

S U M M A R Y

THE North Shore of Lake Ontario between Toronto and Hamilton is conveniently situated to many of the leading Cities and Towns, in the very Garden of Canada, and enjoys a location that is very difficult to secure. The South winds reach you from the water, and when many others are melting from heat you are enjoying the cool breezes. We know that this district affords a most delightful place for residence, and believe that it presents an opportunity for investment equal to any Real Estate proposition in Canada for suburban home-sites. We selected the most beautiful properties that could be purchased between Burlington and Bronte, and such property as we now offer is difficult to secure, will be more so, and can only be purchased in a very short time, by paying very high prices.

With the coming of Good Roads, the Motor Bus will undoubtedly follow, which will furnish convenient and pleasant transportation.
