The news of the duty of one shilling a ton on English coal exports must have been pleasant reading for H. M. Whitney and the Dominion Coal company. One of its officers recently stated that that company expected in a couple of years to be sending one million tons of coal annually from Cape Breton to the Mediterranean. This, he said, his company intended doing without the assistance of the British export duty, but with it the work will be that much easier.

One pill a dose, 25 cents a box, all dealers.

GET WHAT YOU ASK FOR

When you ask for any of Dr. Chase's Remedies look for his portrait and signature on the box, otherwise you may get an imitation. Beware of the druggist who tries to induce you to take something said to be just as good. If he substitutes medicines he will substitute drugs in prescription. Insist on getting what you ask for and remember that there are no family remedies to be compared to those of Dr. A. W. Chase, author of the famous Receipt Book.

Consumption

is, by no means, the dreadful disease it is thought to be in the beginning.

It can always be stopped in the beginning. The trouble is: you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home.

Take Scott's Emulsion of Cod Liver Oil, and live carefully every way.
