

GREATEST CONVENIENCE—SMALLEST COST

Aerated Oven

Fresh air enters stove, circulates, heats, enters oven, passes through and makes exit up chimney. That is the *Aerated Oven*, the distinctive feature of

SOUVENIR RANGE

No worry about burning. No leaving of open door. No caution necessary other than a good fire. Food baked in required time always. Better than other ranges. Same price as others, but more economic on account of durability, reliability, coal consumption and convenience. None better, or "just as good!" No other range has the aerated oven. The oven alone makes it better than the whole of any other range. The oven and range combined make it a world better.

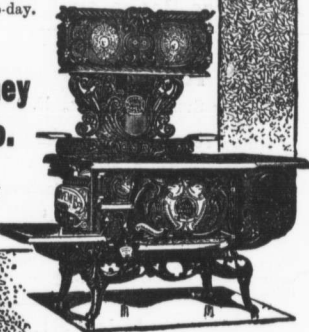

Get a *SOUVENIR* to-day.
They will last forever
