

THE LOCAL FIELD

The Latest Happenings in the City

A MAN FROM BUFFALO.

He Tells Something About the Pan-American Exposition.

Mr. A. J. Shulman, city passenger agent of the Canadian Pacific railway in Buffalo, N. Y., is in the city. He came in from Vancouver yesterday and leaves today via the Crow's Nest railway for his home. He is doing missionary work for the Pan American Exposition, which opens at Buffalo on May 1, 1900, and continues until November 1st of the same year. He says it will be the "biggest show on earth" at that time. The exposition, he says, will surpass all former enterprises in its important features. First, in elaborate and beautiful electrical lighting effects, using over 200,000 lamps. Second, in the splendor of its hydraulic and fountain effects, a stately canal over a mile long encircling the buildings and all courts having fountains of great beauty. Third, in exquisite horticultural and floral embellishments, a wall of foliage surrounding the exposition, rare plants and brilliant flowers adorning the grounds. Fourth, in original statuary and plastic ornamentation; there will be more than 125 groups of American sculpture. Fifth, in the richness of its color decorations, all the buildings to be tinted in beautiful and harmonious shades. Sixth, in the magnificence of its court setting, the court area being much larger than at any former exposition, producing vistas of exceptional grandeur. The cost of preparing the exposition, buildings and grounds including the Midway, will be about \$10,000,000. The purpose of the exposition are to celebrate the achievements of the western hemisphere during the past 100 years; to promote trade among Pan-American countries, to present a great object lesson, showing the progress of the western world up to date. All of the leading Pan-American countries will participate in the exposition.

THE ROSSLAND BAR.

A Telegram Received from Chief Justice McCall at Victoria.

The purport of the resolution passed on Wednesday by the Rossland Bar Association deprecating the suspension of the sitting of the Supreme Court in this city to permit of Mr. Justice Walkem going to the coast to take part in the trial by the Full Court of some case pending here was sent by the secretary of that association to Chief Justice McCall. Yesterday, a reply was received from him declaring that in sending his message to Mr. Justice Walkem urging his return to the coast and no intention of interfering with the sitting of the Supreme Court in the Kootenays.

ACCEPTS THE CHALLENGE.

Editor Miner: I have read the letter of Mr. J. B. McArthur, chairman of Mr. Galliner's committee, in yesterday's Miner. On behalf of Mr. John McKane, the Conservative candidate, I accept the challenge made and place myself at the disposal of the committee which Mr. McArthur has named. I will furnish them with the necessary evidence to substantiate the charge made by Mr. McKane.

CASIMIR DICKSON, Campaign Secretary Liberal-Conservative Party, Rossland, Nov. 22, 1900.

ICE IS GETTING HARD.

Rossland Curling Club Organizes for the Winter.

The annual meeting of the Rossland Curling club was held last night in the office of Mr. F. S. Gilmour. There was a large and enthusiastic attendance of members. The president, Mr. J. S. C. Fraser, was in the chair. The secretary-treasurer, Mr. T. S. Gilmour, reported a satisfactory balance in the bank after paying all expenses of last year.

Officers for the ensuing year were then elected as follows: Patron, Hon. C. H. Mackintosh; president, J. S. C. Fraser; first vice-president, W. T. Oliver; second vice-president, W. H. MacNeill; third vice-president, Wm. McQueen. Committee, A. B. Cranston, P. McL. Foin, F. W. Pretty, James Lawn, W. M. Wood. Secretary-treasurer, T. S. Gilmour. The appointment of a chaplain to the club was left over for the present. Quite a large number of new members were elected and the club starts the season of 1900-1901 with all prospects good for an enjoyable season's sport. It was announced that the ice would be ready for curling on Saturday evening.

A CHAT WITH W. W. BEATON.

He Believes That the Bureau of Mines Will Be Useful.

Mr. W. W. Beaton of the Nelson Miner was in town yesterday on business. In conversation with a Miner representative he said that Rossland could beat the lake town in the weather line by a few degrees, but that as far as mud was concerned Rossland was away behind, as Nelson has been enjoying the most enthusiastic storm experienced for years. "If there is any one thing that the people of Rossland are to be congratulated on," said Mr. Beaton, "it is the organization of the bureau of mines. Such a body, whose sole object is to properly advise the mining resources of this country should have been organized years ago, but as it wasn't all that remains for us to do now is to make it a marked success. It is time we lost all faith in the government

to bring this country before the investing public, and we have realized none too soon that we must do it ourselves. I am sure the outside mining interests will do all in their power to assist the Rossland gentlemen who have so energetically taken hold of the matter. They deserve every success, and I hope they will meet with the hearty support of all mining men. We have only the one thing in this country—mining—and anything calculated to encourage that industry deserves the aid of everybody."

