Eddie Phillips and Lou Marsh will handle the Toronto-Quebec game to-night in Toronto at the Arena.

Angus Duford, the Ottawa amateur, may jump to the pro ranks. He has received offers from several Maritime League teams.

Ottawa pros are now complaining of the system of fines in the N.H.A. and will ask for a return to the old style of penalizing a player.

Preston, last year's intermediate O. H. A. senior champions, make their debut in senior company to-night when they line up against Stratford on the latter's ice.

Tecumseh, Toronto, left last night for a three game trip. To-night they play at Ottawa, on Saturday they will meet Canadiens at Montreal, and next Wednesday play at Quebec.

New Glasgow placed themselves in the lead in the Maritime Hockey League by defeating the Crescents of Halifax by a score of 7 to 4 at Halifax last night. Nearly four thousand people witnessed the game.

Boston Journal—It must have been a hard blow to Canadians in this city who remained away from the Boston A.A. Toronto game, believing that another of their teams was bound to be beaten, only to pick up the paper the next day and learn that the Union seven was soundly whipped.

The speedy Quebec team which beat Tecumseh on Saturday night, will meet Toronto at the Arena to-night. The Blue Shirts will have to hurry if they expect to step up with the Ancient Capital speed merchants. The game will be called at 8.15. The Indians have gone to Ottawa for a game to-night.

According to Billy Kean of Winnipeg, an all-star hockey team consisting of players picked from the Monarchs, Winnipeg and Victoria will leave Winnipeg about Feb. 15 on a tour of the principal cities of the United States and will go as far as New York. On returning it will play the final game in Toronto.

Wanderers are hot foot after Davidson, Cameron, Wilson and McLean of the Torontos. The good showing of these boys created quite a stir in the eastern hockey centres.

BASEBALL

Guelph Wants \$1,400 Salary Limit.
GUELPH, Jan. 21—President W. A. Mahoney of the Guelph Maple Leafs had a lengthy talk with President Fitzgerald of the Canadian League, impressing upon the President the fact that the Canadian League could not get along on a salary limit of \$1,400 without every magnate trying to get around the said limit. President Fitzgerald urged that President Mahoney take a mail vote of the magnates, asking them if they favored raising the salary limit to \$1,400 per month, exclusive of a manager. This President Fitzgerald consented to do.

President Mahoney has heard from Louie Cook, who states that he is after a fast shortstop from Boston, highly recommended by Jack Dunn of the Baltimore Club.

The Real Liver Pill—A torpid liver means disordered system, mental depression, lassitude and in the end, if care is not taken, a chronic state of debility. The very best medicine to arouse the liver to healthy action is Parmelee's Vegetable Pills. They are compounded of purely vegetable substances of careful selection and no other pills have their fine qualities. They do not gripe or pain and they are agreeable to the most sensitive stomach.

MEREDITH AS A CHILD.

When Only Two Years of Age He Had an Air of Superiority.

As is generally the case with an only child, brought up entirely in the society of his elders, George Meredith developed early and always had something of contempt for juveniles of his own age. He was a reserved and acutely sensitive boy, afraid of ghosts and being left alone in the dark, and was perhaps a trifle spoiled by his mother, a refined woman, whose love and care he lost before he reached his sixth birthday. There is still living a gentleman who well remembers George Meredith at the age of two years. This was about 1830-1, and Mr. James Price relates of his visit:

"I went up to the large front drawing room, where I found the boy and a lady who must have been his mother. The boy did not seem to care much about playing with me, and I was rather shy. He brought me his toys and picture books to see, and I was mightily pleased. I remember, with a horse and cart, like the many children ones that I had seen, a beautiful, lifelike white horse, and the cart of superior make, and as George drew it along it made music as the wheels went round. What I remember of the child's appearance is somewhat hazy—a boy in white frock and blue ribbons tied up his sleeves, but he was certainly a pretty child. I spent the afternoon with him, but we did not get on much together, as he assumed a sort of superiority."—Fortnightly Review.

MAKING WATCHES.

Wonderful Feats That Are Performed by Modern Machinery.

The rapidity with which watches are nowadays manufactured has been made possible by the ingenious machinery designed within recent years for the making of all parts of a watch. The speed with which these marvellous Great sheets of brass and steel are cut and rolled into ribbons and punched out into wheels at the rate of 10,000 a day from each punching machine. Workers drill the thirty-one holes in the roof of the watch as fast as they can count.

Brass wire slides into a machine that measures off the length of a part, turns it, puts a screw thread on each end and actually screws it in at the rate of 2,000 a day.

The screws are of such tiny size that fifty gross of them may be in a woman's thumb, while of others there are a thousand gross to the pound.

Balances are cut from the solid steel, ground down, worked up and drilled with their twenty-five screw holes apiece at the rate of 100 wheels a day from each machine.

Wheels have their teeth cut, a couple of dozen at a time, some with from sixty to eighty teeth, at the rate of 1,200 wheels a day from each machine.

