RUSSIAN REVOLT GROWS

Moscow Workmen Strike and Old City is Greatly Excited.

Labors in Other Large Cities Prepare to Suspend Work and Swell the Tide of Unrest—Car to Issue Manifesto Giving a First Concession to the Representative Principle—No People Shall Starve Sunday.

St. Petersburg, Jan. 24.—The most startling feature in the situation is the news that several factories in Moscow have closed and that the workmen in the old capital of Russia are repeating the tactics of their fellow workmen of the new capital, marching from shop to shop and from mill to mill, demanding that the establishments be shut down. The whole city is reported to be in a state of great excitement over the news of the bloodshed here Sunday, which has precipitated immediately the strike that had been planned for Wednesday. Moscow has more workmen and less troops than St. Petersburg, and, besides, is just now the heart of the liberal movement, and the danger of bloodier occurrences than has been witnessed here is proportionately greater. A rising at Moscow also is more likely to have greater results industriously and politically than in St. Petersburg.

Other Cities Restless.
According to private reports the workmen in several other big cities, notably Kharkoff, where large locomotive works are located, already have completed plans for a general suspension of work. Moreover, reports are current that the workmen who otherwise would soon be forced back into the shops or starve, have received assistance and assurances of financial support from the sources which have hitherto furnished the sinews of war to the liberal and revolutionary agitation, but have not before been in touch with the labor movement. If the strike becomes general all over Russia, and especially if the railways are involved it might immediately force the nation to make peace with Japan.

The situation appears grave from every standpoint; but the authorities apparently somewhat bewildered, declare their purpose to stand firm, maintaining that it is their first duty to preserve order, scouting the idea of actual revolution. Seemingly the Ministers are mostly concerned over the effect of the present situation abroad, where, they declare, exaggerated reports create false impressions. What, if any, steps have been taken to meet the general situation, however, has not yet been disclosed.

Manifesto To-Day.
There were extremely significant reports last night that Emperor Nicholas, in making the decision at the extraordinary meeting of the Council of the Empire at Tsarskoe Selo yesterday, to declare St. Petersburg in a state of siege, announced that he had resolved to issue a manifesto to the people with a view to calming them and to create a mixed commission of workmen and officials to investigate and decide the questions of the demands of the strikers, especially the one affecting the hours of labor which Russian law fixed at 11. The representatives of the workmen, according to this report, are not to be appointed, but selected by the laboring men themselves. This would be the first concession to the representative principle.

According to reports, the Emperor will also promise to investigate Sunday's events in St. Petersburg.

No People Shall Starve.
Yesterday there was no repetition of the deplorable occurrences of Sunday, with the exception that a single black volunteer was fired to a crowd near the Warsaw Station. Careful investigation shows that no bullets were fired. The military everywhere had a firm grip on the situation, and the police used every precaution, such as forbidding the sale of petroleum and advising persons to remain indoors.
The tension, which was somewhat relaxed in the morning, continued to increase during the day. Conditions appeared to be ominous, when, shortly after dark, the workmen in the electric light plants walked out, refusing triple pay to remain, and plunging into darkness half the city.

ST. PETERSBURG BULLETINS.

Illustrating News of the Russian Horror in Brief Paragraphs.

St. Petersburg, Jan. 24.—The general strike in Moscow is proceeding on exactly the same lines as the St. Petersburg strike.

Gopon Excommunicated.
Antonius, Metropolitan of St. Petersburg, has formally excommunicated Father Gopon on the ground that he was causing the people to rise against the Emperor, the head of the church.

Emperor Prostrated By Grief.
Emperor Nicholas is completely prostrated by grief. He is represented to be almost in a state of collapse over the situation. In the meantime everything awaits his decision. Every window in Grand Duke Sergius' St. Petersburg palace was broken by a mob during the night.

In a State of Siege.
It is rumored that Emperor Nicholas will issue a manifesto to-day declaring that St. Petersburg to be in a state of siege.

Artillery Officers Arrested.
Davidoff, the captain, and Kurzoff, the senior officer of the battery from which the loaded shell was fired on Jan. 19, striking the Imperial pavilion and other buildings have been arrested.

The Greatest Fear.
The greatest fear is that the war supply will be cut off and the city burned. The military authorities are trying to find workmen to start up the electric plants.

ties are trying to find workmen to start up the electric plants.

