He has ettit another remarkable case to report, as follows.

The child of Mr. R. J. Powler, Professor of Masic,
residing at No. 53, Craig Street, Montreul, had, been suffering severely from an attack of the usual summer
compaint, attendant on Teething. The infant become
greatly reduced by the saverity of the disease, as well as
the Influence of the heat of the weather; and great fears
were custrainted as to its recovery. The parents were
induced by the suggestions of a friend, to resort to the use
of the Plantageact Water, and knowing that their family
physician, Dr. McCulloch, had favourably recommended
the use of this Water in many caves, they consented to
unke one of the ame, and they believe it was the means
of austoring their child it such an improvement of beatth,
as to adford a hope for its ultimate recovery. The above
circumstances will, no doubt, prove interesting to those
families or indust, and the season of antipe and unwholesome iruits and vegetables.

C. LAROCOUER, Agent.

For the past eleven years I have labored under an impaired state of the digositive organs, from which I have lound no relief, even by following the prescriptions given by the best physicians of Paras, of Benavais, of Crepy, and I Greay, on the lester, but since I have made use of the Paratagenet Waters, I had myself much better. My heath has sensibly improved, and I am quite inclined to bolieve that, by the means of these boueficial Waters, I can be radically cured.
