's institute of Welsford served luncheon, and made the gathering feel at home.

Rev. J. S. Greig officiated as chairman of the meeting, and at the conclusion of the lectures H. W. Woods, M. L. A., moved a vote of thanks to the speakers for their interesting and instructive talks and to the C. P. R. for sending out the Farming Special.

God Save the King was then sung and the farmers, after an interesting and profitable day, departed to their homes. The Farming Special goes to Hoyt today.

EMBROIDERY ALL THE RAGE IN NERO'S TIME.

Ladies Who Delight in Dress and Home Decoration Should Read This.

Today anything which looks like real embroidery is snapped up quickly, if a dealer, with the purpose to sell again, if a wearer to triumph over her less alert sisters. As a matter of fact, embroidery has played a most important part in the history of the social world, from king to peasant, and the belle of the fashionable element of society from Nero's time to the present day have loved embroidery in all its phases to enhance their personal charms.

At all times embroidery has been classed in the luxurious and expensive class, but "The Standard" has identified itself with a proposition that will bring it to the humblest door as well as to the mansion at a cost representing about one-sixteenth what has been the regular rate. In addition to this a free booklet of instructions and also a hoop on which to operate will be supplied, by which assistance any school girl can produce results that will defy the best work of a life-long expert.

Watch "The Standard" for future announcements and particulars concerning this great special offer.

IOWA EDITOR SAW HORRORS OF BALKAN WAR

MR. LAFAYETTE YOUNG.

Mr. Lafayette Young, editor and publisher of the Des Moines Capital, is resting in London after his stirring experience in Serbia during the height of the warfare among the allies.

Mr. Young saw proof that Bulgars mutilated the wounded.

"I saw fifty thousand wounded men," said Mr. Young. "They were wounded by bayonets, bullets and shrapnel, saw trains of box cars filled with abandoned men going to the front and passing trains loaded with wounded coming from the front."

"I saw men with their eyes shot out and their cheekbones gone and yet alive."

"The Bulgarians, with a hatred born of ages, had mutilated the wounded. I saw proof of this myself at Nish."

CROSS AND RIVERS MATCHED

Los Angeles, Aug. 4.—Lesh Cross and Joe Rivers were matched late today for a 20-round bout on Labor Day at the Vernon Arena. It is a part of the present plan to have the winner of the Cross-Rivers match meet Willie Ritchie on Thanksgiving Day, provided the champion retains his title on Labor Day.

STILL TALKING TARIFF.

Washington, August 4.—Democrats and Republicans of the senate focused today over prosperity and the business outlook, discussed the wooden schedule of the tariff bill at length, and made some progress on the metal schedule.

C. P. R. LAYS OFF MEN.

Winnipeg, Aug. 4.—Dividing "the tightness of money" as the reason the C. P. R. mechanical department tonight "laid off" 250 skilled artisans, including machinists, boiler-makers, blacksmiths, helpers, moulders and car workers.

SUFFRAGETTE AT WORK.

London, August 5.—The residence of the late Sir George Newnes, at Lynton, North Devonshire, was destroyed by fire early this morning. The police believe the fire was set by suffragettes.

EXPECT PEACE ON FRIDAY.

Bucharest, Aug. 4.—M. Majoresco, the Roumanian premier and permanent president of the peace conference in proposing a three days' extension of the armistice, said that no further prolongation would be asked, and that therefore the labors of the conference must be completed Friday.

BATTLE EXPECTED AT WU-SUNG FORTS.

Shanghai, August 4.—Shots were exchanged today between the government cruisers and the Wu-Sung forts, held by the rebels, but without result. The negotiations for the surrender of the forts have proved futile and a stiff fight is probable there when Admiral Tseui has cleared the Shanghai district of rebels.

KILLED BY THRESHER.

Wolland, Ont., August 4.—John Merritt, a farmer, while trying to stop a team of horses in his field from running away, was tossed under the knife of a thresher and one leg so badly cut that it had to be amputated. He died at the hospital this morning.

ADVANCE IN PRICE OF SUGAR.

Refined sugar has taken another advance in price. All kinds of refined sugar went up yesterday 10 cents per 100 pounds all over New Brunswick and Nova Scotia. The rise is due to another advance in the price of raw sugar in New York. Since July 28th the New York quotation on the raw sugar has advanced 15 cents per hundred pounds.

ANOTHER MEDICAL DISCOVERY.

St. Louis, Mo., Aug. 4.—A discovery of great importance, promising to rob bilchloride of mercury of its terror, has been made in St. Louis, following recent suicides and accidental deaths due to this poison and the almost hopeless helplessness of physicians.

DIED.

DOWLING.—Died suddenly on July 30, Elizabeth J. Dowling, daughter of the late John and Margaret Dowling. Funeral on Tuesday, August 5th, at 3.30 from the residence of Joseph I. Noble, 202 Duke street. Coaches taken at the door.

THE PINK LADY

There never was a musical comedy production brought forth with the care and attention to detail that was lavished upon "The Pink Lady," and its sensational success, both abroad and in America, is the best proof that this watchfulness pays. After months of unusually careful preparation "The Pink Lady" was submitted to public approval. It leaped into instant fame and for over a year ran along at the New Amsterdam Theatre, New York, without a sign of slackening interest in the big production.

Ordinarily a piece of such popular appeal is allowed to drift along on its merits, but not so with John C. Fisher's production. Every Monday morning at 10 o'clock Mr. Fisher was on the stage in active charge, and a full rehearsal was held. In this way the performance was kept right up to its early standard and those who saw the performance of "The Pink Lady" in London, even after its phenomenal run of a year here, witnessed just as painstaking and careful a presentation of this big hit as was given in America. Opera House, week of Aug. 11.

ONE OF THE OUTSTANDING FEATURES OF THE SHOW AS EVIDENCED IN THE CITY YESTERDAY, WAS THE ORDERLY MANNER IN WHICH THE CIRCUS WAS CONDUCTED.

Everything moved along smoothly and the crowd that gathered in the city were signs of disorder on the grounds, and no interference on the part of the showmen was necessary. The rough element, usually characteristic of the circus, was conspicuously absent, and the peace and order, including the side shows, was of a most commendable nature. Speaking with a reporter yesterday a city official said that he had been attending circuses in the city for some thirty odd years, and never had he seen such a clean and well managed one. This goes a long way towards giving satisfaction to the public.

Additional interest was given the circus by the menagerie, which consisted of a well-stocked collection of animals, many having been newly added to the show. The most special interest to the spectators, lions, leopards, tigers, elephants, camels, hyenas and many other animals foreign to America, was a complete and valuable collection.

The feature in the performance in the big tent calling for special applause was the acrobatic work, which was clever and, in many instances, spectacular. The juggling, wire walking, trick horseback riding and the various other maneuvers of the headliners were particularly good, and the thousands of spectators were liberal in their applause.

Another feature of the show which proved of unusual interest was the circus by the menagerie, which consisted of a well-stocked collection of animals, many having been newly added to the show. The most special interest to the spectators, lions, leopards, tigers, elephants, camels, hyenas and many other animals foreign to America, was a complete and valuable collection.