Certificate of Loyalty.
It is now officially denied that a single regiment refused to obey orders Sunday, and the War Office expresses not the slightest doubt of the loyalty of the troops.

Workmen's Headquarters Closed.
Interior Minister, Sviatopolk-Mirsky at 11 o'clock yesterday morning telegraphed orders to close the headquarters of the workmen's union. This was done.

Official Count of Dead.
The Official Messenger announces that up to 8 o'clock Sunday night the total killed was 78; wounded, 233. But 500 is a liberal estimate of those killed.

Not Revolutionary.
As a rule the Russian working people and leaders of labor unions, composed principally of people from Russia or with Russian sympathies, do not consider the present movement a revolutionary one. They regard it more as a strike.

MOSCOW WORKERS OUT.

1,000 Employees of Bromley Metal Works Strike in Sympathy.

Moscow, Jan. 24.—Employees of the Bromley Metal Works to the number of 1,000 met at 2:30 o'clock yesterday afternoon and declared that they were unable to continue at work because their St. Petersburg comrades had asked them to strike. They immediately left the works formed a procession, marched through the streets and begged their fellow workmen in all industrial establishments to join in the movement. A majority of those who were thus requested to quit work complied. Afterwards the strikers visited the Sytin Printing Works, the largest establishment of the kind in Moscow and belonging to the millionaire publisher, Sytin, and induced the men employed there to strike. The works closed at 5 p.m.

Empire Leaves Tsarskoe Selo.

Paris, Jan. 24.—The Temps published a despatch from St. Petersburg timed 8 o'clock yesterday morning saying Emperor Nicholas has left Tsarskoe Selo for Gatchina or Peterhof.

The Kaiser's Anxiety.
Berlin, Jan. 24.—Emperor William and the members of his entourage sat up late Sunday night receiving press and private telegrams from St. Petersburg.

The Pope Hopes.
Rome, Jan. 24.—The Pope was most distressed at the news contained in the latest despatches communicated to him by Papal Secretary Merry Del Val, and expressed the hope that the internal situation in Russia was not so black as depicted. "Long Live Poland."

Paris, Jan. 24.—A despatch from St. Petersburg gives an account of a public demonstration at Lodz, a manufacturing town in Russian Poland, in which the crowd carried flags and raised cries of "Long Live Poland." Some persons were killed and some wounded.

Accusations Confirmed.
St. Petersburg, Jan. 24.—A report has gained currency that the strikers intend to storm the market on Vasili Ostroff and seize the provisions. At Kolpin, twelve miles up the river, a body of workmen who had started for St. Petersburg to join the strikers were stopped and fired upon by soldiers. According to the number killed or wounded, conflict.

8,000 SAILORS RISE.

Comrades Refuse to Fire on Them or Fire in Air.

London, Jan. 24.—Special despatches from Russia to the London papers to-day again bristle with sensational statements. For instance, the correspondent at Kiel of the Press ascribes that the naval depots at Sevastopol have been destroyed by a revolutionary outbreak of the sailors of the Black Sea fleet, whose lives have been rendered unbearable by overwork and robbery by corrupt officials and give circumstances details of 8,000 of these men rising and attacking their officers and firing and destroying the buildings, while the troops that, according to the story, summoned to quell the revolt, refused to fire at all or fired in the air. Other despatches report soldiers killed by bomb throwing. None of which can be confirmed in any responsible quarter.

There is much curiosity as to the intentions of the Imperial family. There are rumors that they are going to the Crimea, Copenhagen, or some other place till the storm has blown over. According to The Daily Telegraph's correspondent Emperor Nicholas yesterday went to Catchesna.

Priglas For Change.

The Daily Telegraph's St. Petersburg correspondent reports that as the outcome of meetings of the Reform party of Gorky, Annensky, Arsenieff and others, and their adherents have been constituted who regard themselves as the future Provisional Government of Russia. As yet, the correspondent says, they are political ciphers; but they hope some sudden stroke of luck will enable them to overthrow the existing regime, at the same time they recognize the fact that non-success may lead them to Siberia or the tomb.

Refugees As Chances.

The Foo, Jan. 24.—Thirteen junks, containing 500 men, women and children, after a passage of sixty hours from Port Arthur, arrived here yesterday. The passengers were immediately sent on board the British steamer Muenchen, chartered by the Russian Government to take them home.

