The Surest Way To Save Money

Is by the Life Insurance Route—and who don't want to save it, in these times especially? Ninety-seven per cent. of the world's population attain advanced age with nothing to live upon, and the greatest financiers and money-makers admit that life insurance is the most dependable and satisfactory of all investments. They are usually the largest policyholders.

Wouldn't you like to systematically, as you can afford, save for yourself a definite sum to be used in your later years, and at the same time provide absolutely for your family's support in case of death? At a cost of only \$20 a month in round numbers at age 34 or 35 you may provide a sure income of \$50 a month for your dependents at your death, payable for twenty years, or as long as your widow shall live.

For complete information regarding these and other up-to-date forms of policies see one of our trained, well-informed staff of agents, or write our Head Office for particulars by mail.
