

FARMERS make MONEY

Professor James W. Robertson, Commissioner of Agriculture and Dairying for Canada, in his report to the House of Commons for Canada, after going to England and investigating, and sending sample shipments, endorses the great object of this Company.

THE CANADIAN DRESSED POULTRY COMPANY, Limited

(TO BE INCORPORATED)

CAPITAL STOCK

\$450,000

HEAD OFFICE—HAMILTON, ONTARIO.

PRESIDENT—MR. GIBSON ARNOLDI, Barrister-at-law, Toronto, Ontario.

MANAGER—MR. WILLIAM S. GILMORE, Merchant, Hamilton, Ontario.

OBJECT OF THE COMPANY.

THIS COMPANY is formed to advance Canadian trade with England in dressed poultry, ducks, turkeys and geese, dressed meats and other farm produce that the Company may deem it advisable to deal in. This is the GREAT OBJECT OF THE COMPANY. IT WILL BE NO MONOPOLY AND IT CANNOT BE MADE ONE; ITS SUCCESS MEANS THE FARMER'S SUCCESS. The farmer who wants to make money must first become a shareholder in this Company, which is the only company of its kind, and by so doing show that he means business, and his money being invested, his interests and the interests of the Company are the same, and then to earn a good reputation for himself as a first class raiser of poultry, turkeys, ducks and geese for the Company. This Company will buy ONLY FROM ITS OWN SHAREHOLDERS; therefore with care and attention every farmer and every farmer's wife and every man, woman and child of ordinary intelligence in Canada who has fifty dollars can buy ten shares and become a shareholder, and by beginning in a small way and saving his profits make himself wealthy, like Mr. Taylor has done. Who Mr. Taylor is is explained in the following extracts from a story told by Professor Robertson, the well-known Commissioner of Agriculture and Dairying for Canada, to the standing committee of the House of Commons in 1901.

Well-to-do farmers fatten chickens. I learn that there is money in the business. I had got the name of Mr. Samuel Taylor from one of the leading poultry dealers in London. When I got to his place I found Mr. Taylor was a successful farmer. He had begun life as a farm laborer without capital. When I visited him he had a fine farm-stead and was doing a prosperous business. I would not like to say how much money the chicken-fattening business brought him in, but I would not be surprised to learn that his annual net balance was over a thousand pounds (five thousand dollars a year). This man had begun life as a farm laborer and by sticking to this business had made money out of it.

THE PROMOTERS ARE NOW ARRANGING TO ESTABLISH not less than twelve receiving and shipping stations in Canada, to be fitted with plants necessary to make the exported article as perfect as possible. The number of stations in each Province will be as nearly equal as possible, having regard for the size of the Province and the number of shareholders in each. The operations of the Company to be confined for the present to Ontario, Quebec, New Brunswick Nova Scotia and Prince Edward Island.

THE BUYERS OF THIS COMPANY will commence operations, it is expected, on or about the first of June, 1901, when they will call on the shareholders and arrange with them as to the continuous supply—that is, the number each shareholder will raise and undertake to deliver each month to the nearest receiving station of the Company. It is therefore necessary that all intending shareholders who wish to raise poultry for the Company send in their subscriptions for stock at once, as the Company will only buy from its shareholders and the lists will be closed.

THIS IS A GRAND CHANCE TO MAKE MONEY for either farmers or their wives and those who either cannot afford to keep up a large farm or who, through some infirmity or poor health, are not able to attend to the heavy duties of heavy farming.

PRICES TO BE PAID.—This Company will pay the very highest prices to its shareholders, so as to encourage the raising of first-class poultry, and, as it will year in and year out be selling at the high prices to be obtained in England, it can afford to pay more than the best prices now paid for birds new sold on the Canadian market.

GREAT PRICES IN ENGLAND.—Chickens shipped to Liverpool, England, met with a ready sale at eightpence (sixteen cents) per pound. As they weighed eleven pounds per pair, they sold for one dollar and seventy-six cents per pair. JUST THINK FOR ONE MOMENT—one dollar and seventy-six cents for a pair of chickens in England, and yet it is only a fair market price there, and the profits are equally as good, if not better on turkeys, ducks and geese. The consignor wrote as follows about the shipment: "I was agreeably surprised at the all-round excellence of your small experimental shipment of Canadian capons (chickens). On opening the cases the birds were found to be in beautiful condition, and presented a most saleable appearance. After the birds were uncased I hung one out to find how long it would retain its bright appearance, and found that it became milky white as soon as it had dried out of the chilled state; to-day five days later, it is as nice looking as a fresh killed bird. I think the price obtained will both please and pay you. It is a fair market price."

