## Jack Frost's Master McCLARY'S "Sunshine" Furnace

Jack Frost had the time of his life last winter. He warred against all elements and froze them stiff. Lakes and rivers he turned into solids; he also put a razor-like edge on the wind. He even bit into steel rails making them as brittle as burned glass. Outside, Jack reigned supreme, but his chilly majesty was licked to a frazzle inside by "The Understudy of the Sun"—McClary's "Sunshine" Furnace.

Think of the past winter, when the mercury swung timidly below the freezing point—not for a day or a week, but for months at a time. How you shovelled coal, and how you talked about the appetite of that poor old furnace in the cellar. It simply ate up coal, and then fell down when it came to heating the house evenly and comfortably.

McClary's "Sunshine" Furnace makes the most of very little fuel, and distributes a much greater percentage of heat throughout the house than the ordinary furnace.

Ashes cannot bank up between the active fire and the walls of the Fire-pot in the "Sunshine" Furnace. It is an absolute guarantee of balmy June weather in the home, when Jack Frost's icy garments are jingling in the Arctic cold without. That's why the "Sunshine" is called "The Ice King's Master."

The "Sunshine" Furnace is an excellent investment—it will last a lifetime with ordinary care—and return you a handsome interest on the investment every year by the actual saving it effects.

Now, we want you to do us a favor—we want you to call on the McClary agent and ask him to prove every claim we make for the "Sunshine" Furnace—ask him to prove every claim true.

Ask him to show you—The fuel-saving features of the

"Sunshine"—The mechanical reasons which make balmy healthy June weather possible in the home when Jack Frost is in his element without—Why the "Sunshine" saves money which other furnaces burn up, and—Why the largest makers of furnaces in the British Empire so amply and so fearlessly guarantee the "Sunshine"—The understudy of the Sun.

Your decision will please us and pay you. If you don't know the McClary agent, write us at our nearest address.
