

Friend of the Prince Edward Islander.
HOLLOWAY'S OINTMENT.

EXTRAORDINARY CURE OF ASTHMA !!
OF AN OLD LADY SEVENTY FIVE YEARS OF AGE.

Copy of a Letter from Mr. Thomas Weston, (Book Store,) Toronto, dated the 9th October, 1854.

To Professor Holloway,

Sir,—Gratitude compels me to make known to you the extraordinary benefit an aged parent has derived from the use of your Pills. My mother was afflicted for upwards of four and twenty years with asthma and spitting of blood; it was quite agony to see her suffer and hear her cough; I have often declared, that I would give all I possessed to have her cured; but although I paid a large sum for medicine and advice, it was all to no purpose. About three months ago, I thought perhaps your Pills might benefit her; at all events I resolved to give them a trial, which I did; the result was marvellous: by slow degrees, my mother became better, and after persevering with your remedies for nine weeks, she was perfectly cured, and now enjoys the best of health, although seventy-five years old.

I remain, Sir,
Your obliged,
THOMAS WESTON.

REMARKABLE CURE OF DROPSY.
AFTER BEING TAPPED THREE TIMES.

Copy of a Letter from Anthony Smith, Esq Halifax, Nova Scotia, dated the 25th August, 1854.

To Professor Holloway,

Sir,—I desire to add my testimony to the value of your Pills, in cases of dropsy. For nine months I suffered the greatest torture with this distressing complaint; was tapped three times, and finally given up by the doctors; having become in appearance as a skeleton, and with no more strength in me than a child just born. It was then, that I thought of trying your Pills, and immediately sent for a quantity, and commenced using them. The result I can scarcely credit even now, although true it is. After using them for four weeks, I felt much better, and by persevering with them, at the expiration of two months, I was completely cured. I have since enjoyed the best of health.

I am, Sir,
Yours sincerely
(Signed) **ANTHONY SMITH.**

ASTONISHING CURE OF GENERAL DEBILITY AND LIVER COMPLAINT !!

Copy of a Letter from William Reeves, of Charlottetown, Prince Edward Island, dated 17th Nov. 1854.

To Professor Holloway,

Sir,—I am happy to say, that your Pills have restored me to health after suffering for nine years from the most intense general debility and languor, my liver and bowels were also much deranged for the whole of that time. I tried many medicines, but they were of no good to me, until I had recourse to your Pills, by taking which, and following the printed directions for seven weeks I was cured, after every other means failed to the astonishment of my neighbours, acquaintances, and friends. I shall ever feel grateful to you for this astonishing restoration to health, and will recommend your Pills to all sufferers, feeling it my duty to do so.

I remain, Sir, your humble servant,
(Signed) **WILLIAM REEVES.**

By the Mayor

of the City of Charlottetown.
THE Mayor of the City of Charlottetown, in pursuance of a Resolution of the City Council to that effect, hereby cautions all persons from dealing or trafficking in the sale or purchase of any part of the Common of Charlottetown, and from erecting or placing any kind of buildings upon the same, it being the intention of the Corporation to take all legal measures that may be necessary for putting the City in possession of its rights and privileges in respect to the said Common.
ROBERT HUTCHINSON, Mayor.
City of Charlottetown, Sept. 13, 1855.

PROSPECTUS

OF THE
SCIENTIFIC AMERICAN
ELEVENTH YEAR.

The Proprietors of the Scientific American respectfully give notice, that the Eleventh Annual Volume of their Journal will commence on the 16th of September next.

THIS work differs materially from other publications, being an Illustrated Periodical, devoted chiefly to the promulgation of information relating to the various Mechanical and Chemical Arts, Industrial Manufactures, Agriculture, Patents, Inventions, Engineering, Millwork, and all interests which the light of Practical science is calculated to advance.

The Scientific American is printed once a week, in convenient quarto form for binding, and presents an elegant typographical appearance. Every number contains eight pages of reading, abundantly illustrated with original engravings. All the most valuable patented discoveries are delineated and described in its issues, so that, as respects inventions, it may be justly regarded as an Illustrated Repository, where the inventor may learn, what has been done before him in the same field which he is exploring, and where he may bring to the world a knowledge of his own achievements.

Reports of U. S. Patents granted are also published every week, including Official Copies of the Patent Claims; these Claims are published in the Scientific American in advance of all other papers. The Contributors to the Scientific American are among the most eminent, scientific, and practical men of the times. The Editorial Department is universally acknowledged to be conducted with great ability and to be distinguished, not only for the excellence and truthfulness of its discussions, but for the fearlessness with which error is combated and false theories are exploded.

