

An All-Steel Rake

is the one you should use on your farm. No part of it is affected by the weather if it is necessary for you to leave it exposed.

THE FROST & WOOD "TIGER" RAKE

is a strong and durable machine—one that will stand all kinds of hard usage and work on rough land.

Frost & Wood "Tiger" Rake. Built in 8 ft., 9 ft., 10 ft. and 12 ft. sizes.

The "TIGER" FRAME is very strong and rigid. On all sizes, except the 8 ft., the frame is trussed, giving it additional strength.
The TEETH are bent the proper shape for doing the best work, and are all tempered in oil and tested before leaving the factory.
The AUTOMATIC FOOT-LIFT is the simplest on the market. It acts right in the middle of the Rake where the load is balanced, not at the ends where the load is uneven.
Send now for Illustrated Catalogue "F" and get posted.

FARM LABORERS

Farmers desiring help for the coming season should apply at once to the Government Free Farm Labor Bureau. Write for application form to

Thos. Southworth
Director of Colonization, Toronto.

Consider Your Roofing

It should be weather-proof, durable, and moderate in price. These features are very prominent in our "Safe Lock" Roofing, and, in addition, they are ornamental and fire-proof, but of still greater importance, they protect a building from lightning. There is no other metal shingle on the market as good as the "Safe Lock." They are made of a single sheet of galvanized steel; have no parts to get out of repair, and are so constructed that they interlock each other on all four sides, and are absolutely weather-proof, and should easily last fifty years.
Do not be misled with any of the cheap roofing advertised, but investigate our claims and you will use the "Safe Lock," and have lasting satisfaction. Send size of roof for special estimate and free catalogue, and if you desire samples, will send them by express.