The Physique.
This is an English invention for making pictures by impression of leaves, ferns, lace, feathers and various other objects. It depends upon the chemical action of a fine powder. The object of which a representation is to be made is placed upon white paper and pressed, either by the hand or by other means. When the object is removed no impression is visible on the paper, but upon sprinkling the powder over the paper the picture at once appears, sharply defined, and remains permanent.

Sections of wood and designs of coins and medals can thus be represented, and the prints can be transferred to lithographic stone, zinc or aluminium, thus producing records from which any number of copies can be taken.—Chicago Record-Herald.

Economy and Consolation.

Her discovery in its way was not less than epochal.
"It is so easy to save when you know how!" she exclaimed. "Oh, so easy! Do I wish to save \$25? Very well, I go down town and find something I would like that costs \$25, and then I don't buy it. Nothing could be simpler."

She did not deny, however, that her method involved a sacrifice.

"But if the sacrifice is too painful," she went on to explain, "I go and find something my husband would like that costs \$25 and don't buy that!"—Puck.

"Indeed, I do."
"You must have kissed the wrong girl."
"I know I did."

"No; she married me."—Houston Post.

Sign of Popular Affection.
Weren't you indignant when people you didn't know called you by your first name?"
"No," replied Senator Sorghum, "but I've worried a great deal since they've shown a disposition to stop it."—Washington Star.

Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopoeia and relies on an adaptation of the method of wild animals in curing themselves. . . . N. Y. World.

It was Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as: Golden seal and Oregon grape root, mandrake and queen's root, black cherrybark. These are the chief ingredients in Doctor Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that nature has provided.

J. DONALD MATHERSON of Ossining, N. Y. says: "I suffered for over five years with what the doctors told me was a dilated condition of the stomach, associated with a curricular condition of same, and nervous heart. I had tried enough nux, bismuth, gentian, rhubarb, etc., to float a ship and naturally thought there was no cure for me, but after reading what eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery' I gave it a fair trial. Took the 'Discovery' and also the 'Pleasant Pellets,' and can truthfully say I am feeling better now than I have in years. I cheerfully give permission to print this testimonial, and if any 'Doubting Thomas' writes me I will 'put him wise' to the best all-around medicine in the country to-day."

Sealed tenders addressed to the undersigned, and endorsed "Tender for Public Building, Brantford, Ont.," will be received at this office until 4:00 p.m. on Monday, February 3, 1913, for the work mentioned.

Plans, specifications and form of contract can be seen at the office of Mr. Thomas Hastings, Clerk of Works, Postal Station "F," Yonge St., Toronto, at the Post Office, Brantford, and at this Department.

Persons tendering are notified that tenders will not be considered, unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (top.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to

complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS, Secretary.

SENSATION

Takes Place in a Moment Including the Prominent

(Courier Leased Wire).

MONTREAL, Jan. 23.—Some in their bare feet, all of them in night gowns, a few covered by kimonos and dressing gowns, hastily donned twenty daughters of prominent families, pupils in the select boarding school of the Misses Edgar and Cramp, made up this morning as strange a load as any Montreal authorities have ever carried.

A fire which broke out in the school building on Guy street, drove teachers and pupils out in a hurry shortly before five o'clock. All got away without personal harm, but very few saved anything but the flimsiest clothing.

Two More Accidents

(Courier Leased Wire).

RHEIMS, France, Jan. 23.—The well known French flying man, Chas. Gaulard, was thrown to the ground from a height of 240 feet by the capsizing of his monoplane, while making a flight to-day around the spires of the cathedral here.

He sustained very serious injuries but he will, it is believed, recover, although unconscious when picked up. He obtained his pilot's certificate in November, 1910.

ENTER

Were the Remarks at a of Farmers—The Most Most of

Under Farmer's Institute auspices, Prof. J. B. Reynolds, of the Ontario Agricultural College, delivered an address last evening at the Y. M. C. A. Dr. Creelman had been booked, but was too unwell to attend.

Mr. Reynolds stated that he regarded country life as better for a man, his wife and family, and that at the end of ten years he was more in pocket than the average city man. He declared that the great shortcoming of the average farmer was that he did not proceed on business methods. First rate at a bargain all right, but with no system to show at the end of the year just what he was at and what leaks needed to be stopped.

Any business man failing to keep close tab in such a regard would speedily go to the wall. Why then shouldn't the farmer be equally alert to his own splendid interests? He believed that the introduction of such methods would not only do much for financial profit but also add a much needed interest to agriculture.

Mrs. John Lloyd-Jones of Burford, ventured the opinion that nine out of ten farmers were only making a bare living and some not even that. "We do not profit by the high prices," she said. "I think it is the middleman who is taking the profits. Farming is the best profession in the world, but I look about me and see women of 30 and 40 looking like 50 and 60, because they work from morning to night, seven days a week. I wish the farmers would combine to eradicate the middleman." (Applause.)

Mr. A. E. Westbrooke spoke well of the Brant Co. representative and