A NARROW ESCAPE.

Mrs. Hatton Is Nearly Hit by a Flying Rock From a Blast on New Grade.

Yesterday morning Mrs. Hatton, the wife of Albert Hatton of the Grandend hotel, narrowly escaped death from a flying rock impelled from a blast on the new grade of the C. P. R. track just west of the Centre Star mine. The Hattons live in a house in the west end of town which is situated on the lower slope of Red Mountain, about two hundred yards below the new grade which is connecting the Black Bear with the War Eagle and Centre Star mines. Just after a blast by the graders on the new track above the house a huge rock came sailing through the air and descending towards Mrs. Hatton's house, crashed through the roof passing within a few inches of the lady's head and descending struck a chest and smashed it to splinters. The flying fragments did some further damage, so that in addition to her scare Mrs. Hatton is considerably out of pocket.

Married on Wednesday.

On Wednesday evening Mr. Donald W. Harris and Miss Mae R. Darby were united in matrimony in the manse of the Presbyterian church. The ceremony was performed by Rev. D. McG. Gaudier. The couple are favorably known in this city and have taken up their residence in a cosy home on Second avenue.

THOSE WATER RIGHTS.

Case Adjudged Pending Litigation Arising Over Nelson Grants.

There were many lawyers to be seen around the Gold Commissioner's office Friday when the adjourned case of the conflicting water rights came up for hearing before Mr. Kirkup. There were present A. C. Galt for the War Eagle, Hon. J. Mayne Daly for the British America Corporation, J. L. G. Abbott for the city and R. Hodge for the British Columbia Southern railroad, another name for the Canadian Pacific, which railroad is interested in Works at Trail, which, it is rumored, are likely to be rivaled by one of the competing parties near Rossland.

There was trouble developed at once. Counsel were indignant with the action recently taken by the last named party. It would seem that on the previous adjournment of the matter on October 10th for November 18th Mr. W. H. Aldridge for the Trail smelter, or as he named it the British Columbia Southern railroad, posted notices on Murphy and Stone creeks on October 11th, the very next day to ask for certain rights in this water at the lapse of 30 days. This it would seem is the legal period of notice. Instead of applying to this office in Rossland notice was given at Nelson and at the expiration of the time limit a took was accordingly obtained. All this took place within the period of the adjournment of the court. Neither of the opposing parties knew anything of the matter. The first intimation was the granting of the rights sought.

On receipt of the wire the secretary, Mr. W. de V. le Maistre wrote in the name of the Rossland Bar a letter thanking the chief justice for his telegram. It is probable that the sitting of the Supreme Court will take up the whole of next week and may be projected into the following week.

The prospect of a settlement now seems to be indefinite. The city title is apparently clear and has certainly priority if valid. Further the city is the only title which permits of the selling of the rights. Orders of titles obtained merely give permission to the various parties to use the water asked for and if not used it cannot be sold to another. In this case it would appear the best way for the city to take the water and let it at reasonable rates to the industrial concerns wanting it. Had a pipe line been put in at the first instance taking up the water in the various creeks there would have been little trouble in carrying out this plan of action. Under the circumstances, now that a great deal of the money borrowed has been spent within the city limits this cannot be done without the borrowing of more money, which would require the consent of the rate payers. And then arises another complication. The War Eagle is perfectly willing to bring in this water, which would cost from Murphy creek, or being at \$100,000. Mr. H. B. Smith's rough estimate being at the rate of \$10,000 per mile. Now it is eight miles from Stone creek to Murphy creek along the shortest route, which would be that of a pipe line. But if the War Eagle company spend this amount of money instead of the city it naturally wants to have some definite rights in the matter.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. E. W. Grove's signature is on each box.

GOOD SCHOOL ROOMS.

A Heating Apparatus That Does Not Give Good Satisfaction.

The hot air apparatus at the big school worked more satisfactorily yesterday than usual. Last year and in the spring of the present year repairs of various kinds were made to the equipment of the school at Victoria as to the faults of the heating apparatus and Mr. John Kirkup, government agent, in this city, was instructed to look into the system with the object of devising some system by which any difficulty which might exist as to the distribution of the heat, might be overcome. The trouble seems to be a difficulty in conveying the heat from the furnace to the rooms. Some of the roomers have ample heat while others are as cold as barns. There is 30 tons of coal in the basement and so the difficulty is not caused by any lack of fuel. The system of heating is what is known as the "Pense system, with headquarters in Toronto. The matter of fixing up the heating apparatus should be attended to at once, as parents do not care to send their children to school when they are not certain that they may not suffer while there from the cold. Classes have to be dismissed occasionally on account of the coldness of the room and parents are not certain when they will be allowed to remain. This tends to demoralize the schools and to decrease the attendance. The heating apparatus cost \$2,500 and should be efficient for the purpose intended. If there are defects in the apparatus a little overhauling by an expert should remedy them.

