PACKING HOUSES.

The announcement that Sir Thomas Lipton, and others, are contemplating the erection of a number of packing houses in Canada, has created considerable interest in the industrial world, and has been the subject of much favorable comment. The people of Kent County are interested more than others, especially when it is considered that in no place in Canada can a better locality be found for the successful raising of

out Europe, because of the recent mailed investigation.

sent time an opportunity that should not be allowed to pass, to secure a firm hold upon the canned meat trade with the British Isles, as result of the disfavor with which the products of the large packinghouses are viewed by the British public since the revelations of the uncleanly methods of the Chicago packers.

The commercial agent of the Can. adian Government at Liverpool has offered in shops are viewed with dismade an enquiry among the leading cretion by travelers who have seen provision firms in that district and finds that while there are at pres- houses. On their native heath they are ent no buyers for canned goods of any description from any country, since the Chicago disclosures, the since the Chicago disclosures, the are apt to be well seasoned with ham opinion prevails that the market will fat. The duty of the settle is fourfold. in two or three months' time likely revert to its old position, and the part can be raised, in the drawers bepublic buy canned goods as in the neath are kept the family rags for past, giving preference to those countries having good government inspection. The Canadian agent adds: "I asked leading provision firms for a candid opinion on Canada's canned meats, and was told that toys compared to the actual thing. they considered them equally good if a little better than the average 'American' brand. They also sug-'American' brand. They also sug-gested that Canadian packing-houses se to pay so much coln. If you dehad a great opportunity to make spe- stroy a five dollar note, for instance, had a great opportunity to make special efforts to place their goods on the British market, having an asset the bank which issued the note from the British market, having an asset the payment of the \$5 in gold which ics at a funeral. Punch's notion of huthe British market, having an asset of great value in the fact that these the payment of the \$5 in gold which the note called for. Of course, theregoods are put up under the British

pete successfully with the large packing houses over the border, which at the expenditure of millions of dollars, captured the British market, but since the latter have lost this foreign trade, Canadian pack ers, by acting energetically, may secure an increased share when the demand for canned meats is revived.

The committee should find out whether or not there is any inducement which the city can offer, which would bring forth the desired results.

The Ottawa Free Press in commenting on the future of packing houses in Canada expresses the opinion that now is the appointed time for Canadians to take advantage of the disfavor in which the American packers are held through-

At the Chatham Grand-Sevengala-July 30-Aug. 4.

SEVENGALA IS WONDERFUL. SEVENGALA IS WONDERFUL.

Sevengala, the hypnotist, opened up his weak's engagement Monday evening before a large and appreciative audience, and it can be safely said that Sevengala has no equal in his peculiar and mysterious profession. We have witnessed the exhibitions of many, such as Carpenter, Flint, Lee, Sages, Rouclere, Day, and others, but Sevengala surpasses them all. One of the most convincing proofs that Sevengala's work is legitimate is that he does not carry a company that Savengala's work is legitimate is that he does not carry a company of subject. He selected his subjects from the audience, and all those that responded were well-to-do town-jeoph. After Eavengala got warmed up to his work it was one continuous laugh. The audience was convulsed at the Devil's supper and billion ascension, but what mystific everyone was the wonderful te t known as the "Transmission by telepathy," which should be seen to be appreciated.—Daily Standard, Trey, pathy," which should be seen to be appreciated.—Daily Standard, Trey, N. Judging from the above criticism, as named above and receiving such a criticism stamps him as a past master of his chosen and distinguish-

Ald. Bensen, therefore, brought up a very important matter at the last meeting of the City Council, when he suggested that the Industrial committee should make strong efforts to secure the location of one of these packing houses in Chatham.

In a small town in California a hospital was erected on Salsipuedes street, and the board of directors, in lieu of something better, suggested that the hospital bear the name of the street. One more cautious than the rest sug gested that it would be well to know the meaning of such a name before making indiscriminate use of it, and it is to this man that the success of the hospital is due, for on finding that Salsipuedes meant "get out if you can," the name was hastily changed to some-thing less suggestive of "who enters