Mechanics, Inventors, Engineers, Chemists, Manufacturers, Agriculturists, and people of every profession in life, will find the Scientific American to be of great value in their respective callings. Its counsels and suggestions will save them hundreds of dollars annually, besides affording them a continual source of knowledge, the experience of which is beyond pecuniary estimate.

Terms of Subscription, \$2.00 a year, \$1.00 for six months.

HASZARD & OWEN, Agents for P. E. Island.

WANTED,

FOR Middle District School, Brackley Point Road, a COMPETENT TEACHER to whom a liberal allowance will be given by the Trustees of the aforesaid School.

By order of the Trustees,
CHARLES STEWART,
Brackley Point Road, September 19th, 1855.

MISCELLANEOUS.

WHAT A NEWSPAPER DOES WITHOUT REWARD.—

The result of my observation enables me to state as a fact, that publishers of newspapers are more poorly rewarded than any other class of men in the United States, who invest an equal amount of labour, capital and Thought. They are expected to do more service for less pay, to stand more sponging and "dead heading," to puff and defend more people, and sorts of people, without fee or hope of reward, than any other class. They credit wider and longer; get oftener cheated, suffer more pecuniary loss; and are oftener the victims of misplaced confidence, than any other calling in the community. People pay a printer's bill more reluctantly than any other. It goes harder with them to expend a dollar on a valuable newspaper than ten on a useless gewgaw; yet every body avails himself of the services of the editor's and printer's ink. How many professional and political reputations and fortunes have been created and sustained by the friendly, though unrequited pen of the editor? How many embryonic towns and cities have been brought into notice, and puffed into prosperity by the press! How many railroads, now in successful operation, would have foundered, but for the assistance of the "lever that moves the world;" in short, what branch of American industry, or activity, has not been promoted, stimulated and defended by the press! And who has tendered it more, than a miserable pittance for its mighty services? The bazaars of fashion and folly, the haunts of appetite and dissipation, are thronged with an eager crowd bearing gold in their palms, and the commodities there vendible are sold at enormous profits, though intrinsically worth less, and paid for with scrupulous punctuality: while the counting room of the newspaper is the seat of jowling, cheapening, trade, orders and pennies. It is made a point of honour to liquidate a grog bill, but not of dishonor to repudiate a printer's bill.—*Cleveland Leader.*

A SURE SIGN.—When you see a gentleman at midnight, sitting on the step in front of his house, combing his hair with the door-scraper, you may conclude that he has been out at an evening party.

In Rome, when a father was in debt, he could sell his son; in England, when a son is in the same predicament, he sells his father.

The Duke of Gloucester, being in conversation with Lord Brougham on the subject of reform, grew so warm in the argument, that he observed hastily, that the Chancellor was very near a fool.

Brougham replied, that he could not think of contradicting the Duke, and declared that he fully saw the force of his royal highness's position.

AN old lady, possessed of a fine fortune, and noted for her penchant for the use of figurative expressions, one day assembled her grand children, when the following conversation took place:—"My children," said the old lady, "I am the root and you are the branches." "Grandma," says one. "What, my child?" "I was thinking, how much better the branches would flourish, if the root was under the ground."

CHEAP DINNER FOR TWO.—An American editor says, he has heard of an economical man, who always takes his dinner in front of a mirror, to double the dishes. The writer says, he doesn't know (dinner ken) what's philosophy, if this isn't. We presume the real reason is, that the man finds it a cheap way of enjoying his glass with his meals.

Holloway's Ointment and pills—Wonderful Remedies for the Cure of Scalds and Burns.—Amelia Anderson, of Sydney, Nova Scotia, was accidentally severely scalded by some boiling water falling over her. The whole of the right side and leg in particular was in a most shocking state. Something in the hurry of the moment was applied, which caused the flesh to peel off almost to the bone, and rendered her utterly unable to move; she was carried to bed, medical assistance called in, and her recovery despaired of; it so happened, that a friend who paid a visit that day, had just been cured of a dreadfully bad leg by Holloway's Ointment and Pills; and she recommended the same, the Pills and Ointment were accordingly bought and used, by continuing them for two weeks, she was perfectly well, and has written most gratefully to Professor Holloway for the cure effected.

WHAT is next to non-stealing?—Cook robin.