Three Firms Alone Intimated Their Ability and Willingness to Handle About Two Thousand Cases Per Week at Good Prices

RAISING POULTRY PAYS.—It pays better to fatten them, and it pays best to ship them to England. The shipment sent to Liverpool, England, above described brought one dollar and seventy-six cents per pair; the farmer sold them to the shipper for fifty-four cents per pair, which is above the average price, as often he does not get more than thirty cents per pair; can anything be clearer than that the farmer is failing to make enormous profits? By becoming a shareholder you will commence putting the money in your own pocket.

SUCCESS.—This Company is a natural outgrowth of the great and wonderful cold storage system. Before "cold storage" became known it would have been an impossibility to carry on this great business, but now the great success of cold or chilled storage is the maker of this enormous business, which will prove a money-maker for its shareholders. Space will not permit giving a description of the great arrangements to be made, or the many receiving and shipping stations, abattoirs, cold storage plants, offices and agencies this Company will establish in the different Provinces of Canada and in England, or of the numerous employees it will engage to do the buying, killing, plucking, packing and shipping; the instructions the Company will engage will give to the working shareholders such directions and assistance as they may desire.

THE HEAD OFFICE WILL BE AT HAMILTON, ONTARIO, and from there MR. WILLIAM S. GILMORE, THE EXPERIENCED MANAGER, will direct its affairs. Mr. Gilmore is already well known to many Canadians, but for those who do not know him and who would naturally like to know something of the man who is to direct the affairs of the Company in which they intend to invest their money the following extract from a letter written by the celebrated firm F. W. EAKMAN CO., LIMITED, the greatest pork packers and provision merchants, and probably the oldest established firm of its kind in Canada, to the proposed bank of this Company, will be of interest:

GENTLEMEN.—At the request of Mr. W. S. Gilmore I write to advise you that we have known him for years, and have had during that time continuous dealings with him as one of our customers. He is a practical provision dealer and butcher of many years' experience. He is about fifty-five years of age, but active and progressive, and as a judge of poultry, live or dressed, he is certainly the equal of the best in Hamilton. As to his personal character, respectability and integrity, we believe he is fully to be relied on for anything he will undertake.

SPECIAL NOTICE

Every shareholder in this Company is not obliged to raise poultry simply because he is a shareholder, and everybody can buy stock in the Company, and the net profits or dividends will be divided between all shareholders alike. Everybody with any money should buy shares, and it is safe to say they will get large dividends for their money.

EXCLUSIVE PRIVILEGE.—The Company extend an exclusive privilege to those who hold ten shares or more of the Company's stock to raise poultry, turkeys, ducks, geese, etc., for the Company to supply the great demand, and to this class of shareholders the Company will pay the very highest prices for their

birds. They will be given the great advantage of careful instruction, free of charge, in the art of raising and fattening poultry, as well as receiving their share of all the profits of the Company, and, as the promoters wish to make this a Company by the farmers and for the farmers, all the servants and employees of the Company will be chosen from among the shareholders and their families.

The stock in this Company is selling rapidly and as the present indications are that the stock will be subscribed for many times over, those who wish shares will have to apply for them within the next thirty days, as the Company will then commence operations. This Company will be active and progressive, and the farmer who puts off doing till to-morrow is not wanted.

THE CAPITAL STOCK of this Company is divided into shares worth five dollars each, and of this only a limited number of shares are offered for public subscription, but no subscription will be accepted for less than ten shares (\$50). If you wish to become a shareholder lose no time, but send in your subscription at once, as the stock will be allotted in the order in which the applications are received, and no stock will be held open for anyone. Fill out the APPLICATION FORM given below, be careful to state how many shares you want and the amount of money you enclose, sign your name to it and then fill in your address and send it by registered letter to Mr. Gibson Arnoldi, the President of the Company, 9 Toronto Street, Toronto, Ontario, accompanied by a marked cheque, postoffice order or express order for the full amount of your subscription, payable to the order of Mr. Gibson Arnoldi, President of the Company.

The promoters reserve the right to change the name of the Company if the Government requests them to do so as a condition to the granting of Letters Patent under the Great Seal incorporating the proposed Company, and also at the same time to ask incorporation with any other amount of capital stock than named in their discretion.

APPLICATION FOR SHARES

GIBSON ARNOLDI, ESQ., PRESIDENT, THE CANADIAN DRESSED POULTRY COMPANY, LIMITED, 9 TORONTO STREET, TORONTO:

DEAR SIR,—I enclose you herewith \$..... in full payment for..... shares of fully paid and non-assessable stock in the Canadian Dressed Poultry Company, Limited, which I wish allotted to me, as I wish to become a fully qualified shareholder and entitled to all the advantages of the Company, as described in the published Prospectus.

