

The Distribution of the Two Millions Five Hundred Thousand Livres in Reconnoissances, and the Five Hundred Thousand Livres in Specie, agreeable to the Proposition, in Consequence of which the same was obtained, will be as follows :

		In Reconnoissances.
ON the Ordonnances and other Papers payable on	}	1,500,000 Livres
the Footing of 25 <i>per Centum</i> ———		
On the same, being a proportional Part of the remaining	}	600,000
Million of Reconnoissances, which is to be divided		
on the Liquidated Capital of the whole Debt,		
which amounts to the computed Sum of five Mil-		
lions ——— ——— ——— ——— ———		
Total		2,100,000 Livres in Reconnoissances.

The 500,000 Livres in Specie, being granted as an Equivalent for the Loss which would arise by receiving the $2\frac{1}{2}$ Millions for the Indemnification in Reconnoissances, it must be proportionably divided in the same Manner as the Reconnoissances, that is to say, if $2\frac{1}{2}$ Millions receive 500,000 Livres, what will 2,100,000 receive? Answer —

To be divided in the Month of November next on the supposed Twelve Millions of Ordonnances, Cards, &c. ——— ——— } 2,520,000 is } 2,520,000

On the Bills of Exchange, and such Certificates as are paid on the Footing of 50 *per Centum*, the remaining Part of the Million of Reconnoissances — — — — — } 400,000

Proportion of the 500,000 in Specie, being $\frac{1}{3}$ th or 20 *per Centum* on 400,000 — — — } 80,000

Total on the Bills of Exchange, &c. — — — 480,000

Amount of Indemnification granted, — — — 3,000,000
