More costly than Gold Dust

Road dust and the small particles of carbon and metal that go with it into your crank-case, costs you more than an equal weight of gold dust, by grinding away the life and efficiency of your motor.

Your crank-case should be drained, thoroughly cleaned and refilled with

fresh Imperial Polarine every 500 miles. Motorists will appreciate our Crank-Case Service. We are equipped to take care of every thing of this sort promptly and in an expert way.

We sell and recommend Imperial Polarine and have the right grade for your car.