IS STRONGLY APPROVED.

Chamber of Mines Promises to Be Strongly Supported. Mr. J. B. McArthur, president of the Chamber of Mines, reports that quite a deep interest is being taken in that body all over the Kootenays. The circular letter prepared by the chamber has been sent out to a large number of places. A copy has been sent to every newspaper in the district, asking the editor to send the children to school when they are not certain that they may not suffer while there from the cold. Classes have to be dismissed occasionally on account of the coldness of the room and parents are not certain when they will be allowed to remain. This tends to demoralize the schools and to decrease the attendance. The heating apparatus cost \$2,500 and should be efficient for the purpose intended. FADING AWAY.

THE CONDITION OF YOUNG GIRLS WHO ARE ANAEMIC.

This Record Is of Especial Value to Parents—It Is a Message From a Mother to Mothers of Growing Girls.

Among the young girls throughout Canada who owe good health—perhaps life itself—to Dr. Williams' Pink Pills, is Miss Hattie Althouse, of Campden, Ont. When a representative called at the Althouse homestead to make enquiries as to the particulars of the cure, he was cordially received by Mrs. Althouse, who readily consented to give a statement for publication. "Up to the age of fourteen years," said Mrs. Althouse, "my daughter Hattie had always enjoyed the best of health. Then she began to complain of weakness and grew pale and languid. We tried several medicines, but instead of helping her she was steadily growing worse, and we became alarmed and called in a doctor. He told us that her blood was in a very water condition, and that she was on the verge of nervous prostration. She was under his care for several months, but still kept growing worse. She had become very pale, had no appetite, frequent headaches, and after even slight exertion her heart would palpitate violently. As time passed she seemed to grow worse and worse, until at last she could scarcely move about, and would lie upon a sofa most of the day. At this juncture she had occasional fainting fits, and any fright, as from a sudden bang on the door, brought on attacks of hysteria. Both my husband and myself feared that she would not live more than a few months. It was while Hattie was in this condition that I read an account of a girl cured of a similar ailment through the use of Dr. Williams' Pink Pills. Then I decided that Hattie should give them a trial, and procured three boxes, and she began to improve. It was an undoubted improvement in her condition, and we felt hopeful that she would regain her health. She continued using the pills, and from that on daily made progress toward complete recovery. Her appetite returned; color began to come back to her face, headaches disappeared, and in the course of a few months she was as well as ever she had been in her life. It is now more than two years since she discontinued the use of the pills, and in all that time has enjoyed the best of health, with absolutely no return of the trouble. I can scarcely say how grateful we feel for what Dr. Williams' Pink Pills have done for my daughter, and I would strongly urge mothers whose daughters may be ailing to give them Dr. Williams' Pink Pills at once, and not experiment with other medicines."

Dr. Williams' Pink Pills create new blood, and thus reach the root of the disease. In the case of girls merging into womanhood they are almost indispensable, and their use is a guarantee of future health and strength. Other so-called tonic pills are mere imitations of this medicine, and should be avoided. If your dealer does not keep them they will be sent post paid at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams Medicine Co., Brockville, Ont.

NOTICE

Notice is hereby given that application will be made to the Legislature of the Province of British Columbia at its next session for an act declaring that under and by virtue of three certain grants of water rights dated the 23rd day of December, 1897, signed by W. J. Gospe, acting gold commissioner, in favor of F. Aug. Heinze; and another grant of water rights dated the 30th day of March, 1898, signed by O. G. Dennis, gold commissioner, in favor of the British Columbia Smelting & Refining company, all of which were subsequently assigned by the said F. Aug. Heinze and the said British Columbia Smelting & Refining company to Messrs. Richard B. Angus and Thomas G. Shaughnessy, and by them assigned to the British Columbia Southern Railway company; the said British Columbia Southern Railway company is entitled to have, hold, exercise and enjoy all and singular the rights, powers and privileges which the said British Columbia Southern Railway company would be entitled to if the said British Columbia Southern Railway company had been incorporated as a Power company under part 4 of the Water Classes Consolidation Act, 1897, and had obtained under the said part 4 of the said act records of said water. Dated at Vancouver this 3rd day of November, 1900. J. DAVIS, MARSHALL & MACNEILL, Solicitors for the Applicants.