YOUR NAME..... ADDRESS.....

The Windsor Tribune says:—The Falmouth Agricultural Society is evidently in a prosperous condition, as evidenced by the recent purchase of three pure-bred Short-horn sires. Two of these were bought from Kings County, one being a home bred animal from the prize winning herd of Frank Dickie, and the other recently imported from Ontario by C. C. H. Eaton.

DR. A. W. CHASE'S 25c CATARRH CURE... 25c. It is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the sin passages, cures droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

J. F. Moore of New York, secretary of the Y. M. C. Railway Association, with others, waited on Hon. A. G. Blair, and asked to be allowed to go over the Intercolonial with the views of organizing on the road for the benefit of the employees a branch of the Railroad Y. M. C. A. which exists on the United States railways. It also exists to a small extent on the Grand Trunk in Canada. What they want is to have at some points on the Intercolonial, reading rooms, with gymnasiums and baths for the use of the employees. In the meantime they ask the minister to be permitted to go over the road to see exactly what they would want, and to make a report for the consideration of the minister. Mr. Blair gave them permission to do this.

Drugging will not Cure Catarrh Doctors say so. Victim of snuff Ointment and tablets tell the same story. Catarrh is a germ disease. The germs excite diseases in the lungs, throat, nasal passage and bronchial tubes. Germs are hard to get at, but destroy them and you cure the disease. How can it be done? By carrying powerful medication with the air you breathe direct to the diseased parts. You must be sure, also, that the medications will kill the disease germs. Catarrh is guaranteed to be this that's why it has created such a sensation in the medical world. You simply breathe Catarrh; it destroys the germs—it heals—in a word to cure. Now you know everything about Catarrh, except what you can learn by using it. Catarrh never disappoints and is guaranteed to cure Catarrh. Price \$1.00; Small size 25 cents, at druggists or Poison & Co. Kingston, Ont.

Sydney, C. B., Island Reporter: In Mr. Wade Annapolis has a representative of whom it may well feel proud. His speech yesterday on the budget was one of the best efforts of the reason. His warm defence of the preferential tariff brought forth hearty applause in the House which will undoubtedly be echoed throughout the country. Mr. Wade struck a responsive chord when he said that Canada in giving a preference to Britain in her markets was only repaying in part the generous treatment that this Dominion had experienced at the hands of the Mother Country. Very timely also was Mr. Wade's reference to the question of subsidies to railways and other enterprises in the Maritime Provinces, pointing out with much truth that the opposition to these grants came from a province and from men representing interests that had been benefited by the bounty of the Dominion government.

A Big Quarter's Worth is always found in a bottle of Poison's Nervine, the best household liniment known. It cures rheumatism, neuralgia, toothache, headache, sick-stomach, in fact is good for everything a liniment ought to be good for. Mothers find it the safest thing to rub on their children for sore throat, cold on the chest, sprains, and bruises. Never be without Poison's Nervine. It will cure the pains and aches of entire family and relieve a vast amount of suffering ever year.

The British government has protested against China's making a convention with any power touching territorial or financial affairs until the present troubles in that country are concluded.

Putnam's Corn Extractor Doesn't lay a man up for a week but quietly and surely goes on doing its work, and nothing is known of the operation till the corn is shelled. Plenty of substitutes do this. Some of them are dangerous, no danger from Putnam's to the corn. At all druggists.

And now we are told that the inhabitants of Mars haven't sufficient intelligence to signal to anybody, anyway. After which piece of information nobody would object to giving planet and its inhabitants a temporary rest.

WANTED.—Capable, reliable person in every county to represent large company of solid financial reputation; \$950 salary per year, payable weekly; \$3 per day absolutely sure and all expenses; straight, bona-fide, definite salary, no commission; salary paid each Saturday and expense money advanced each week. STANDARD HOUSE, 334 DEARBORN ST., CHICAGO.

"Stuck on his Fence" If you use Page Fence you will like it, but will not be stuck like the gentleman in the picture. The Page Fence is woven in our own factory, from coiled wire made by ourselves, and is as strong as that used in other fences. Get this year's prices, they are lower than last year. The PAGE WIRE FENCE CO. (LTD.) WALKERVILLE, ONT.

People who are inclined to think that \$3 a day's overpay for the census enumerators ought to pause and think of the risk these men run. Why a many other things, they have to ask every woman in the district her true age.

Gentlemen.—While driving down a very steep hill last August my horse stumbled and fell, cutting himself fearfully about the head and body. I used MINARD'S LINIMENT freely on him and in a few days he was as well as ever. J. D. A. BEAUCHEMIN. Sherbrook.

Pills.