Tribune Scorching.

Winnipeg, Jan. 24.—Fire slightly damaged The Tribune building last evening. The fire started in the room. The loss is about \$2,000.

YOU CAN INTEREST HIM

Any Man Over Fifty.

You can interest any man over fifty years of age, no matter how ill he may feel, because, while he may not as yet have any positive organic disease, he no longer feels the buoyancy and vigor of youth; he has the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

He will notice among other things that the stomach of fifty is a very different one from the stomach he possessed at twenty-five. That greatest care must be exercised as to what is eaten, how much, and of it, and even with the best of care there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of fifty, but every man, woman and child of any age, because the whole secret of good health is good blood, strong nerves, is to have stomach which will promptly and thoroughly digest wholesome food, because blood, nerves, brain tissue and every other constituent of the body are entirely dependent upon the food we eat. No, the stomach itself wants help and in no roundabout way, either; it wants direct, unmistakable assistance, such as is given by one of our famous Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because their use gives the stomach a chance to rest and regenerate; one of Stuart's Dyspepsia Tablets contains digestive elements sufficient to digest 3,000 grains of ordinary food such as bread, meat, eggs, etc.

The plan of dieting is simply another name for starvation, and the use of preparing food and new breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason of preparing food and new breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows. As Dr. Bennett says, the only reason of preparing food and new breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows.

DOMINION PARLIAMENT.

Ottawa, Jan. 24.—The House had another sitting in the session yesterday. The proceedings were confined to routine.

Sir Wilfrid Laurier laid on the table of the House an instalment of the Auditor-General's report. This enabled the House to proceed with the estimates of some of the departments.

Mr. McLean of Queen's, P.E.I., was informed that the total expenditure in connection with the Murray Harbor branch of the P.E.I. Railway up to Jan. 1, 1905, was \$1,018,000. The Hillsboro bridge has cost so far \$221,000.

Mr. Pringle was told that 25 extra men were employed on the Cornwall Canal during October, and 21 extra men during November.

Gracious exclaimed Mr. Swellman, the baby has eaten a lot of that dog biscuit!

Never mind, dear, replied Mrs. Swellman, dear little Fido has often eaten the baby's food, so it serves him right.

Courage is a Matter of the Blood.

Without good red blood a man has a weak heart and poor nerves. Anemia means thinness of blood. It is common in men and young women and all those who work indoors, who do not get enough outdoor air and good-bay in their lungs. There are too many white blood corpuscles in such cases, and there is often a peculiar sound in the heart, called a murmur, in cases of anemia. This heart murmur is caused by thinness of the blood passing through the heart. The murmur of anemia disappears when the blood regains its color and richness. It is not heart disease. Sometimes people suffer intense pain over the heart, which is not heart disease, but caused by the stomach. It is the occasion of much anxiety, alarm and suffering, for its victim is dependent upon reflex disturbances from the stomach caused by indigestion. In the same way many bad coughs are dependent upon these reflex disturbances of what is called the pneumogastric nerve. To enrich the blood and increase the red blood corpuscles thereby feeding the nerves on red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery, which promotes digestion and assimilation of food so that the blood gets its proper supply of nourishment from the stomach. Get as near to nature's way as you can. A medicine made entirely of botanical extracts and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains no alcohol or narcotics.

THE CATTLE EMBARGO

Croom, Limerick, Ireland, Council Demands Its Removal.

New Aspect of the Case For Ireland and Canadian Cattle Demonstrated By Michael Davitt—Croom Council, Therefore, Calls Upon Its Parliamentary Representatives to Use Their Utmost Endeavors to Remove Embargo.

London, Jan. 24.—(C.A.P.)—Some-what contrary to the majority of the District Councils of Ireland the Croom (Limerick) Council has unanimously adopted a resolution calling upon their Parliamentary representatives to use their utmost endeavors to remove the cattle embargo, as they "view with grave alarm the high prices paid by tenant farmers for holding under the Land Purchase Act, which prices are ruled by the present artificial closing of the English ports to Canadian and other cattle." This aspect of the case is demonstrated by Michael Davitt in a long letter to the public press. The other side is that removal would utterly ruin the tenant farmers who agreed to purchase under the act.