NOTICE

Rossland, B.C., Nov. 9, 1900. To F. B. Salisbury: Notice is hereby given that I, Wm. Griffiths, intend to claim the one-fourth (1/4) interest in the "Olive" mineral claim situate on the west side of Sullivan creek, in the Trail Creek mining district, formerly held by F. B. Salisbury, on which I have done all the assessment work for the past three years, and for which the said F. B. Salisbury has not paid his share of the expense. This also applies to a certain bill of sale of said interest given to other parties. This action is taken under Section 4, of Chap. 45, of the Statutes of 1899 and amendments of 1900. Wm. B. Townsend and Agent for Wm. Griffiths.

NOTICE

Notice is hereby given that the directors of the Canadian Gold Fields Syndicate, Limited, have declared a dividend of three per cent on the paid up capital stock of the company for the quarter ending 31st December, 1900, payable on 2nd January, 1901, to the shareholders, of record on the 20th December, 1900. Transfer books will be closed from the 20th until 31st December, 1900, inclusive. J. C. HODGSON, Secretary.

MIN AND MIL

SMELTERS AND MINES

News of the Camps of the B. District.

Greenwood, B. C., Nov. 19.—(Sp) The first consignment of machinery from the Lyrice smelter, under contract the Standard Pyritic Smelting Company, Boundary Falls arrived Monday.

Cars out of nine are at the freight house awaiting the completion of the shale smelter site before removal of the loads of machinery. Mother Lode mine has so far received and others are en route. This machinery there is a large investment due for the smelter being by the company owning the mature date eight carloads of smelter material and supplies have come to hand. Balance is anxiously awaited.

The ratification meeting confirmation taken by the shareholders of the Wainipig Mining & Smelting company at the evening of the 18th inst. at the company in voluntary liquidation for the purpose of re-organizing, is to be on December 1. In the meantime Richard Plewman, secretary of company, and to whom credit is in its efforts to re-organize, is in the mine as official liquidator.

Staff will be employed in the interim necessary work and keeping the going. The new company will be the Wainipig Mines, Limited, nominal capital of \$1,250,000, divided into shares of the par value of \$1, it up to the extent of 95 cents. Shareholders of the old concern allotted share for share in the balance of the shares, 250,000 placed in the treasury. A trust stock from the old to the new company, shares of the new require one cent per share and the balance four cents is more than likely to be payable at the rate of one cent per month as the money required for development purposes, nearly \$50,000 will be provided. The assessments, beside what maintained from the sale of any or 250,000 shares of treasury stock.

Old directors believe, will be sufficient to demonstrate the property it has been found impossible the mine self-sustaining from the ore shipments, at the same keep the development well ahead plan of assessment is about the course open for the management funds to carry on the work is quite certain that present treasurers are unmarketable. Besides the equally distributed, and it is known that the directors themselves share the largest portion of it. There shoots are known to exist in foot level, and from the last one up the No. 2 north—a recent shaft—twenty-two tons gave a return of ten per ton, net. This is remarkably and while only a few feet of ore has been done in opening up the mine, it is every reason to believe that further development it may turn out. The superintendent in his report suggests following this down, as work is resumed this will probably done, as so other much needed money.

On the adjoining property the Golden Crown work has been held for some days. The reason that a better smelting rate can be obtained from either of the two locations in course of construction, to heretofore been offered the management.

W. T. Smith will shortly have men at work on the Nonesuch in camp, and the Emma, in Summit. The Emma has been explored to extent and there is considerable the dumps. Interested with Mr. Mackenzie & Mann, wealthy railway contractors. Since they secured an interest in the property it has laid idle. Mr. however, intends to prosecute development on his own account and believed sufficient ore on the dumps and to provide necessary funds for the opening up of the mine.

The report that in the Oro Dena resumed work is a little premature. Evidently gained credence through that a few men were recently at the site, cleaning some out so as to have there, a satisfactory examination, as here, has been told in the Miner. W. outcome of this examination will be hard to say. Stevens will not a publication and there is no one absolutely knows what is going place, though there is not a mine who would not like to see the Oro under active development.

At the Jewett in Long Lake ground is being cleared for the mill and a road has been completed to the site. No development on just at present, though some ore are being made to the works at Silica. Today two carloads sent out.

The crosscut from the shaft at foot level of the Rambler, in camp, encountered some nice lode per ore the past week. The vein is over 65 feet and the face of the things is all in well mineralized rock. The Rambler is owned by the B. C. Spokane Mining company, reorganized. A. G. Davis of this city. The capital is heavily interested in the mine.

On the Buckhorn in Deadwood Superintendent A. E. Bielmeier force of thirteen men. After considerable prospecting on the site, he has returned to the mill. Having started a crosscut from foot level, this crosscut is being made in an easterly direction and over will have to be traversed before to encounter the ore body. Previous to leaving here the California W. J. Hogg of M said to have closed a deal for a claim in West Copper camp. T
